## INTRODUCTION

The mission of the Office of Elections is to provide secure, accessible, and convenient election services to all citizens statewide. Its goals and objectives are to (1) conduct honest and efficient elections; (2) encourage participation in the electoral process; (3) protect voter rights; and (4) promote elections. In furtherance of this, it conducts candidate filing; prints, counts, and tabulates ballots; and provides voter education. In accomplishing this, it works in coordination with the county clerks, who oversee voting by mail and in person, along with voter registration.

Historically, elections operated primarily under a polling place model that included opportunities for absentee voting. With the public's successful experience with absentee mail, absentee walk locations, and special elections by mail, the Legislature ultimately passed Act 136, Sessional Laws of Hawaii 2019, which migrated the State away from the prior polling place model to the current elections by mail model. The Act required prior to the convening of the Legislature in 2020, 2021, 2022, 2023, 2024, and 2025 the submittal of a report addressing the following:

- (1) The office's progress in implementing this Act;
- (2) A summary of the office's discussions with the county clerks to determine areas of joint implementation of this Act;
- (3) A summary of the expenditures required to implement this Act and a comparison of those expenditures with the expenditures required to conduct elections or election-related activities before the enactment of this Act;
- (4) Any additional resources the county clerks or the office may require to implement this Act;
- (5) Any developments in assistive technology that may be implemented by the State, the counties, or nonprofit associations to ensure that persons with disabilities are not, on the whole,

disadvantaged by implementation of this Act, including the costs associated with such technology;

- (6) Any difficulties encountered in the implementation of this Act;
- (7) Specific steps taken and recommendations necessary to prevent fraud and ensure the integrity of the election process; and
- (8) Any other findings and recommendations, including any proposed legislation necessary to clarify and make consistent chapters 11, 12, 15, 15D, 16, and 19, Hawaii Revised Statutes, in light of the transition to statewide elections by mail.

Our prior *Implementing Elections by Mail* reports have addressed the above requirements by providing the following: (1) an extensive background on the history of voting in our state; (2) a statutory review of Act 136, SLH 2019; (3) a discussion of the planned implementation of elections by mail, including the sharing of responsibilities with the counties and fiscal matters; (4) a summary of the execution of elections by mail, against the backdrop of the COVID-19 pandemic, that occurred for the 2020 Elections; (5) a summary of the execution of elections by mail for the 2022 Elections, following the delay in the completion of the reapportionment process due to COVID-19's impact on the ability of the U.S. Census Bureau to provide the relevant population data in a timely manner; and (6) a detailed discussion of the post-election auditing process associated with the migration to elections by mail and the new voting system. Those reports were submitted to the Legislature on November 6, 2019, December 31, 2019, November 20, 2020, November 18, 2021, November 18, 2022, and October 26, 2023. This report builds off the foundation of those earlier reports and focuses on the execution of the 2024 Elections.

## **EXPENSES**

With the shift to elections by mail, the main expenses are the mailing house, postage, and the voting and vote counting system. The expenses for the election are prorated between the State and the four counties.

All expenses related to elections by mail involving both state and county offices, or involving both federal and county offices, unrelated to voter registration, shall be divided in half between the State and the counties. To the extent that a particular expense is shared statewide, each county shall pay a proration of expenses as a proportion of the registered voters at the time of the general election. The counties shall separately be responsible for expenses associated with voter registration.

HRS § 11-110(a)(1).

The reconciliation of the expenses associated with an election cycle occurs in the first six months of the odd-numbered calendar year that follows the general election. This is necessitated by the State and the counties needing to be invoiced after the election by their vendors for the goods and services received, make payment to those vendors, and internally calculate staffing costs attributable to the conducting of the 2024 Elections. Additionally, it is impacted by the end of the fiscal year for the State and counties being June 30, 2025, and the need to resolve any accounting matters by that time. The State and the counties will go through the prorations process at the conclusion of the 2024 election cycle.

The table below, provided in our last report, reflects the expenditures to conduct the 2018 Elections, the last elections before the enactment of elections by mail – which followed a different expense-sharing structure, the cost of the 2020 Elections, which included CARES Act funding, and finally the 2022 Elections.

	<b>2018 Elections Expenses</b>	<b>2020 Elections Expenses</b>	<b>2022 Elections Expenses</b>
<b>Early Voting</b>	219,072	269,306	396,543
<b>Election Day Officials</b>	527,510	179,958	263,588
<b>Facilities</b>	59,640	1,110,330	90,943
<b>Mailing Services &amp; Envelopes</b>	143,349	479,670	94,533

<b>Places of Deposit</b>	0	228,754	67,749
<b>Postage</b>	415,662	1,615,429	658,282
<b>Proclamations</b>	70,200	20,475	56,708
<b>Shipping &amp; Delivery</b>	225,657	10,429	54,298
<b>Staffing</b>	1,414,838	1,398,838	1,205,153
<b>Supplies &amp; Equipment</b>	192,549	168,363	319,980
<b>Travel</b>			15,912
<b>Voter Education</b>			790,331
<b>Voting &amp; Vote Counting System Contract</b>	3,209,000	2,990,000	3,895,187
<b>Total</b>	<b>\$6,477,477</b>	<b>\$8,471,552</b>	<b>\$7,909,207</b>

As a note, the cost of facilities fluctuated with COVID-19 as we needed to lease the Hawaii State Convention Center in 2020 to serve as a counting center for social distancing reasons. Additionally, the cost of the voting system contract went up in 2022 as the voting system was upgraded and mailing house services were incorporated into the contract. Further, beginning in 2022, we included travel and voter education categories into the table as those categories were not directly accounted for in prior tables.

We previously noted that there were some fluctuations in the categories as the State and counties have been revisiting how to categorize matters that overlap or that had not previously been explicitly accounted for in the past. There were also some fluctuations associated with expenditures for capital equipment, such as ballot drop boxes, that do not naturally need to be repeated the following election cycle. As revisions to the elections by mail model have occurred, such as the expansion of voter service centers, there have been additional expenses.

We expect that the expenses for the 2024 Elections will be largely like the 2022 Elections, except for the new expense of the digital voter information guide.

## **VOTER EDUCATION**

Voter education requires coordination with the counties. Specifically, the State was responsible for the voter education program on a statewide basis, while the counties were generally responsible for any voter education or similar matters that were specific to their county (e.g. advertisements that only addressed their county), with the exception of a targeted campaign that the State and the County of Maui conducted for voters impacted by the 2023 wildfires.

## **MEDIA CAMPAIGN**

Our office continued our partnership with the marketing agency we worked with previously for the 2020 and 2022 Elections. As part of the voter education campaign, their services included designing collateral materials, such as voter registration applications and election brochures that we use for voter education. Additionally, the marketing agency assisted in the development of our media campaign, producing our radio, television, digital and print ads to help raise awareness about important election dates and deadlines.

Messaging for the 2024 Elections covered voter registration, guidance on voting by mail, and ballot tracking. In an effort to combat mis- and disinformation, the media campaign also placed an emphasis on promoting the Office of Elections as an official source of election information.

With the 2024 Elections approaching, in March 2024, we followed up on a previous media campaign that we had coordinated with the County of Maui to address Maui residents who were displaced by the August 2023 wildfires. The campaign in late 2023 had involved alerting residents to update their mailing address to ensure that their 2024 mail ballots would be successfully delivered.

Beginning in June 2024, the media campaign alerted voters to register to vote or confirm that their existing registration was up to date. In July, voters were informed to expect their mail ballot and were encouraged to sign up for our ballot tracking service. As Election Day approached, in late July and early August, the campaign shifted to remind voters to return their ballot, as well as provide information about same day voter registration. A similar campaign was executed for the General Election from September through November.

## **VOTER OUTREACH**

Our office continued to conduct voter education presentations and participated in community events to raise awareness about voter registration, elections by mail, and accessible voting options. We worked with community partners to reach a diverse group of audiences, including college students, voters with accessibility needs, and senior citizens. Our office conducted several presentations for disability groups that allowed attendees to practice voting using the accessible ballot marking device that is deployed at voter service centers.

A monthly newsletter was produced that covered various election and voting topics that included candidate filing and ballot access, voting by mail, voting options for voters with disabilities, and tips and reminders for voters when casting their ballot. The newsletters were posted on our website and distributed to various groups, organizations, and government agencies to disseminate within their network. Additionally, voters could sign up on our website to receive these resources.

## **DIGITAL VOTER GUIDE**

As a result of Act 115, SLH 2023, we published our first voter guide for the 2024 Primary and General Elections. Candidates had an opportunity to submit a statement and photo during the candidate filing process. On a related note, Act 177, SLH 2023, required our office to generally include a candidate's legal name wherever their requested ballot name appeared. Given this, the voter guide, in addition to any candidate filing report, was required to include not only the candidate's ballot name but also their legal name.

The guide also included basic voter education, including information on ballot return deadlines, ballot drop boxes and voter service centers, same day voter registration, and information about accessible voting options. The General Election edition additionally

included explanations of the constitutional and charter amendment questions provided by the Attorney General and the county attorneys.

We produced the voter guide in two formats, online at [elections.hawaii.gov](https://elections.hawaii.gov), and in print at all Hawaii State Public Libraries. The digital voter guide allowed users to view their specific sample ballot and candidates by entering in their residence address. To meet the accessibility requirements of Act 115, SLH 2023, the digital voter guide used an accessibility widget called UserWay. The widget allowed users to adjust their page settings for specific disability profiles including for individuals who are motor impaired, color blind, visually impaired, or dyslexic. Additionally, the voter guide was available in Chinese, Hawaiian, Ilocano, and Tagalog.

## **2024 PRIMARY ELECTION**

### **OPENING OF CANDIDATE FILING**

Candidate filing opened on February 1, 2024. The Office of Elections provided candidate filing services for federal, state, and county offices. Given that the Office of Elections is based on Oahu, the county clerks on the neighbor islands provided candidate filing services not only for county offices, but also for federal and state offices. The City and County of Honolulu provided candidate filing services for its county offices.

Beginning with the 2024 Elections, candidates are provided the opportunity to submit a short statement and photograph, to be included in the voter guide. Additionally, our office is required to provide the candidate's legal name in the voter guide and associated reports.

### **ISSUANCE OF JOINT ELECTION PROCLAMATION WITH COUNTY CLERKS**

On May 10, 2024, a joint election proclamation was issued by the Chief Election Officer and the county clerks establishing the time, place, and manner for the upcoming elections, including the designation of the voter service centers and places of deposits and their days and hours of operation.

## **CLOSE OF CANDIDATE FILING**

Candidate filing closed on June 4, 2024. Candidates had until the following day on June 5, 2024, to withdraw for any reason. In the end, there were 279 candidates who had filed for one of the over 100 seats that were up for election this year, excluding President and Vice President, which involved a separate process that will be addressed later in this report. HRS § 11-113. A total of 257 of the initial 279 candidates provided statements and photographs for inclusion in the digital voter guide. For those who did not, a simple statement was included in the voter guide indicating no statement or photograph was submitted.

## **BALLOT PROOFING**

The ballot proofing process for the various ballot types started shortly after the close of candidate filing and the ballot types were provided for viewing by the candidates and political parties. There were over 240 ballot types to be proofed covering the unique combination of contests for each district/precinct that voters were entitled to vote on. Additionally, the associated programming of the voting system, which is tied to ensuring these ballot types can be accepted and read by the voting system, had to occur.

## **MILITARY AND OVERSEAS BALLOTS**

The proofing and finalization of the ballots had to be done in a timely manner to ensure compliance with the deadline in the Uniformed and Overseas Citizens Absentee Voting Act (UOCAVA) and its state counterpart to transmit ballots at least 45 days in advance of an election. The deadline this year was June 26, 2024.

## **OFFICIAL OBSERVERS' TEST**

The Official Observers' Test, a logic and accuracy test of the voting equipment deployed to the voter service centers, was conducted in each county between July 6, 2024, and July 13, 2024. Test ballots were marked by Official Observers, who created their tally of expected results. The test ballots were then run through the voting equipment, which produced the tabulated results. The Official Observers' tallies were subsequently reconciled against the tabulated results from the voting equipment. Having confirmed the voting equipment counted the ballots logically and accurately, the Official Observers witnessed the sealing of the voting equipment for the Primary Election.

## **BALLOT MAILING TO THE GENERAL PUBLIC AND THE BEGINNING OF VOTING**

Following the Official Observers' Test, election officials focused on the mailing of ballots to the public, so they could be received at least 18 days prior to the Primary Election, as required by statute. Specifically, election officials are required to "mail a ballot package by non-forwardable mail to each registered voter [,]" except for those who are "identified as having an outdated or non-deliverable mailing address." HRS § 11-102(b).

Voters were mailed a ballot package that included (1) a ballot for the voter's assigned district/precinct, (2) the voter's personalized return identification envelope; and (3) a secrecy sleeve. Both sides of the return identification envelope were important to the overall process. On the front side was the address of the county clerk and the United States Postal Service (USPS) information reflecting the permit number and letting the voter know that no postage was required to return the ballot by mail. The back side of the envelope is personalized with information from the statewide voter registration system, such as the voter's name, address, a unique identifier printed out and in the form of a barcode, and an affirmation statement that they sign when returning the ballot. The barcode was intended to facilitate the tracking of the sending and the eventual return of the ballot.

These items were enclosed in a standard windowed envelope. The orientation of the return identification envelope within the standard windowed envelope was such that the voter's mailing address and the barcode faced outwards for mailing house and USPS purposes.

Coordination between the Office of Elections, the county clerks, USPS, and the mailing house vendor was required to accomplish the mailing of these ballot packages for all four counties. Ballots were delivered to USPS for mailing on July 18, 19, and 22, 2024, for the City and County of Honolulu given the volume of ballots involved. Ballots for the neighbor island counties were delivered to USPS on July 17 and 22, 2024.

Places of deposit, depending on the county or the specific location within the county, opened as early as July 18, 2024, for voters to drop off their return identification envelope containing their ballot, if they chose not to return it by mail. Additionally, voter services centers providing accessible voting opportunities, again depending on the

county or the specific location within the county, opened as early as July 29, 2024, for voters who wished to vote in person.

### **BALLOT TRACKING SERVICE**

This election year was the second involving the implementation of BallotTrax, a ballot tracking service. The barcode printed on the voter's personalized return envelope facilitates the tracking of ballots on an individual basis and the ability to provide such a service to the public.

Generally, new users of BallotTrax needed to go to our website to sign up. Voters who signed up during the prior 2022 election cycle were automatically provided the same service this year and did not need to sign up again. The County of Maui chose to sign up all its voters for the service, with the option for individual voters to opt out.

The tracking service provided voters with the opportunity to receive text, email, or voice alerts letting them know where their ballot was in the voting process. These alerts included informing a voter that their ballot had been mailed to them and informing the voter that their ballot had been accepted for counting or if there was an issue. For example, a voter could be notified that there was an issue with their signature on their return ballot envelope that needed to be cured within five business days of the election, so it could be counted. HRS § 11-106.

### **VALIDATION OF RETURN IDENTIFICATION ENVELOPES**

With the transmission of ballots and the ability for voters to immediately return them in return identification envelopes, the counties began to receive return identification envelopes shortly after the ballots had been sent out.

The county clerks after taking custody of the return identification envelopes checked each envelope into the statewide voter registration system by scanning the barcode on the envelope associated with the voter. This typically involved using ballot sorting equipment. If everything was in order and the signature matched, then the return identification envelope would be considered validated, and the statewide voter registration system updated with that information, thus preventing the voter from being issued or returning another ballot. If the signature did not match or the voter forgot to

sign, the county clerks would reach out to the voter to cure the issue. Voters were required to cure the deficiency within five business days of the election. HRS § 11-106.

### **STATEWIDE OBSERVERS' TEST**

On July 27, 2024, the Statewide Observers' Test was held using the counting center voting equipment and tabulation application. The test was conducted simultaneously in all 4 counting centers across the state. It included, among other things, verifying a statewide compilation report of the results from the 4 counting centers.

### **OPENING OF COUNTING CENTERS**

Beginning as early as July 30, 2024, depending on the county, counting centers began to process return identification envelopes ballots that had been validated by the county clerks. While this process involved scanning the ballots into the voting system, not until the day of the Primary Election was a tabulation report compiled with any results. The detailed process concerning the operations of the counting center is addressed in the 2024 Counting Center manual consisting of 224 pages that is provided to each of the Official Observers who observe the process. It can be found at <https://elections.hawaii.gov/wp-content/uploads/2024-Counting-Center-manual.pdf>.

The timing of when return identification envelopes are transferred to the counting center, along with the ballots and the associated voting equipment that contains the vote data from the voter service centers, is relevant for any discussion regarding the eventual issuance of election results on election day and during the post-election process.

As a starting point, other than on election day, there is at least a day between receipt of the return identification envelope and their availability as validated to the counting center for processing. By the day of the election, there are four main groups of items that need to be processed that day or during the post-election process. First, there are the return identification envelopes that were received by the county clerk prior to election day that had not already been transferred to the counting center (e.g. return identification envelopes received up to a few days prior to the election that needed to be validated). Second, there are election day return identification envelopes (e.g., those that are received in the mail prior to the close of voting and those that are dropped off by the close of voting at places of deposit or with the county clerk), which are validated and transferred to the counting center later in the day or the following day. Third, there are

the ballots and the associated voting equipment that contain the votes of voters who voted in person at a voter service center, which are delivered on election day to the counting center. Fourth, there are the remaining ballots that were received prior to the close of voting on election day but that the county clerks need up to five business days after the election to validate or to otherwise work with the voter to cure any deficiency that might exist, such as a failure to sign the return identification envelope or the signature not matching what is on file.

The intersection of the first three categories on election day and the day immediately afterward causes the results for the election, with the exception of cured ballots and other ballots that needed additional time to be validated, depending on the county, not being able to be issued until the evening of the day following the election. As previously noted, the fourth category of ballots reflect the return identification envelopes validated up to five business days after the election and are the final ballots counted and added to the results.

## **PRIMARY ELECTION DAY AND ELECTION RESULTS**

On August 10, 2024, the day of the Primary Election, the voter service centers, places of deposit, and offices of the county clerk had relatively few issues.

In terms of the counting centers, election results in the form of summary reports were published on website of the Office of Elections at <https://elections.hawaii.gov/election-results/> from the close of voting on the day of the Primary Election to the final ballots being counted on August 19, 2024. A total of 4 statewide summary reports were issued. Additionally, county summary reports were published on the website each time ballots were counted at a counting center. At the conclusion of the counting process, in addition to the previously mentioned summary reports, a statewide precinct detail report and a statement of votes cast report were posted, along with certified text files of the statewide summary report and statewide precinct detail report.

The first 3 reports, as will be detailed below, were issued within 24 hours of the close of voting, along with county-specific reports.

The first statewide report entitled “PRIMARY ELECTION 2024 – State of Hawaii – Statewide, August 10, 2024, SUMMARY REPORT, Report 1” was printed on August 10,

2024, at 7:05:17 p.m. and published after the voter service centers statewide were confirmed to be closed on the Office of Elections' website. This report included most ballots that had been validated and provided to the counting centers up to that day prior to the close of voting. Each counting center issued its own county report reflecting the results in their county. Similarly, a County Summary Report 1 was issued for each county to reflect its specific results. The Statewide Summary Report reflects the results of all the County Summary Reports together.

The second statewide report entitled "PRIMARY ELECTION 2024 – State of Hawaii – Statewide, August 10, 2024, SUMMARY REPORT, Report 2" was printed on August 10, 2024, at 10:17:57 p.m. and published that day on the Office of Elections' website. This report included most voter service center ballots that had been counted at the voter service centers and additional ballots received by mail and places of deposit. Similarly, a County Summary Report 2 was issued for each county to reflect its specific results.

The county report identified as "PRIMARY ELECTION 2024 – State of Hawaii – County of Hawaii, August 10, 2024, SUMMARY REPORT, Report 3" was printed on August 10, 2024, at 10:44:53 p.m. and published that day on the Office of Elections' website.

The county report identified as "PRIMARY ELECTION 2024 – State of Hawaii – County of Maui, August 10, 2024, SUMMARY REPORT, Report 3" was printed on August 11, 2024, at 1:29:27 a.m. and published that day on the Office of Elections' website.

The county report identified as "PRIMARY ELECTION 2024 – State of Hawaii – County of Hawaii, August 10, 2024, SUMMARY REPORT, Report 4" was printed on August 11, 2024, at 3:25:07 a.m. and published that day on the Office of Elections' website.

The county report identified as "PRIMARY ELECTION 2024 – State of Hawaii – County of Kauai, August 10, 2024, SUMMARY REPORT, Report 3" was printed on August 11, 2024, at 4:36:16 a.m. and published that day on the Office of Elections' website.

The county report identified as "PRIMARY ELECTION 2024 – State of Hawaii – City & County of Honolulu, August 10, 2024, SUMMARY REPORT, Report 3" was printed on August 11, 2024, at 7:18:19 a.m. and published that day on the Office of Elections' website.

The third statewide report entitled “PRIMARY ELECTION 2024 – State of Hawaii – Statewide, August 10, 2024, SUMMARY REPORT, Report 4” was printed on August 11, 2024, at 7:15:28 a.m. and published that day on the Office of Elections’ website. It was entitled “Report 4” as that corresponded to the last county report number (i.e. “Report 4”) for Hawaii that was issued at 3:25:07 a.m., while the other counties had only issued Reports 1 to 3. In conclusion, the Statewide Summary Report 4 accounted for County Summary Reports 1-3 for Maui, Kauai, and Honolulu, along with County Summary Reports 1-4 for Hawaii.

After Statewide Summary Report 4, a review of the results was conducted to see if any recounts had been triggered under HRS § 11-158. No recounts were triggered.

With the initial tabulation of ballots completed, there remained the counting of additional ballots that had been received by the deadline and would need to be validated by the county clerks within five business days of the election to be counted, along with the post-election audit. This validation process included the ability for voters to cure any deficiencies with their return identification envelopes flagged by the county clerks, such as missing signatures or signatures not matching what was on file. The deadline was August 19, 2022 (Monday), due to August 16, 2022 (Friday) being a state holiday.

The post-election process of counting these validated return identification envelopes was concluded on August 19, 2024. The final statewide report entitled “PRIMARY ELECTION 2024 – State of Hawaii – Statewide, August 10, 2024, SUMMARY REPORT, Final” was printed on August 19, 2024, at 7:09:02 p.m. and published that day on the Office of Elections’ website. Similarly, a County Summary Report Final was issued for each county to reflect its specific results. This was followed by the post-election auditing process.

## **PRIMARY ELECTION CONTESTS**

Two pro se election contests citing HRS § 11-173.5 were filed with the Hawaii Supreme Court. The law provides that the deadline was thirteen days after the election. As such, the deadline was August 23, 2024. The first was filed before the Primary Election took place and challenged the format of the ballot. The second was filed after the statutory deadline and appeared to take issue with results of one of the contests for the Office of Hawaiian Affairs. Both cases were dismissed by the Hawaii Supreme Court.

## **2024 GENERAL ELECTION**

Similar milestones to those of the Primary Election existed for the General Election.

### **BALLOT QUESTIONS**

The deadline for the submittal of state and county ballot questions was August 22, 2024.

Questions associated with proposed constitutional amendments and county charter amendments were submitted by the Legislature and each of the four counties.

Consistent with state law, the Attorney General and the attorneys for the four counties prepared written explanations of the ballot questions that were added to the voter guide for the General Election.

### **PRESIDENTIAL AND VICE-PRESIDENTIAL CANDIDATES**

In accordance with HRS § 11-113, candidates for President and Vice President are traditionally nominated by a recognized political party that is otherwise qualified to appear on the ballot. The deadline this year was September 6, 2024. However, the same statutes provides that a political party or group not otherwise qualified to have candidates on the primary or general election ballots could petition with a requisite number of signatures for their candidates for President and Vice President to appear on the ballot. The deadline this year for the petition was August 7, 2024. Ultimately, no petition was filed and 6 of the recognized political parties had candidates for President and Vice President for purposes of the ballot. These candidates with their candidate statements and photographs were added to the voter guide for the General Election.

### **BALLOT PROOFING**

The ballot proofing process for the various ballot types associated with the General Election had to wait for the receipt of the final ballot questions to permit the ballot types to be produced. As with the Primary Election, the voting system needed to be programmed to ensure the ballot types could be accepted and read by the voting system.

### **MILITARY AND OVERSEAS BALLOTS**

Ballots were transmitted to military and overseas voters at least 45 days prior to the General Election. This year the deadline was September 20, 2024.

## **OFFICIAL OBSERVERS' TEST**

The Official Observers' Test for Oahu and the sealing of the voting equipment for its voter service centers were conducted on September 28, 2024. Likewise, the same occurred on October 2, 3, and 5, 2024, for Maui, Kauai, and Hawaii, respectively.

## **BALLOT MAILING TO THE GENERAL PUBLIC AND THE BEGINNING OF VOTING**

Mail ballot packets associated with the City and County of Honolulu were delivered on October 15-17, 2024, to USPS for mailing. Neighbor island mail ballot packets were delivered to USPS on October 16-17, 2024.

Depending on the county or the specific location within the county, places of deposit opened as early as October 16, 2024, for voters who wished to drop off their return identification envelope containing their ballot, as opposed to returning it by mail. Similarly, depending on the county or the specific location within the county, voter service centers providing accessible voting opportunities opened as early as October 22, 2024, for voters who wished to vote in person.

## **BALLOT TRACKING SERVICE**

Voters who were signed up for the Primary Election automatically continued to receive ballot tracking services for the General Election, along with new voters who had signed up for the service prior to the General Election. With the increase in voter turnout, the email alerts were helpful in immediately servicing the public with relevant information about the status of their ballot. Ahead of the General Election, over 89,000 voters had been signed up for ballot tracking alerts.

## **VALIDATION OF RETURN IDENTIFICATION ENVELOPES**

As with the Primary Election, the counties began to receive return identification envelopes shortly after the ballot packages had been sent out and began the validation process. The county clerks reached out to the voters whose signatures did not match up or who had forgotten to sign to cure the issue. Voters had until November 13, 2024, the fifth business day after the General Election, to cure the issue. HRS § 11-106.

## **STATEWIDE OBSERVERS' TEST**

The Statewide Observers' Test of the counting center voting equipment and tabulation application was conducted on October 19, 2024, across the state at all 4 counting centers.

## **OPENING OF COUNTING CENTERS**

Depending on the county, as early as October 21, 2024, counting centers began to process return identification envelopes ballots that had been validated by the county clerks. As with the Primary Election, while this process involved scanning the ballots into the voting system, not until the day of the General Election was a tabulation report compiled with any results.

## **GENERAL ELECTION DAY AND ELECTION RESULTS**

The day of the General Election, November 5, 2024, saw higher voter activity than the Primary Election, with certain voter services centers experiencing long lines.

The counting centers processed ballots and election results in the form of summary reports were published on website of the Office of Elections at <https://elections.hawaii.gov/election-results/> from the close of voting on the day of the General Election to the final ballots being counted on November 13, 2024. Like the Primary Election, county summary reports were published on the website each time ballots were counted at a counting center. Finally, a statewide precinct detail report and a statement of votes cast report were posted, along with certified text files of the statewide summary report and statewide precinct detail report, at the conclusion of the counting process.

The first statewide report entitled "GENERAL ELECTION 2024 – State of Hawaii – Statewide, November 5, 2024, SUMMARY REPORT, Report 1" was printed on November 5, 2024, at 11:41:05 p.m. and published after the voter service centers statewide were confirmed to be closed on the Office of Elections' website. It included the majority of the validated return identification envelopes provided to the counting centers prior to the close of voting. A corresponding County Summary Report 1 was issued for each county to reflect its specific county results. To clarify, the Statewide Summary Report reflects the results of all the County Summary Reports together.

The second statewide report entitled “GENERAL ELECTION 2024 – State of Hawaii – Statewide, November 5, 2024, SUMMARY REPORT, Report 2” was printed on November 6, 2024, at 12:26:44 a.m. and published that day on the Office of Elections’ website. It included most voter service center ballots that had been counted at the voter service centers and additional ballots associated with return identification envelopes received by mail and places of deposit. A County Summary Report 2 was issued for each county to reflect its specific county results.

The county report identified as “GENERAL ELECTION 2024 – State of Hawaii – County of Maui, November 5, 2024, SUMMARY REPORT, Report 3” was printed on November 6, 2024, at 6:00:05 a.m. and published that day on the Office of Elections’ website.

The county report identified as “GENERAL ELECTION 2024 – State of Hawaii – County of Kauai, November 5, 2024, SUMMARY REPORT, Report 3” was printed on November 6, 2024, at 6:07:53 a.m. and published that day on the Office of Elections’ website.

The county report identified as “GENERAL ELECTION 2024 – State of Hawaii – [City and County] of Honolulu, November 5, 2024, SUMMARY REPORT, Report 3” was printed on November 6, 2024, at 8:25:41 a.m. and published that day on the Office of Elections’ website.

The county report identified as “GENERAL ELECTION 2024 – State of Hawaii – County of Hawaii, November 5, 2024, SUMMARY REPORT, Report 3” was printed on November 6, 2024, at 10:40:51 a.m. and published that day on the Office of Elections’ website.

The county report identified as “GENERAL ELECTION 2024 – State of Hawaii – County of Kauai, November 5, 2024, SUMMARY REPORT, Report 4” was printed on November 6, 2024, at 12:19:34 a.m. and published that day on the Office of Elections’ website.

The county report identified as “GENERAL ELECTION 2024 – State of Hawaii – [City and County] of Honolulu, November 5, 2024, SUMMARY REPORT, Report 4” was printed on November 6, 2024, at 7:29:16 a.m. and published that day on the Office of Elections’ website.

The third statewide report entitled “GENERAL ELECTION 2024 – State of Hawaii – Statewide, November 5, 2024, SUMMARY REPORT, Report 4” was printed on November 6, 2024, at 7:29:58 a.m. and published that day on the Office of Elections’ website. It was entitled “Report 4” as that corresponded to the last county report number (i.e. “Report 4”) for the City and County of Honolulu that was printed at 7:29:16 a.m. and for the County of Kauai that was printed at 12:19:34 a.m., while the other counties had only issued Reports 1 to 3. In conclusion, the Statewide Summary Report 4 accounted for County Summary Reports 1-3 for Hawaii and Maui, along with County Summary Reports 1-4 for Kauai and the City and County of Honolulu.

After Statewide Summary Report 4, a review of the results was conducted to see if any recounts had been triggered under HRS § 11-158 for the initial tabulation of results. A recount was determined to be applicable for the State Representative, District 39 contest. The recount was conducted on November 7 and 8, 2024, with the results being exactly the same as had been reported in Statewide Summary Report 4.

After the initial tabulation of ballots was completed, there remained the counting of the additional ballots that had been received by the deadline to vote and would need to be validated by the county clerks within five business days of the election, along with the post-election audit. To the extent the county clerks found deficiencies with a voter’s return identification envelope, such as a missing signature or it not matching what was on file, the voter had the ability to cure the deficiency by the fifth business day after the election. The fifth business day deadline was November 13, 2024 (Wednesday), due to November 11, 2024 (Monday) having been a state holiday.

On November 13, 2024, the post-election process of counting these validated return identification envelopes was completed. The final statewide report entitled “GENERAL ELECTION 2024 – State of Hawaii – Statewide, November 5, 2024, SUMMARY REPORT, Final” was printed on November 13, 2024, at 6:51:06 p.m. and published that day on the Office of Elections’ website. Correspondingly, a County Summary Report Final was issued for each county to reflect its specific results. As of the date of this report, the post-election audit is currently in process.

## **GENERAL ELECTION CONTESTS**

The deadline to file an election contest with the Hawaii Supreme Court regarding the elections results is 4:30 p.m. on November 25, 2024. HRS § 11-174.5.

## **ELECTORAL COLLEGE**

As this is a presidential year, the presidential electors will convene at the State Capitol on December 17, 2024, at 2:00 p.m. to vote for President and Vice President.

## **POLITICAL PARTY DISQUALIFICATION**

With the ending of the 2024 General Election, the State calculates and determines which political parties obtained the requisite number of votes in certain contests to remain qualified. HRS §§ 11-161 and 11-65. The deadline for this determination is March 5, 2025. Disqualified political parties will then be able to begin gathering signatures to petition to qualify as a political party for ballot purposes for the 2026 election cycle. HRS § 11-62.

## **CONCLUSION**

This is the third election cycle of elections by mail (i.e. 2020, 2022, and 2024). With that experience, election administrators and voters have successfully transitioned to elections by mail. While there will always naturally be improvements and adjustments in how elections by mail are conducted in the future, the foundation of elections by mail has been firmly set.

**TESTIMONY**  
**Hawaii Elections Commission**  
**December 18, 2024**

Aloha Chair Curtis and Members of the Hawaii Election Commission,

1. **Acknowledgement:** Thank you for scheduling and coordinating the audit of a precinct in District 37. I understand the audit will be conducted on January 21-24, 2025. I received your email correspondence and have designated two official election observers as requested. I understand that there are other official election observers participating as well. I want to thank the election observers and the Office of Elections staff members for conducting the audit.

I have listed the pertinent Hawaii Administrative Rules (HAR) at the end of this document for your reference.

2. **Observations following the 2024 Elections:**

Chain of Custody from the Honolulu City and County Signature Verification Center.

Chain of Custody from the U.S. Postal Service

Chain of Custody from the Drop Box locations

Lack of Official Observers at the Signature Verification Center

Lack of sufficient amount of Voter Service Centers Statewide

Lack of staff (City and County) at the Voter Service Center during closing.

Transmission of voter ballot tallies from the neighbor islands. How do you reconcile the number of tallies against the physical paper ballots?

**HAR §3-177-61 Security of ballots and election supplies.** (a) The procedure or ensuring the security of a container used to store or transport ballots, voter verifiable paper audit trails, vote data storage media, and other sensitive election materials shall be as follows:

- (1) Made of suitable materials to prevent breakage or tampering;
- (2) Securable using a nonreusable seal;
- (b) A record shall be maintained to list the seals used to secure such containers and to provide an accurate chronological posting of seals used during the opening and closing of each container. A section for witnesses' signatures shall also be provided.
- (c) Election officials shall make periodic checks of the seals on such containers to ensure that no tampering has occurred. [Ef UL] (Auth: HRS § 11- 4) (Imp: HRS § § 11-109, 11-152)

**HAR §3-177-762 Electronic voting system; auditing.**

(a) The chief election officer or the clerk shall conduct an audit of a random sample of not less than ten per cent of the precincts employing the electronic voting system, to verify that the electronic tallies generated by the system in those precincts equal hand tallies of the paper ballots generated by the system in those precincts.

(1) The manual audit may be conducted by election officials or by counting center officials;

(2) Except for designated election officials, counting center officials, or official, observers, no person shall be permitted to witness the audit without the authorization of the chief election officer, clerk, or designated representative. The area in which, the audit is conducted shall be kept secure;

(3) Observers may request to conduct a manual audit;

(4) Whenever ballots are removed from storage, the handling of the ballots shall be witnessed by not less than two representatives who are not of the same political party or official observers;

(5) Election officials and counting center-officials shall certify the conduct of and results of the manual audit; and

(6) The manual audit shall not be considered a recount pursuant to the election contest provisions of the law.

(b) In the event discrepancies are found in the audit, the chief election officer may authorize an expanded audit to determine the extent of misreporting within the system.

(1) The chief election officer may use official observers, election day officials, county or state election employees, or other designated individuals as part of the expanded audit.

(2) The chief election officer will determine when the expanded-audit is concluded.

(3) The results of the expanded audit will be filed with the office of elections.

(c) In lieu of relying on the initial results from an electronic voting system, the chief election officer may count ballots or voter verifiable paper audit trails by hand or with a mechanical tabulation system, or a combination thereof.

(1) Any counting of ballots or voter verifiable paper audit trails, through the use of a mechanical tabulation system, will conform to the marking and vote disposition rules relating to the voting system that the ballot or voter verifiable paper audit trails were associated with.

(A) As the marksense ballot voting system, is a mechanical tabulation system, and the ballots were intended to be read by the devices associated with that system, the chief election officer, will to the extent possible, use those voting devices of the system that did not experience misreporting problems; and

(B) In the event there are inadequate voting equipment that did not experience misreporting problems, the chief election officer, in consultation with the official observers, may use voting equipment that have been repaired to the satisfaction of the chief election officer.

(2) Any counting by hand of ballots or voter verifiable paper audit trails will conform to the marking and vote disposition rules relating to the voting system that the ballot or voter verifiable paper audit trails were associated with.

(A) Ballots that were marked for use by a marksense ballot voting system, will be counted in accordance with those rules associated with that system to the extent reasonably possible. Any hand count of marksense ballots will not use any statute or rules associated with the paper ballot voting system, as those marking instructions and vote disposition rules are uniquely different from those statutes and rules associated with other voting systems; and

(B) Voter verifiable paper audit trails from a direct recording electronic device voting system will be counted in accordance with the ballot selections indicated on them.

(d) The chief election will to the extent possible, resolve any misreporting problem, prior to the end of the contest period stated in HRS § 11-173.5, in the case of a primary, or special primary election, or HRS § 11-174.5, in the case of a general, special general, or special election. Any resolution of a misreporting problem shall be documented and filed with the office of elections.

(e) "Precinct" for purposes of this rule, consistent with HAR § 3-177-57, refers to the ballot type that corresponds to the manner in which results are reported (i.e. if results are reported by state

representative district-precinct, such as DP 17-01, then the ballot type associated with DP 17-01 is the applicable precinct for auditing purposes).

Haw. Code R. § 3-177-762

[Eff JUL 26 2020] (Auth: HRS § 11-4, 52 USC § 21081) (Imp: HRS §§ 11-4, 11-108, 11-153, 16-2, 16-41, 16-42, 52 USC § 21081)

Haw. Code R. § 3-177-762

**HRS §16-42 Electronic voting requirements.** (a) When used at primary or special primary elections, the automatic tabulating equipment of the electronic voting system shall count only votes for the candidates of one party, or nonpartisans. In all elections, the equipment shall reject all votes for an office when the number of votes therefore exceeds the number that the voter is entitled to cast.

No electronic voting system shall be used in any election unless it generates a paper ballot or voter verifiable paper audit trail that may be inspected and corrected by the voter before the vote is cast, and unless every paper ballot or voter verifiable paper audit trail is retained as the definitive record of the vote cast.

(b) The chief election officer may rely on electronic tallies created directly by electronic voting systems, in lieu of counting the paper ballots by hand or with a mechanical tabulation system if:

(1) The electronic voting system is subject to inspection, audit, and experimental testing, by qualified observers, before and after the election, pursuant to administrative rules adopted by the chief election officer under chapter 91;

(2) No upgrades, patches, fixes, or alterations shall be applied to the system through thirty days after the election;

(3) The chief election officer conducts a post-election, pre-certification audit of a random sample of not less than ten percent of the precincts employing the electronic voting system, to verify that the electronic tallies generated by the system in those precincts equal hand tallies of the paper ballots generated by the system in those precincts; and

(4) If discrepancies appear in the pre-certification audits in paragraph (3), the chief election officer, pursuant to administrative rules, shall immediately conduct an expanded audit to determine the extent of misreporting in the system. [L 1970, c 26, pt of §2; am L 1973, c 217, §6(g); am L 1979, c 139, §12; am L 2005, c 200, §1; am L 2006, c 5, §2]

To my knowledge, HRS 16-42 (b)(3) was not conducted for District 37 and other districts as well.

Thank you for this opportunity to testify.

Respectfully submitted,

Jamie Detwiler

# REQUEST TO ACCESS A GOVERNMENT RECORD

This is a model form that may be used by a Requester to provide sufficient information for an agency to process a record request. Although the Requester is not required to use this form or to provide any personal information, the agency needs enough information to contact the Requester with questions about this request or to provide its response. This request may not be processed if the agency has insufficient information or is unable to contact the Requester.

## **AS THE REQUESTER, I WOULD LIKE THE FOLLOWING GOVERNMENT RECORD:**

Describe the government record as specifically as possible so that it can be located. Try to provide a record name, subject matter, date, location, purpose, or names of persons to whom the record refers, or other information that could help the agency identify the record. A complete and accurate description of the requested government record will prevent delays in locating the record. Attach additional pages if needed.

Communications between Deputy Attorney General Brian Yee and Mike Curtis Chair of Elections Commission

**I WOULD LIKE:** (Please check one or more of the options below, as applicable)

- To inspect the government record**
- A copy of the government record:** (Please check only one of the options below.) See the next page for information about fees and costs that you may be required to pay for agency services to process your record request. Note: Copying and transmission charges may also apply to certain options.

We're limited in our communication with Commissioners. 3 or more cannot.

I figure, if we start a "Meeting Packet" file attached to tentative Agenda for scheduled future meeting date, we could populate it with these communications for ALL to see.

Aloha, Commissioners:

Having observed a number of your 2024 meetings, and discussed issues with some of the commissioners, I must point out that:

- 1) The Commission is charged with doing investigations. None have been performed, for years.
- 2) The Commission is charged with setting its own rules of procedure. None have been adopted, apparently, ever.
- 3) The Commission, lacking its own special rules of order, must adhere to Roberts Rules of Order, current edition. The Chair does not conduct the meetings in that manner, and often egregiously to the detriment of Commission member's fundamental rights to make motions and to speak in debate, and to the detriment of the Commission's right to have points of order ruled upon for the record. The result is a sort of Chairman's tyranny while the kuleana of the Commission is neglected.
- 4) The Commission is advised by an attorney appointed to it by the Attorney General. On several occasions the Commission's various attorneys have either been obviously conflicted, given incorrect advice, undertaken litigation on the Commission's behalf without prior notice or approval, or neglected to provide advice or opinion specifically asked for by an adopted motion.
- 5) There appears to be no attorney-client relationship document executed by any Commission Chair in accord with an adopted motion, so whether the commission's attorney is 'of counsel' is not clear.
- 6) Commission requests for testimony and information and documents from the Office of Elections and County Clerk officials are often not honored, yet such unresponsiveness is not met with any motion of censure or other action.

I regretfully, then, request that the Commission remove the Chair and elect one that will see to it that the above six (6) unacceptable conditions be addressed and, so far as possible, corrected.

If the Commission will not do so this correspondent will seek redress from the appointing authorities.

I request to present oral testimony with the following written testimony.

-----  
Aloha Hawaii State Elections Commission Chair and Commissioners,

Thank you for holding today's State Elections Commission meeting and listening to the concerns of the people regarding the conduct of our elections. My name is Adriel Lam and my testimony pertains in part to agenda items IV, V, VI, XI, XII, and XIII.

I was the Honolulu County election observer for the General Election at Kapolei Hale Voter Service Center (VSC) on Tuesday, November 5, 2024. I observed the very last vote cast in the State of Hawaii (and in the entire United States for that matter) at 12:04am on Wednesday, November 6, 2024. The VSC process was conducted as efficiently as it could, which included voter identification and ballot confirmation. At the time, I was asked by a news reporter if I could give a live interview as an election observer to affirm the conduct of this 2024 General Election. I wanted to talk about the professionalism and patience of the Honolulu County Election workers, but I could not in good conscience provide the interview to validate the entirety of the 2024 General Election.

As in previous testimony before this Elections Commission, I have continually raised concerns of Elections By Mail and the lack of accountability in the handling of mail-in ballots, the chain of custody, vote count and audit. This was made even more apparent on Nov 5 and 6 at the Voter Service Centers, when voters waited for more than five hours in line, even after the results had been called, to exercise their rights as voters, at their appointed time of choosing, in a manner which they trusted their votes to count.

The attached spreadsheet provides data from the Office of Elections on ballots and vote counts for every precinct in the State House of Representative races. There is great disparity of results from the Counting Center Mail-In ballots and Voter Service Center In-person ballots. If this were a case of voting preferences of a certain demographic, the heavy-handed media campaign by the Office of Elections to advocate for Mail-In voting and discourage in-person voting has legitimate grounds for VOTER SUPPRESSION. Instead, I highlight for you on the last page, page 8, precincts that had more than 20% of voters choosing to cast their ballots at the Voter Service Centers. At such high voter participation rates at the VSC, the results should not be much different than the rest of the vote counts in the precincts. Instead, there is a DISPARATE IMPACT in almost all of these precincts, especially in Precinct 46-02 where nearly half of the voters voted in-person, yet results were at polar opposites of the mail-in counts.

We know from previous Office of Election and election observer testimony that paper ballots are used to audit the Voter Service Center results. We also know that, apart from a few hundred ballots set aside at the beginning of each election, NONE of the hundreds of thousands of paper ballots from mail-in voting have been used to audit the Counting Center. Since 2020, we have only observed the use of the ballot images that is in question before this Commission to conduct the post-election, pre-certification audit of the Counting Center. EQUAL PROTECTION requires that paper ballots must be used to audit the results of the Counting Center as was readily done for the Voter Service Center results.

I do not ask for any resignations. I just ask that the Commission, take courage, ask the hard questions, and do the right thing. Elections by Mail is poor legislation and requires significant reform or repeal. I urge the Commission to take action and bring to light the issues that have been raised. Accountability begins with reconciling the number of ballot envelopes at each County. Daily updates of ballot envelopes were publicly available from the Counties up until the day of the Election, then nothing further provided from the Counties, other than the final report from the Counting Center. The lack of accountability with these basic numbers in counting envelopes only highlights the flaws of Elections By Mail.

Thank you for your time and attention to my testimony.

Aloha ke Akua,  
Adriel Lam
