MICHAEL CURTIS
ELECTIONS COMMISSION CHAIR

State of Hawaii Elections Commission/Permitted Interaction Group (PIG):
Dylan Andrion, Chair and Commissioner
Lindsay Kamm, Commissioner
Ralph Cushnie, Commissioner

July 21, 2025

Mike Curtis, Chair
Hawai‘i State Elections Commission
c/o Office of Elections
802 Lehua Avenue
Pearl City, HI 96782

Dear Chair Curtis:

We write in our capacity as the Permitted Interaction Group (PIG) on Chain of Custody and Claims of Intentional Malfeasance, established by the Hawai‘i State Elections Commission on July 16, 2025, to formally address serious concerns regarding your conduct as Chair and actions taken under your leadership. These concerns directly impact the transparency, credibility, and effectiveness of the Commission’s work, as well as public confidence in the integrity of Hawai‘i’s elections.

We respectfully request your written response to the following specific questions:

- Why was the PIG report from Commissioner Young placed at the end of the Supplemental Meeting Materials packet after the July 16 meeting had been adjourned? The report was complete and listed on the agenda to be received, but it was not included in the Meeting Materials. It appears that it was buried in the July 15 packet the following day – after the fact – instead of being distributed in a timely way to the Commissioners and the public.
- Why did you vote against receiving complaints in accordance with HAR § 3-170-8, which states: *All complaints will be forwarded to the Office of Elections, and the Office of Elections will be given the opportunity to respond to*

the complaint in writing. The response to the complaint shall be addressed to the complainant, with a copy of the response sent to the Elections Commission. How does your position comply with this requirement?

- Why do you believe it is permissible to engage in privileged conversations with the Office of Elections Secretary, the Chief Elections Officer, and the Deputy Attorney General assigned to the Commission? Records of such conversations have been redacted from disclosure on the grounds of attorney-client privilege. Who asserted this privilege, and under what legal authority, given that the Deputy Attorney General represents the Commission, not the Office of Elections, and not the Chair?
- Why was Commissioner Cushnie removed from the December 2024 meeting after making a motion to subpoena chain of custody documentation? Please also explain why emails and related records from December 2024 have not been released in response to public records requests.

These questions are critical to ensuring the Commission adheres to its statutory duties and remains accountable to the public. We request a written response addressing each of these points before the next regular meeting of the Commission.

Thank you for your prompt attention to these matters.

Sincerely,

Dylan Andrion
Chair Commissioner

Lindsay Kamm
Commissioner

Re: Clarification on Meeting Links and Posting of PIG Report

Aloha Raymund,

On behalf of the Permitted Interaction Group (PIG) established by the Elections Commission on July 16, 2025, we write to request clarification regarding several matters related to the recent Commission meeting. As you know, this PIG has been tasked by the Commission to investigate complaints and allegations of malfeasance by County and State election officials, as well as concerns regarding ballot chain of custody and related procedures.

We would appreciate your help in clarifying the following:

- On the public agenda posted for the July 16 Commission meeting, there were two separate links provided—one for remote viewing via YouTube and one for the usual Zoom link used for live participation and oral testimony. To our knowledge, this is the first time this format has been used. We request clarification as to who directed the use of two separate links, and what the rationale was for this departure from previous meeting practices.

- We also noted that the *Report on the Investigation into State and Kauai County Compliance with HAR 3-177 and Discrepancies in Ballot Counts and Recommendations to the State of Hawai'i Elections Commission* was posted to the Commission's website on July 16, after the Commission meeting, as part of the Supplemental Meeting Materials (link). The supplemental meeting materials link itself had been posted on July 15, but at that time did not include the PIG report. Could you clarify who asked you to post the PIG report in this way, and how members of the public would reasonably be able to find and review this report?

Your responses to these questions will assist us in fulfilling our investigative responsibilities regarding malfeasance by elections officials and preparing an accurate record for the full Commission.

We appreciate your prompt attention to this matter, and please feel free to reach out to us if you need any additional information or context from our group. We would appreciate a written response no later than July 25, 2025.

Mahalo for your cooperation.

Sincerely,

Dylan Andrion
Chair Commissioner

Lindsay Kamm
Commissioner

Ralph Cushnie
Commissioner

OVERVIEW

This report is in response to the *Report on the Investigation into State and Kauai County Compliance with HAR 3-177 and Discrepancies in Ballot Counts and Recommendations to the State of Hawaii Elections Commission*, dated July 13, 2025, by the Permitted Interaction Group (PIG). The PIG was established by the Elections Commission to investigate matters concerning alleged noncompliance with applicable administrative rules concerning the tracking of the ballot and alleged discrepancies in ballot counts. The PIG's report alleges:

1. The complaints regarding chain of custody and election result discrepancies on Kauai are valid.
2. No logs or records complying with HAR 3-177-453 (b) requiring "The clerk shall maintain a complete and current count of all mark sense ballots issued, spoiled, and received in their county" were received from the County of Kauai.
3. The count - based on scans of ballot envelopes into the Statewide Voter Registration System (SVRS) - is not reconciled with any manual counts and is not verifiable.
4. The number of mail-in ballots increased from the number collected (26,633 less 219 rejected in signature verification as reported by the County, but not officially) to the final number counted on Kauai (27,075 - as officially reported by the State). No plausible explanation for the increase of 661 ballots was offered by Chief Election Officer Scott Nago or the Kauai County Clerk.

In response, we have:

- Reviewed the documents provided to the PIG to identify and correct any alleged discrepancies.
- Provided background to the related litigation and decision by the Hawaii Supreme Court.
- Outlined the processes related to the receipt and processing of return identification envelopes to ensure the authentication, accounting, and securing of voted ballots.

To start, we want to reiterate that the Statewide Voter Registration System (SVRS) is the official record to track and log voting in compliance with Hawaii Revised Statutes (HRS) and Hawaii Administrative Rules (HAR). As the database of voters, SVRS generates, tracks, and logs the issuance and receipt of ballots to and from properly registered voters. The SVRS is dynamic and is constantly used by the County Elections Divisions to ensure it is up to date from moment to moment. This report focuses on the receipt and validation of return identification envelopes and electronic transmission ballots from voters comprising the total number received by the Kauai County Elections Division and then validated to open, count, and tabulate the voted ballots.

The Office of Elections conducted an independent review and analysis of the documents received by the PIG. Our review reveals that the official accounting of mail ballots by the Kauai

County Elections Division is 27,057, as reported by SVRS, not “26,633 less 219 rejected” (i.e., 26,414) as stated in the PIG’s report. Our analysis of the records found the total collection of mail ballots by the Kauai County Elections Division to be the following:

	8,391	Collected from Places of Deposit
	579	Collected from Kauai County Elections Division office and VSC
+	18,149	Collected from USPS (USPS BRM postage receipts)
=	27,119	Collected return identification envelopes
-	219	Invalid return identification envelopes
=	26,900	Collected valid return identification envelopes
+	151	Valid electronic ballots
=	27,051	Valid mail ballots
-	27,057	Official SVRS record
=	6	Difference between collection records and SVRS

Additionally, the comparison of the official SVRS record as compared to the results report, provides overall an overage of 36 and an underage of 4 in the processing of 30,566 ballots (mail and in-person). The County of Kauai excerpt of the *2024 General Election Over/Under Report* is provided below and referenced throughout this report. Of note, the “Adj. Mail Turnout” is the official record from SVRS, less 7 invalid conditions that occurred at the state-operated counting center.

KEY TERMS

The following key terms are used throughout this report and are provided here to prepare and assist the reader:

- Cured ballot: A return identification envelope received by the County Elections Divisions by the close of voting on Election Day with a deficiency, like missing the signature, and corrected (cured) within five business days following the election.

- Deficient return identification envelope: A return identification envelope that has an issue with the voter's signature. The voter may cure a deficient return identification envelope within five business days following the election for counting.

- Electronic ballot: A ballot that may be sent to uniformed and overseas voters, special needs voters, and any voter who needs a replacement within five days of Election Day. Voters receive the electronic ballot by email to vote using a compatible personal device like a computer or tablet. After marking their ballot, they return it to their County Elections Division to validate and transfer to the counting center. At the counting center, the electronic ballots are duplicated onto tabulation-ready ballots.

- In-person ballot: A ballot voted at a voter service center.

- Invalid return identification envelope: See deficient return identification envelope.

- Mail ballot: A voted ballot received and validated by the County Elections Division before it is processed to count the ballot at the state-operated counting center. An electronic ballot is tabulated as a mail ballot.

- Place of deposit: A location designated by the County Elections Divisions for voters to drop off their return identification envelope.

- Precinct: The smallest political subdivision, and therefore, the smallest accounting of voted ballots via the results and SVRS.

- Return identification envelope: A postage-paid return identification envelope is provided to every voter. The postage is paid by the County Elections Division via Business Reply Mail (BRM) when returned through the United States Postal Service (USPS). Voters must sign their return identification envelope which will be validated by the County Elections Division to determine if the ballot should be counted.

- Statewide Voter Registration System (SVRS): Database of voters to track registration and voting including the issuance and receipt of an electronic ballot or return identification envelope as well as in-person voting for purposes of the County Elections Divisions fulfilling their statutory duties and responsibilities.

- Valid return identification envelope: A return identification envelope that has been signature verified and recorded in SVRS and is transferred to the state-operated counting center to open, process, and count the enclosed voted ballots.

The tables above are the compilations of the election records, specifically:

1. *2025-04-25 [01] Response Letter to PIG with Attachments (OE-25-060)*: In response to the PIG's request for documents, statewide, our office provided *Excerpts of Voted Ballots from the Statewide Voter Registration System*, as collected from October 21, 2024, through November 13, 2024. These excerpts provide for each district/precinct (D/P): the number of ballots received and validated by electronic transmission (ELECT Voted [b]), the number of in-person voters (EV Voted [d]), and the number of ballots received and validated by return identification envelope (MAIL Voted [f]). These excerpts are cumulative.

   Additionally, the *Excerpts of Voted Ballots from the Statewide Voter Registration System* dated November 22, 2024, was used by the Office of Elections to track and reconcile the over/under report as required for the certification of the election results.

   The *Excerpts of Voted Ballots from the Statewide Voter Registration System* are included starting on APPENDIX-1077.

2. Collection by the Kauai County Elections Division: The Kauai County Elections Division and the PIG exchanged multiple correspondences, including providing the *Envelope Collection* forms and USPS BRM postage receipts.

   The *Envelope Collection* forms are included starting at APPENDIX-1700.

   The USPS BRM postage receipts are included starting at APPENDIX-1810.

   a. *2025-04-28 [01] Letter from Kauai to PIG with Attachments*: As part of its initial response to the PIG, the Kauai County Elections Division provided their records of the daily count of ballot envelopes collected from drop boxes and the United States Postal Service (USPS) which were recorded on the *Envelope Collection* forms. The *Envelope Collection* forms provide, among other things, the handwritten Collection-Quantity for a location and date/time. There are 2 versions of the form. We have designated Form Type A as the *Envelope Collection* forms provided for the drop box locations:

      i. Hanalei NC
      ii. Church of the Pacific
      iii. Menehune Mart
      iv. Kapaʻa Library
      v. Election Division (i.e., drop box)
      vi. Kōloa NC
      vii. Kalāheo NC
      viii. Hanapēpē NC
      ix. Waimea NC

We have designated Form Type B as the *Envelope Collection* forms provided for the locations:

i. Elections Division (i.e., office)
ii. Voter Service Center
iii. USPS

In this correspondence, the Kauai County Elections Division acknowledges that our office committed to providing the records from SVRS (i.e., *Excerpts of Voted Ballots from the Statewide Voter Registration System*) and the *Envelope Transfer Form*.

b. *2025-06-23 [01] Letter from Kauai to PIG with Attachments*: The Kauai County Elections Division provided the PIG the USPS BRM postage receipts. In this correspondence, the Kauai County Elections Division explains that the official record of tracking the receipt of return identification is SVRS (i.e., TotalVote).

3. *2025-04-25 [01] Response Letter to PIG with Attachments (OE-25-060)* : In response to the PIG's request for documents, our office provided the Kauai County Elections Division's *Envelope Transfer Form* that tracks the transfer of valid return identification envelopes and electronic ballots to the state-operated counting center on specific dates of scheduled operations. These *Envelope Transfer Forms* provide for each County of Kauai D/P, the number of return identification envelopes (Quantity), number of electronic transmission ballots (DUP), and the total.

   The *Envelope Transfer Forms* are included starting on APPENDIX-895.

METHODOLOGY AND DESCRIPTION OF THE TABLES ON THE KAUAI COUNTY ELECTIONS DIVISION'S COLLECTION OF RETURN IDENTIFICATION ENVELOPES

Tables 1 through 10 correspond to the supporting election records. The dates in columns (A-V) represent processing, however, we must emphasize that election processes of receipt, processing, invalidation, curing, and transfer happen in flow, rather than strictly linearly. As such, the records are comparable to overall totals (column V), not day-to-day. Blank cells indicate that there is not a corresponding record.

TABLE 1: EXCERPTS OF VOTED BALLOTS FROM THE STATEWIDE VOTER REGISTRATION SYSTEM, CUMULATIVE - ELECT VOTED (B)

Table 1 provides the electronic ballots received and validated by the Kauai County Elections Division and tracked in SVRS from October 21, 2024, through November 6, 2024, as well as November 13, 2024, the deadline to cure a deficient return identification envelopes and tabulation of the final election results, and November 22, 2024 – the date the over/under report was prepared. The number of valid electronic ballots are cumulative by day.

A total of 151 valid electronic ballots were recorded in SVRS and as the official record of the receipt of ballots, is used for reconciliation with the number of voted ballots counted at the state-operated counting center.

TABLE 2: EXCERPTS OF VOTED BALLOTS FROM THE STATEWIDE VOTER REGISTRATION SYSTEM, CUMULATIVE - MAIL VOTED (F)

Table 2 provides the return identification envelopes received and validated by the Kauai County Elections Division and tracked in SVRS from October 21, 2024, through November 6, 2024, as well as November 13, 2024, the deadline to cure deficient return identification envelopes and tabulation of the final election results, and November 22, 2024 – the date the over/under report was prepared. The number of valid return identification envelopes are cumulative by day.

A total of 26,906 valid return identification envelopes were recorded in SVRS and as the official record of the receipt of ballots, is used for reconciliation with the number of voted ballots counted at the state-operated counting center. This total does not include the 219 invalid return identification envelopes collected by the Kauai County Elections Division.

TABLE 3: EXCERPTS OF VOTED BALLOTS FROM THE STATEWIDE VOTER REGISTRATION SYSTEM, CUMULATIVE (B+F)

Table 3 is a summary of the valid mail ballots accounted for in SVRS, or valid electronic ballots plus valid return identification envelopes. These totals represent the number of valid mail ballots accounted for by the County Elections Division and used to prepare the over/under report. The SVRS total of valid mail ballots is 27,057.

TABLE 4: KAUAI COUNTY ELECTIONS DIVISION ENVELOPE COLLECTION - FORM TYPE A, DROP BOXES

Table 4 provides the hand-count of collected return identification envelopes used to estimate usage and workload. The form type A locations are associated with the ballot drop boxes. The *Envelope Collection* forms were provided from October 21, 2024, through November 5, 2024 (General Election Day). The number of collected return identification envelopes are totaled by day (table 4, row 10), and by location (column V).

The hand-count of collected return identification envelopes from the ballot drop boxes totals 8,391. This total includes return identification envelopes that would be marked as invalid in the check-in and logging processing into SVRS.

TABLE 5: KAUAI COUNTY ELECTIONS DIVISION ENVELOPE COLLECTION - FORM TYPE B, OTHER

Table 5 provides the hand-count of collected return identification envelopes used to estimate usage and workload. The form type B locations are associated with collection at the Kauai County Elections Division office and voter service center, as well as USPS. The *Envelope Collection* forms were provided for October 18, 2024, and October 21, 2024, through November 5, 2024 (General Election Day). The number of collected return identification envelopes are totaled by day (table 5, row 4), and by location (column V).

The hand-count of collected return identification envelopes from the office, voter service center, and USPS totals 17,563. This total includes return identification envelopes that would be marked as invalid in the check-in and logging processing into SVRS.

TABLE 6: KAUAI COUNTY ELECTIONS DIVISION ENVELOPE COLLECTION (A+B)

Table 6 is the summary of the hand-count of collected return identification envelopes. These numbers are used to estimate usage and workload and are not used for inventory or reconciliation.

The hand-count of collected return identification envelopes totals 26,533. In reviewing the *Envelope Collection* forms, we want to highlight a correction that we identified in our review at table 4, row 1, column R, which corresponds to the *Envelope Collection* form found on page APPENDIX-1728. The entry for Hanalei NC on November 5, 2025, in which the number “91” was incompletely crossed out and replaced with “88” gave the initial impression of “188.” This may also account for the difference of 100 (i.e., 26,533 to 26,633) to the report by the PIG.

It would be inappropriate to make any comparisons of data to the *Envelope Collection* forms as only valid return envelopes are provided in the tables associated with SVRS (Tables 1-3) and the findings in Table 7 provides additional evidence in the number of return identification envelopes collected from USPS.

TABLE 7: USPS BRM POSTAGE RECEIPTS

Table 7 provides the USPS BRM postage receipts. There are 2 versions of the receipts – Qualified BRM (Q-BRM) and High-Volume Qualified BRM (HV-Q-BRM). The table starts with the USPS BRM postage receipts dated October 17, 2024, as we can confirm that the bulk mailing of mail ballot packages was provided to USPS on October 15, 2024, and assume that the 2024 General Election ballot was widely available for voters to vote and return. The USPS BRM postage receipts dated from October 1, 2024, through October 16, 2024, have been omitted from the table and any further considerations.

The number of return identification envelopes as detailed by payment to USPS are totaled by day (table 7, row 5), and receipt type (column V). We would note that two of the USPS BRM postage receipts are dated November 6, 2024. These USPS BRM postage receipts correspond with table 7, row 3, column R (12), and table 7, row 4, column R (293). However, the mail was received on November 5, 2024, prior to the close of voting. This ties into the vagaries of the USPS system and the efforts by the USPS and the Kauai County Elections Division to ensure that all possible ballots were received by the close of voting on Election Day, as opposed to taking no action and the mail being delivered after the election. For example, the mail was delivered to the Kauai County Elections Division toward the beginning of the day, later the county went to the Lihue Post Office to pick up the mail, and finally toward the end of the day they went to the USPS Annex near the airport for the final pick up of ballots.

The USPS BRM postage receipts total 18,149. This total includes return identification envelopes that would be marked as invalid in the check-in and logging processing into SVRS. There was a significant discrepancy with the hand-count on the *Envelope Collection* form on October 22, 2024. We’ve concluded that the USPS BRM postage receipts from October 21, 2024, and October 22, 2024, are associated with the *Envelope Collection* form, dated October 22, 2024, recording 3,004 hand-counted. The *Envelope Collection* form initially reflected no entry for that day, and it may have been that a number closer to 3,421, which corresponds to the USPS BRM postage receipts of October 21 and October 22 and should have been entered. Specifically,

there are 4 USPS BRM postage receipts for October 21, 2024, and October 22, 2024 which add up to 3,421 (i.e. 867, 409, 275, and 1,870).

As other differences in the totals have also occurred, we highlighted table 5 row 3 and table 7 row 5 in orange to show the comparison of the USPS *Envelope Collection* forms to the USPS BRM postage receipts. The total difference between the *Envelope Collection* forms – USPS and the USPS BRM postage receipts is 586 envelopes.

TABLE 8: ENVELOPE TRANSFER FORM – DUP

Table 8 provides valid electronic ballots transferred to the state-operated counting center. They are recorded under the title “DUP”, as they must be duplicated onto tabulation-ready ballots before they can be scanned by the vote counting system. In the 2024 General Election, the counting center operated on set days, as specified by the table. The number of valid electronic ballots provided on the *Envelope Transfer Form* are reported by day.

A total of 147 valid electronic ballots is recorded on the *Envelope Transfer Forms*. However, we would emphasize that SVRS is the official system of record to track the receipt of ballots. The number recorded on the *Envelope Transfer Form* is not used for reconciliation.

The counting center *Invalid Ballot Log* and election results reports are used to reconcile the processing of voted ballots at the counting center as detailed by the over/under report discussed below.

TABLE 9: ENVELOPE TRANSFER FORM - QUANTITY (MAIL VOTED - RETURN IDENTIFICATION ENVELOPES)

Table 9 provides the valid return identification envelopes transferred to the state-operated counting center. They are recorded under the title “Quantity”. In the 2024 General Election, the counting center operated on set days, as specified by the table. The number of valid return identification envelopes provided on the *Envelope Transfer Form* are reported by day.

A total of 26,807 valid return identification envelopes is recorded on the *Envelope Transfer Forms*. However, we would emphasize that SVRS is the official system of record to track the receipt of ballots. The number recorded on the *Envelope Transfer Form* is not used for reconciliation. Instead, the counting center *Invalid Ballot Log* and results reports are used to reconcile the processing of voted ballots at the counting center as detailed on the over/under report for discussion below.

TABLE 10: ENVELOPE TRANSFER FORM

Table 10 is the summary of the *Envelope Transfer Forms*. We would note that there was no *Envelope Transfer Form* provided on November 13, 2024, the date of the post-election count and tabulation of the final results report. However, this number (82 valid return identification envelopes) is reported for completeness based on the difference in turnout calculated between the Final County of Kauai Summary report, dated November 13, 2024, and the Report 4 County of Kauai Summary report, dated November 6, 2024. Additionally, Chief Election Officer Nago noted this in his declaration to the Hawaii Supreme Court, as referenced on page APPENDIX-222, stating that 82 ballots were counted that day.

ANALYSIS OF THE RECORDS

As the focus of the investigation by the PIG seems to be around the collection of return identification envelopes, we have summarized our analysis in the following table

	8,391	Table 4: Form Type A Total (row 10, column V)
+	18,142	Table 5: Form Type B Total (row 4, column V)
-	17,563	Table 5: USPS (row 3, column V)
+	18,149	Table 7: USPS-BRM Total (row 5, column V)
=	27,119	Collected return identification envelopes[1]
-	219	Invalid return identification envelopes
=	26,900	Collected valid return identification envelopes
-	26,906	Table 2: Mail Voted (f) Total
=	6	Difference between collection records and SVRS

We must highlight the following considerations:

- The collection of return identification envelopes from USPS and places of deposit includes invalid return identification envelopes.

- The *Excerpts of the Voted Ballots from the Statewide Voter Registration System* provides valid ballots only. Specifically, the number of invalid return identification envelopes is excluded.

- The collection of return identification envelopes from USPS and places of deposit excludes the accounting of electronic ballots, as identified on the *Excerpts of Voted Ballots from the Statewide Voter Registration System*.

- Invalid return identification envelopes are excluded from the *Envelope Transfer Forms* and *Statewide Precinct Detail* report as those ballots are not eligible for further processing to be counted.

The considerations of the PIG seem to focus on the *Envelope Collection* forms rather than incorporating the records provided in the form of the USPS BRM postage receipts. Further, the PIG did not account for the valid electronic ballots that are reported in the election results in its comparison.

2024 GENERAL ELECTION OVER/UNDER REPORT

For each election, an over/under report is compiled. The over/under report is the culmination of SVRS of the receipt and validation of: (1) return identification envelopes, (2) electronic ballots, and (3) in-person voting applications (voters), as compared to processing at the counting center and the *Statewide Precinct Detail* report (ballots counted). Consistent with the counting of ballots and HRS § 11-153(c), the Office of Elections prepares the over/under report which is “a list of all precincts in which an overage or underage occurred and the amount of the overage or

[1] This total was incorrectly reported as 27,121 in testimony provided to the Elections Commission on July 29, 2025, due to an error of addition.

underage." An overage is when "there are more ballots than documented usage indicates," while an underage is when there are "fewer ballots." HRS § 11-153(a).

The SVRS is the official record to track documented usage for each precinct by the County Elections Division. For the mail ballots, documented usage refers to valid voted ballots via electronic transmission plus valid return identification envelopes returned through USPS, deposited at places of deposit, and otherwise delivered to the County Elections Division, less invalid conditions documented at the counting center. Likewise, for in-person ballots, documented usage refers to voters marked in SVRS when they checked-in to vote at a voter service center.

Below is an excerpt of the *2024 General Election Over/Under Report* that is focused on the precincts associated with the County of Kauai, to which we have added a row to reflect the totals for each column. The report indicates a countywide overage of 36 ballots and underage of 4 ballots in the processing of 30,566 ballots. There are no contests decided by a margin in which either the overages or underages could have impacted the results.

D/P	Mail				In-Person			
	Adj. Mail Turnout	Prec. Report	Over (+)	Under (-)	Walk Turnout	Prec. Report	Over (+)	Under (-)

Documented usage in terms of mail ballots for each precinct for our purposes refers to the results of SVRS tracking of the receipt of valid ballots (e.g. return identification envelopes or electronic ballots) by precinct by the county clerks, adjusted by the number of invalidated ballots by precinct tracked by counting center personnel at the state counting centers. In other words, the "Adj. Mail Turnout" column indicates there were **27,050** ballots after accounting for invalidated ballots (i.e., 27,057 less 7). Specifically, there were 7 instances of invalid conditions for the County of Kauai at the counting center as reflected by the *Invalid Ballot Log* found at APPENDIX-1183.

Further, as reflected on the *2024 General Election Over/Under Report,* the "Prec. Report" column in the mail section indicates the totals from the *Statewide Precinct Detail* report (i.e., **27,075** ballots were counted).

TIMELINE AND DOCUMENTS COLLECTED BY THE PIG

The following is a timeline and election records collected by the PIG. The documents associated with this timeline are included as an appendix under List of Documents.

On April 11, 2025, the PIG sent a letter to the Office of Elections and a letter to the Kauai County Clerk seeking the following: (1) “Records of the daily count of ballot envelopes collected from drop boxes and the USPS;” (2) “Transfer records of ballot envelopes from the Counties to the State;” (3) “Statewide Voter Registration System records showing the daily number of ballot envelopes that were signature verified;” and (4) “Daily logs that were used to compile over/under reports.”

On April 25, 2025, the Office of Elections responded to the PIG by providing the transfer records, the daily number of ballot envelopes that were signature verified, and the documentation used to compile the *2024 General Election Over/Under Report*. As for daily collection records, we referred the PIG to the Kauai County Clerk, as they maintain the records.

On April 28, 2025, the Kauai County Elections Division responded to the PIG providing the records of the daily count of ballot envelopes collected from drop boxes and USPS. Consistent with our response, the Kauai County Elections Division referred the PIG to the Office of Elections for the remaining records, Items 2-4 noted above.

On May 12, 2025, the PIG clarified that its review of the data reflected that 23,303 ballot envelopes were received as compared to the 27,075 ballots accepted by the State.

On May 30, 2025, the Kauai County Elections Division sent the PIG a letter in which it pointed out SVRS was the official system of record for purposes of various election metrics. Additionally, it directed the PIG to the Hawaii Supreme Court’s decision, which was informative in addressing what the court considered relevant for the reconciling of results.

On May 30, 2025, the Kauai County Elections Division sent the PIG an email in response to a telephone message from the PIG seeking to meet in person. Specifically, the Kauai County Elections Division offered to make itself available for a meeting and asked that the PIG provide a list of questions in advance of the meeting.

On June 13, 2025, the PIG revised its request and instead submitted questions. Responses to the questions were provided by the Kauai County Elections Division on June 23, 2025. In summary, the response again acknowledged that SVRS was the official record used to comply with the requirements for HAR § 3-177-453(b). Additionally, the Kauai County Elections Division pointed out that the manual hand-count as recorded on the *Envelope Collection* forms were taken to track election progress and did not constitute the official record of return identification envelopes.

On July 16, 2025, the Election Commission held a meeting at which it was to receive the report of the PIG. A motion was passed to receive the report, which was dated July 13, 2025. The report was added to the supplemental meeting packet that was made available after the conclusion of the meeting.

On July 29, 2025, in advance of an Elections Commission meeting on July 30, 2025, the Office of Elections submitted testimony responding to the report in which it compared the records involved and respectfully disagreed with the conclusions of the PIG.

SUMMARY

The Office of Elections used the election records including the *Envelope Collection* forms and USPS BRM postage receipts to confirm, among other things, the collection of return identification envelopes by the Kauai County Elections Division in the 2024 General Election. The compilation of the 2024 General Election records confirms the tracking of the receipt of ballots using SVRS and the validity of the results. Specifically, the difference in election records as compared to SVRS for the collection of return identification envelopes were 6 in 26,906 envelopes that were handled.

CONTEST FOR CAUSE FILED FOR THE 2024 GENERAL ELECTION

As the investigation and conclusions of the PIG appear to mirror the arguments made in an election challenge to the 2024 General Election that was dismissed by the Hawaii Supreme Court, we included those proceedings for purposes of this report. The main documents associated with the case are included as part of the appendix under List of Documents.

To begin, legal processes to challenge the validity of the results of an election are covered in HRS. These processes include the presentation of evidence by a plaintiff to show provable fraud and discrepancies in the determination of the winner of a race. The Hawaii Supreme Court serves as the final arbiter of election contests. This ensures prompt finality and confidence in the process.

On November 26, 2024, Commissioner Cushnie and various other plaintiffs filed an election contest with the Hawaii Supreme Court taking issue with the 2024 General Election in the County of Kauai, specifically in relation to the county council that was set to take office on December 2, 2025, in accordance with its county charter. The county council consists of 7 members. The margin of difference between the seventh place and eighth place candidate was 108 votes. Commissioner Cushnie contended there was an overage of 3,772 ballots, which he subsequently appeared to reduce to 661 ballots.

Commissioner Cushnie cited various documents generated by the Kauai County Elections Division concerning the collection of return identification envelopes from drop boxes and USPS and their eventual transfer to the state counting center after they were validated and entered in SVRS.

On December 4, 2024, the County of Kauai filed its motion to dismiss with the declaration of its Deputy County Clerk, along with exhibits. It also, on December 9, 2024, filed its reply to Commissioner Cushnie’s memorandum in opposition. The County of Kauai filed their errata later that same day.

On December 5, 2024, Chief Election Officer Nago filed his motion to dismiss with his declaration and various exhibits.

On December 20, 2024, the Hawaii Supreme Court dismissed the case in a detailed decision that did not arrive at the same conclusions that Commissioner Cushnie had arrived at in looking at the documents and in considering the law. It concluded that "[e]ven when viewing the evidence in a light most favorable to Plaintiffs, there is no genuine issue of material fact of an overage that could cause a difference in the 2024 General Election results for Kauaʻi County Councilmember." *Cushnie v. Nago*, SCEC-24-0000797, 2024 WL 5183213 at *7 (Haw. Dec. 20, 2024).

SUMMARY

In the 2024 General Election, an election contest was presented to the Hawaii Supreme Court by Commissioner Ralph Cushnie and various other plaintiffs providing largely the same evidence that was reviewed by the PIG. The plaintiffs in the case challenged the results of the Councilmember race and purported that the discrepancies on the collection records (e.g., *Envelope Collection* forms) from the Kauai County Elections Division constituted a discrepancy that would change the winner of the election. The Hawaii Supreme Court decided in favor of the State and County and came to its decision based on the official records as provided by SVRS and the results reports.

HAWAII'S ELECTION PROCESSES

As this report has focused on responding to the PIG's report and explaining how the numbers do align, readers may also need to understand how the various election processes work. The following details the safeguards, through processes and documents, that are in place to ensure the security and integrity of the election. Specifically:

- The roles and responsibilities of the state and county election offices
- The methods of voting and accounting of ballots
- The counting of ballots and reconciliation of the election results
- The role and determinations of the Hawaii Supreme Court
- The secure storage of ballots and election materials

This report focuses on the receipt and handling of return identification envelopes from voters. Return identification envelopes are collected by the County Elections Divisions from designated places of deposit and USPS. The handling of return identification envelopes is conducted and managed by authorized government officials.

For complete information of processes, from voter registration through the counting and secure storage of ballots, see *Report on Election Security: The Authentication, Accounting, and Securing of Ballots* starting at page APPENDIX-1.

AUTHORITY OF THE OFFICE OF ELECTIONS AND THE COUNTY CLERKS

The Office of Elections is a state agency administratively attached to the Department of Accounting and General Services that provides support to the Chief Election Officer. HRS § 11-1.5. As provided for in Article IV, Section 3, of the Hawaii State Constitution, the Legislature has established specific statutory responsibilities of the Chief Election Officer that are found in Title 2 of the HRS. At the county level, there are the county clerks who are appointed by their respective county councils and have duties and responsibilities based on their county charters, along with specific state laws, a significant portion of which involved the conduct of elections.

The regularly scheduled Primary Election and General Election are considered combined federal, state, and county elections in which federal, state, and county contests and questions appear on the same ballot. Since 2020, all elections are required to be conducted by mail, with accommodations for voting in person at designated voter service centers and electronic transmission for those voters with special needs. *See* HRS §§ 11-101, 11-107, 11-109, and 15D-9.

The duties and responsibilities of the Office of Elections and county clerks in these types of elections are primarily summarized in HRS §§ 11-110(b)(1)(A) & (B). Specifically, "[t]he counties shall be responsible for voter registration, absentee voting, voter service centers, places of deposits, and the mailing and receipt of ballots," while "[t]he State shall be responsible for the printing and counting of ballots." *Id.* The counting of ballots occurs at state counting centers operated by the Office of Elections. *See* HRS § 16-41. The county and state election offices work cooperatively to ensure the conduct of secure and accurate elections. Additionally, the division of duties and responsibilities between county and state offices creates natural checks and balances such as the accounting of the issuance and receipt of ballots by the county clerks to compare to the counting of voted ballots by the Office of Elections.

METHODS AND ACCOUNTING OF VOTING

The methods of voting include: (1) voting in person on a paper ballot at a voter service center, which can include the use of a ballot marking device for those with special needs; (2) receiving and subsequently returning a ballot that has been electronically transmitted for voters with special needs, including those who are in the military or overseas; and (3) the mailing of a ballot package to voters and their ability to return the ballot in an enclosed return identification envelope that they would sign and either mail or drop off at an authorized location. Each method of voting is tracked using SVRS.

As a vote-by mail state, properly registered voters are automatically sent a mail ballot package for each election. As provided for in HRS § 11-102, the county clerks "mail a ballot package by non-forwardable mail to each registered voter[,]" as reflected in SVRS, except for those who are "identified as having an outdated or non-deliverable mailing address." These ballots are mailed out to reach households at least eighteen days before the election. *Id.* For military and overseas voters, ballots are transmitted by mail or electronically at least forty-five days prior to the election in accordance with state and federal law. 52 USC §20302 and HRS §15D-9. Similarly, other voters with special needs may be transmitted and return their ballots electronically.

HRS § 11-107. The mail ballot package includes: (1) the ballot, (2) the personalized return identification envelope; (3) a secrecy sleeve; and (4) instructions.

Hawaii election officials use processes and documentation to secure the accuracy and integrity of the elections pursuant to HRS and HAR. Specifically:

- SVRS is the database of voters and serves as the form of recording the issuance and receipt of ballots for each election. It is a dynamic system that is constantly updated with information received and processed by the County Elections Divisions. The records of the issuance and receipt of ballots are applied to the voter record and tabulated by precinct and method of voting (i.e., valid return identification envelope or electronic ballot, and in-person voting) for reconciliation.

- Return identification envelopes are personalized and non-fungible such that only one is executable when submitted by a voter and it is validated before it can be processed for counting. As important, the return identification envelope encloses and secures the voted ballot. While we frequently speak of the return identification envelope as the voted ballot it is holding, it is an oversimplification and minimizes the security it provides. Return identification envelopes must be signed by the voter and validated by the County Elections Divisions. Only after these processes of signature and validation have been confirmed is it eligible to be transferred to the election officials at the state-operated counting center to be opened and processed as a voted ballot.

- Ballots are stored and handled in secure facilities and/or sealed containers. Ballots are unique and non-fungible such that the vote counting system detects duplicate or incorrectly programmed ballots.

SVRS AND THE ACCOUNTING OF RETURN IDENTIFICATION ENVELOPES

The SVRS tracks the issuance of every mail ballot package. There are a limited number of voters, such as those in the military, overseas, or with other special needs that can request to be sent and return their ballot by electronic transmission. *See* HRS § 11-107. Further, as voters primarily return their ballots through the mail, at a place of deposit, or at the County Elections Divisions, each county has procedures as to how they accomplish that in compliance with HRS and HAR.

With the focus on the receipt and handling of return identification envelopes, it should be noted that each includes its own unique individualized barcode, the names and address of the voter, and a space for the voter to sign. The return identification envelope barcode is not cross-referenced or associated with the ballot sent to the voter (i.e. no election official or vendor knows which ballot is associated with a particular return identification envelope or voter). The return identification envelope barcode and the voter's signature are used as part of the receipt of the return identification envelope by county election officials.

County Election Officials collect and transport the return identification envelopes at places of deposit and from USPS. These procedures typically involve county election staff driving to the designated places of deposit in a county vehicle and securing the ballots in containers and

bringing them back to the county building for processing through the high-speed scanner/sorter to receive and validate for entry into SVRS. Unlike analogous services like those provided by USPS, some counties have attempted to count envelopes in the field, while others - due to volume or perhaps safety issues, focus on securing the return identification envelopes and transferring them to the county building for processing. When collecting return identification envelopes, the purpose and goal of the county election officials are to secure and transport the return identification envelopes to their processing facility.

The inventory of the return identification envelopes is conducted at the county's processing facility through the high-speed scanner/sorter. This effectuates the process that the tracking mechanism of SVRS is the official record by which we accomplish the language of HAR § 3-177-453(b) (i.e. "The clerk shall maintain a complete and current count of all marksense ballots issued, spoiled, and received in their county. The accounting of marksense ballots by the clerk shall be recorded on forms prescribed by the chief election officer"). The SVRS serves as the official record for purposes of tracking the issuance and receipt of ballots. In summary, the goal of the collection process is to secure the return identification envelopes and to deliver them to the County Elections Divisions where they will account for them using the official system.

As an example, the Kauai County Elections Division's use of a disclaimer on its *Envelope Collection* form highlights the concerns of conducting a hand-count of return identification envelopes. Essentially, election officials as well as the PIG in relation to its investigation, must contend with illegible handwriting or transposing of numbers, that can occur when conducting repetitive counting in accounting for all records. For example, someone could accidentally count "47" as opposed to "48," transpose "43" as "34," write a "0" that looks like it could possibly be a poorly completed "6", or forget to fill in a portion of the form indicating how many were collected. The Bipartisan Policy Center exemplified such issues in a report entitled "How Ballot Tabulators Improve Elections[,]"

> Humans are notoriously poor at completing rote, repetitive tasks (especially if counting begins after a full day of working the polls). One election official noted to BPC that she had four sets of workers hand count the same ballots only to receive four different results. Tabulators, by contrast, are designed intentionally for this sort of repetition, and research confirms that tabulators have a lower error rate than hand counts. In their 2018 Election Law Journal article Learning from Recounts, Ansolabehere et al. analyzed two statewide recounts in Wisconsin, concluding that "Scanning paper ballots produces a more accurate election night count than hand-counting."

How Ballot Tabulators Improve Elections | *Bipartisan Policy Center*, https://bipartisanpolicy.org/explainer/how-ballot-tabulators-improve-elections/.

The use of the high-speed scanner/sorter and input into SVRS alleviate these types of issues and support election officials as the process to ensure accurate elections. The County Elections Divisions check each envelope into SVRS by scanning the barcode on the envelope associated with the voter, generally using the high-speed scanner/sorter. The scanner/sorter detects if the barcode has already been read or if the barcode has been canceled, thus preventing a return identification envelope from being accepted for counting.

For example, a voter may have asked for a duplicate return identification envelope and then found the original one but mailed both back. The check-in process by the county election officials prevents the voter from submitting 2 return identification envelopes. Likewise, a voter who moves to a new district/precinct will have their registration updated in SVRS and any return identification envelope associated with their former residence will be canceled and a new one will be generated that is associated with the new district/precinct. If the voter were to mail in the canceled return identification envelope the system would detect it and not allow it to be accepted for counting. We also want to emphasize that the voted ballot remains sealed in the return identification envelope and is opened at the counting center in the presence of official observers.

Part of the check-in process is to match the signature on the return identification envelope to the signature associated with the voter's registration record. When the signature is matched, the return identification envelope is considered valid, and eligible to be counted. If the signature does not match, the return identification envelope is not accepted for counting and the voter is contacted to permit them to cure the deficiency with their signature which in turn allows their return identification envelope to be accepted for counting. A voter may correct a deficient signature by five business days after Election Day. As such, deficient return identification envelopes may be validated and transferred to the counting center in-flow. The deficient return identification envelopes remain sealed and are maintained by the County Elections Division.

We want to highlight that through the issuance and receipt of ballots processes, voters have the opportunity to check that their return identification envelope has been received and the disposition (i.e., validated for counting or marked invalid for a deficient signature). Voters can use the ballot tracking notification service, to check online, through elections.hawaii.gov, or receive a notification by email, text, or telephone. Notifications include that the voter's mail ballot package has been created and that their return identification envelope has been received and accepted for counting. Instead of the ballot tracking notification service, voters may choose to contact their county elections office to check the status of their mail ballot package and voted return identification envelope. Likewise, the same information and options are available to voters who voted at a voter service center or who returned their ballot by electronic transmission if they are a voter with special needs. We encourage voters to participate in this manner for their own confidence in the handling of their voted ballot and the electoral process.

The valid return identification envelopes are transferred by the County Elections Division to the state-operated counting center to open and count the voted ballots. The valid electronic ballots are also transferred to the state-operated counting center to be processed (i.e., duplicated on a tabulation-ready ballot) and counted. At the point of a transfer, the number of valid return identification envelopes and electronic ballots is a known quantity as the County Elections Division tracked and logged them in SVRS.

The transfer of valid mail ballots from the County Elections Division to the state-operated counting center occurs at various times over the course of the election. The transfer dates depend on when the state counting center will be operating. Specifically, the law provides that "[b]allot processing for tabulation may begin no sooner than the eighteenth day before the election." HRS § 11-108(a). Depending on a variety of factors, such as scheduling personnel and the amount of return identification envelopes to be processed, each counting center has

different days of operation leading up to the day of the election. Each transfer typically involves a handoff from county election officials to a team of election officials with official observers, designated to monitor counting center operations. Please note that the election results are not posted until the closing hour of voting on Election Day or the last person in line to vote has voted, whichever is later, pursuant to HRS § 11-108(a).

Further, due to the volume involved, processing may continue through the day after Election Day for return identification envelopes that were received by the closing hour of voting (i.e. 7:00 p.m., subject to provisions regarding voters being in line at that time waiting to vote). HRS §§ 11-104 and 11-109. Given this, there may be a transfer after Election Day to address those return identification envelopes.

Finally, voters who returned their ballot by the deadline have up to five business days after the election to cure a deficiency, such as a missing signature or the signature provided not matching what is on record. HRS § 11-106. Likewise, the county clerks have until five business days after the election to complete their validation process of those ballots returned by the close of voting on Election Day. HRS § 11-108. These return identification envelopes are transferred to the counting center at the conclusion of the fifth business day after the election. The final election results factoring in those ballots are posted on the website of the Office of Elections. Election officials also conduct a post-election audit of the results.

ACCOUNTING OF VOTED BALLOTS

Ballots are unique and non-fungible. This goes beyond the fact that there are over 200 unique ballot types that reflect the unique combination of contests that a voter is eligible to vote on as a result of where they reside. Specifically, each ballot is printed with a unique ballot ID in the form of a non-human readable barcode, and the vote counting system is programmed to only accept those unique ballot IDs. In other words, every ballot is unique. The unique ballot ID is important for election security as it prevents and detects attempts at ballot stuffing as a ballot can only be counted once, and any duplicate ballots are rejected. In addition to tracking the votes, the vote counting system also captures the ballot image during counting which election officials can use to track and examine any issues with a ballot.

COUNTING VOTED BALLOTS

At the counting center, the return identification envelopes are opened, and the voted ballots are scanned by the vote counting system and securely stored.

As this report discusses the accounting of voted ballots, we must explain invalid conditions that occur at the counting center. The ballot opening team tracks invalid ballot conditions which stop a ballot from being counted, such as if the envelope is returned without a ballot or the voter returned two voted ballots (e.g., 2 household members accidentally enclose both of their ballots in a single return identification envelope). Ballots invalidated at the counting center are not counted and are securely maintained by the Office of Elections. This accounting of invalid ballots is addressed on the over/under report as part of the adjusted mail total to note a discrepancy with the validated materials the county received, and the number of ballots counted.

RECONCILIATION

Reconciliation is a routine procedure used by election officials to ensure the accuracy of the election, including comparing the number of voters who submitted their ballot to the number of ballots counted. In comparing the 2 records, election officials confirm that the figures are consistent, accurate, and complete. Specifically, the Office of Elections prepares an over/under report that details by precinct:

1) the receipt of valid return identification envelopes and electronic ballots from SVRS, adjusted to account for invalid conditions that occur at the counting center;

2) the number of mail ballots counted from the *Statewide Precinct Detail* (mail turnout);

3) the resulting overage or underage in the difference between the county and state accounting of mail ballots;

4) the record of in-person voting from SVRS;

5) the number of in-person ballots counted from the *Statewide Precinct Detail* (in-person turnout); and

6) the resulting overage or underage in the difference between the county and state accounting of in-person ballots.

Small differences may exist. For example, a ballot may accidentally be left in the return identification envelope or an invalid condition, such as an empty ballot secrecy sleeve may be misidentified during the processing of the return identification envelopes at the ballot opening work area of the counting center.

CONTEST FOR CAUSE

The Hawaii Supreme Court has an important role in supporting the confidence of an election as they hear and resolve a challenge to the outcome of an election. The election results are subject to the filing of an election contest with the Hawaii Supreme Court to challenge the outcome of the election. *See* HRS §§ 11-172, 11-173.5, and 11-174.5. Among other things, the law provides that "[t]he complaint shall set forth any cause or causes, such as but not limited to, provable fraud, **overages, or underages, that could cause a difference in the election results**." HRS § 11-172 (emphasis added).

This process allows voters or candidates to present evidence to the Hawaii Supreme Court to judge and decide the validity of the election results. The decisions by the Hawaii Supreme Court are based on the statutes and rules applied to the evidence provided by the plaintiff and impacted election offices.

The election offices provide the official records as logged by SVRS and the results reports. As exemplified above (*Contest for cause filed for the 2024 General Election*), the Office of Elections prepares and provides the over/under report. In summary, the over/under report accounts for the number of voted ballots as recorded in SVRS by county election officials to the number of

voted ballots counted by state election officials at the counting center, by precinct. The compilation of the over/under report is the culmination of the processes and documentation in compliance with the statutes and rules governing elections. As with previous litigation, the over/under report is cited by the Hawaii Supreme Court in its decisions on election contests.

SEALED STORAGE OF VOTED MATERIALS

Consistent with the authority of the Hawaii Supreme Court, "voted materials shall not be open to the inspection of any voter until after the end of the contest period unless opened upon order of the court." *See* HRS § 11-97(b). The term "voted material" has been interpreted expansively, such as not being limited to the physical ballots but also information gathered from return identification envelopes that contain said ballots as noted regarding the 2022 General Election.

> The specific information in question is the information on whether-a-person-voted as identified from a return identification envelope submitted by the voter. We find this information is 'voted materials' under HRS § 11-97(b) (2012) and it was not an error for the Clerk to withhold this confidential information . . . .
>
> ***
>
> In sum, the Clerk was correct to not immediately disclose the confidential information. And, a party seeking to compel the disclosure of the confidential voted materials must apply for an order from the court. *See* HRS § 11-97(b). *See e.g.*, Haw. Const. art. I, § 6, art. II, § 4.

Ahia v. Lee, SCEC-22-0000707, 2023 WL 334610 at *5 (Haw. Jan. 20, 2023).

On a related note, federal law requires that elections officials "retain and preserve, for a period of twenty-two months from the date of any [election involving a federal office] all records and papers . . ." 52 USC § 20701. We understand the federal government has a broad interpretation of what is covered by this law.

As for the corresponding state law, HRS § 11-154 provides:

> **§11-154 Records, etc.; disposition.** The voted ballots shall be kept secure and handled only in the presence of representatives not of the same political party or official observers in accordance with rules adopted for the various voting systems. **After all the ballots have been tabulated they shall be sealed in containers. Thereafter, these containers shall be unsealed and resealed only as prescribed by rules governing elections.**
>
> **The ballots and other election records may be destroyed** by the chief election officer or clerk **when all elected candidates have been certified** by the chief election officer, or in the case of candidates for county offices, by the clerk and **after compliance with retention schedules of applicable federal law.**

Emphases added.

The administrative rules implementing this statute are found in Chapter 3-177, Hawaii Administrative Rules (HAR). These rules reflect processes and documentation in which ballots and sensitive election materials are sealed and unsealed at different stages of the voting counting process, concluding with sealing at the end. HAR §§ 3-177-61 and 3-177-757. Of note, HAR § 3-177-757(f) and (i) provide as follows:

> (f) After all ballots are counted, the election database and vote data storage media, test ballots and results, the election results, and the voted ballots shall be sealed in containers or cabinets.
>
> ***
>
> (i) The containers or cabinets shall be sealed and stored for twenty-two months in accordance with federal law.

Emphases added.

Consistent with preserving the integrity of these records, there is no provision for the unsealing and sealing of the containers or cabinets during the twenty-two-month period. These records include not only the ballots but also the return identification envelopes.

SUMMARY

Layers of processes and documentation safeguard Hawaii's elections. These processes and documentation have been developed, reviewed, and refined in compliance with the statutes and rules governing elections to establish a record and logs for tracking and securing election materials. Specifically, SVRS is the system of record to log the issuance and receipt of ballots pursuant to HAR 3-177-453(b). SVRS is a dynamic electronic form that is constantly updated by county election officials as materials are received and processed. A static record is compiled for each election in the form of an over/under report that compares the SVRS record to the final election results by precinct. Following each election, sensitive materials, including the ballots and return identification envelopes are securely stored for 22 months.

CONCLUSION

The Office of Elections analyzed the documents provided to the PIG and could not replicate the discrepancy of 661 ballots. In our analysis, we noted that the PIG may not have accounted for electronic ballots and invalid return identification envelopes, or considered the other factors presented. The PIG seems to rely on analysis that was presented to and dismissed by the Hawaii Supreme Court, which mirrors its finding of 26,633 ballots collected less 219 invalid ballots, which we explained in the *Analysis of Kauai County Elections Division's Collection Documents by the Office of Elections* and *Contest for cause filed for the 2024 General Election* above.

Our response has laid out that the law concerning reconciliation provides for the official results to be compared to "documented usage" for purposes of determining overages and underages. This response has also explained how "documented usage" is derived from SVRS after

factoring in invalid conditions at the counting center (e.g. empty return identification envelopes). Additionally, we have referred to the Hawaii Supreme Court's decision in *Cushnie v. Nago*, SCEC-24-0000797, 2024 WL 5183213 (Haw. Dec. 20, 2024), in which it likewise did not find that a sufficient overage and underage existed to cause a difference in the county council contest election results that had been challenged, relying on the official records as SVRS and the results report.

Furthermore, we have explained we are in compliance with the statutes and rules governing elections, specifically HAR 3-177-453(b). The SVRS is the official record to track and log the mailing and receipt of ballots. The processes and safeguards, as provided in *Hawaii's Election Processes* above, describe how election officials collect, handle, validate, and count the return identification envelopes and the importance of the high-speed scanner/sorter and electronic form to maintain accurate records.

Finally, we would like to thank the members of the PIG for their service and dedication in their investigation. We will share its recommendations with the County Elections Divisions to consider any procedural improvements that can be implemented for future elections.

Report on Election Security: The Authentication, Accounting, and Securing of Ballots

February 16, 2024

This report has been prepared by the Office of Elections and Offices of the County Clerks. For additional information or questions, please contact the Office of Elections by emailing elections@hawaii.gov or by calling (808) 453-VOTE (8683) or toll-free 1-800-442-VOTE (8683).

Overview

The mission of the Office of Elections is to provide secure, accessible, and convenient election services to all citizens statewide. The office works cooperatively and collaboratively with the Offices of the County Clerks to conduct the elections. The responsibilities of each office are provided by statute with the state responsible for the printing and counting of ballots and the counties responsible for voter registration and voting, including the mailing and receipt of ballots and establishing and operating places of deposit and voter service centers.

The security of the elections is based on the fact that the eligibility of voters is readily identifiable and non-fungible (i.e., unique and not interchangeable), and likewise, the authentication of the ballots, while not associated with a voter, is also readily identifiable and non-fungible. Then, layers of processes to secure the election are applied such that the conduct of the election must be viewed in its totality. The materials for each election, such as the return identification envelope personalized to each voter and the ballot sent to the voter are each unique and not interchangeable. As a simple example, the return identification envelope received for a primary election cannot be accepted for the general election and similarly, the ballot received for the primary election cannot be counted for the subsequent general election. Election officials rely on the readily identifiable and non-fungible nature of election materials to apply layered safeguards and intentional checks within the processes of 1) voter registration; 2) ballot mailing; 3) voted ballot return; and 4) counting voted ballots to authenticate, account for, and secure the election. It is important to note that when we talk about the security of the elections, we are talking about how all the safeguards work together to provide secure elections. This report attempts to explain the security and safeguards and how they complement and work together.

Background

As a starting point, Hawaii conducts elections by mail such that registered voters are automatically sent a ballot for each election and a voter service center is established in each County to provide accessible in-person voting.

Voters register to vote by submitting a voter registration application and must update their records when their information (e.g., residence address, mailing address) changes. At the start of each election year, election officials conduct list maintenance to check for outdated voter registration records by sending voters a Notification of Voter Registration mailing. Delivered mailings are considered to be active voter registration records, while undeliverable mailings are used to flag outdated voter registrations to require impacted voters to update their records before voting or eventually be removed from Hawaii's voter rolls if no action is taken. It is important to understand that the voter rolls are fluid. The rolls are constantly being updated as

voters may register or update their records at any time. Election officials also receive information from other government agencies that allow them to maintain the accuracy of the rolls.

After the candidate filing deadline for each election, ballots are programmed, proofed, printed, and mailed. Mail ballot packages are created for each active voter registration record and include 1) a ballot based on the voter's assigned district/precinct (D/P); 2) the voter's personalized return identification envelope; and 3) a secrecy sleeve. As noted, the voter rolls are fluid, but each voter's return identification envelope is identifiable to a voter. Each ballot, while not tied to a voter, is also programmed with a ballot unique ID in the form of a non-human readable barcode used by the vote counting system.

During voting, voters vote their ballot, conceal it in the secrecy sleeve, seal it in the return identification envelope, and sign the exterior of the return identification envelope. The sealed and signed return identification envelope is submitted to the Office of the County Clerk by mail or to a place of deposit. Instead of voting using the mailed ballot package, a voter could choose to visit a voter service center to vote in person and have their mail ballot package canceled.

After collecting the return identification envelopes, the Office of the County Clerk validates the signature on the exterior of the envelope and indicates on the voter record that it has been received and accepted for counting. The return identification envelope remains sealed. Likewise, for a voter who appears at a voter service center, their mail ballot packet is canceled so that the return identification envelope cannot be received and accepted. The statewide voter registration system, which is the database of the voter rolls, is used to track voting – either using the return identification envelope or in person by the individual voter when voting at a voter service center.

Finally, validated return identification envelopes are transferred to the state-operated counting center to be opened, processed, counted, and secured. The return identification envelopes are opened in a two-step process to maintain voters' secrecy. First, the secrecy sleeve concealing the voted ballot is removed from the return identification envelope. Emptied return identification envelopes are cleared from the work area before proceeding to remove the voted ballots from the secrecy sleeve and unfolding them for counting. Voted ballots are scanned by the vote counting system and securely stored. The vote counting system checks the ballot unique ID to authenticate each individual ballot and prevent duplicate counting.

Voter Registration

Voters register and update their voter registration records using a voter registration application. The paper voter registration application is available at elections.hawaii.gov, post offices, libraries, and election offices statewide. Also, voters with a Hawaii Driver License or State ID may use the online voter registration system at elections.hawaii.gov. Additionally, the voter registration application is a required part of the Hawaii driver license and state ID application that is used for applicants to get, renew, or update their ID. Further, election officials receive information related to voters from other government agencies, such as the State of Hawaii Department of Health to remove deceased voters from the rolls. Registering, updating, and maintaining records using government data is a routine function of the Offices of the County Clerks.

Election officials also conduct list maintenance in accordance with the federal National Voter Registration Act of 1993 (NVRA). The NVRA establishes a process to identify outdated voter records through a series of election mailings. Hawaii conducts list maintenance under NVRA ahead of each primary election. The initial mailing is non-forwardable, and delivery confirms that the voter remains registered as addressed (i.e., no action is required by the voter and election officials).

If the initial mailing is undeliverable, the mailing is returned to the County Clerk's office. The County Clerks follow up with these voters by sending a second forwardable mailing to locate the voter and notify them that they must update their voter registration before they are allowed to vote in Hawaii's elections. Voters who are sent this mailing and do not take action to update their voter registration within 2 general elections are removed from the voter rolls. Additionally, NVRA provides that a voter may not be flagged inactive within 90 days of the election. As such, the timing of the undeliverable mail piece being returned to the County Clerk's office impacts the timeline for removal. For example, an undeliverable mail ballot package cannot be used to flag a voter as inactive until after the general election, as it would occur less than 90 days prior to the general election. Given this, the current/recent general election would not count toward the required two general elections that must follow a voter being flagged as inactive before they can be removed. It is important to note that under state law the voter will not be sent a ballot while they are inactive as ballots are not permitted to be mailed to an outdated or non-deliverable mailing address.

Through the process of list maintenance, at any given time there are inactive voter registration records included in the voter rolls. As an example, for the upcoming 2024 Elections, voters will be mailed a Notice of Voter Registration card to be received in the first half of 2024. Voters flagged as having an outdated voter record through this mailing prior to the Primary Election will

be marked inactive and sent the second forwardable mailing. Any impacted voters who fail to update their voter record by the 2026 General Election can only be removed after the 2026 Elections.

Looking at past elections, voters removed after the 2022 General Election were flagged inactive at least 90 days ahead of the 2020 Primary Election, while voters removed after the 2020 General Election were flagged inactive at least 90 days ahead of the 2018 Primary Election. For the number of voters removed after the 2022 General Election (i.e., 2023), and 2020 General Election (i.e., 2021), see page 9.

There is no statutorily established date to purge voters from the rolls and the County Clerks' offices typically remove voters after the resolution of the previous general election in the non-election year but before the calendar year of the next election.

We would also note that the voter registration count associated with a specific election is captured on the deadline for voters to submit a paper voter registration application. The voter registration count reported by the election results represents all voters (i.e., active plus inactive and questionable addresses) associated with the election. This reporting of the voter registration count is used to calculate voter turnout for each election. For information on accessing the election results, see Election Results on page 34.

The process for voter registration and list maintenance serves as a safeguard to the integrity of the election by checking that ballots are not sent to voters who no longer receive mail at the provided address. Also, the inclusion of the voter registration application with the Hawaii driver license/state ID application allows voters to simultaneously register or update their voter registration. Further, individual voters contribute to the accuracy and integrity of the elections by returning election mailings to the Office of the County Clerk for resolution if they receive an election mailing for a voter who no longer resides or receives mail at the address associated with the voter registration record.

Ballot Mailing

As provided for in HRS § 11-102, election officials "mail a ballot package by non-forwardable mail to each registered voter[,]" except for those who are "identified as having an outdated or non-deliverable mailing address." As noted on page 2, each mail ballot package includes (1) a ballot for the voter's assigned district/precinct, (2) the voter's personalized return identification envelope; and (3) a secrecy sleeve. The voter's ballot and their personalized return identification envelope are not connected, to ensure secrecy, and as individual pieces, are readily identifiable and non-fungible.

For purposes of sending a ballot package to voters, this section will focus on the return identification envelope. As noted on page 5, the return identification envelope is personalized with information from the statewide voter registration system including a unique identifier, the App-ID. We want to emphasize that the App-ID is the unique identifier associated with the return identification envelope only. The App-ID is not cross-referenced or associated with the ballot sent to the voter (i.e. no election official or vendor knows which ballot is associated with a particular return identification envelope or voter).

Election officials know how many ballot packages have been prepared for mailing based on the voter rolls (e.g., the assignment of the App-ID) and reconcile physical pieces with the mailing house vendor. This allows election officials to account for the number of voters sent a ballot in the statewide voter registration system. As the voter rolls are fluid, the Offices of the County Clerks continue to issue and replace ballot packages to voters after the initial mailing by the mailing house vendor. The number of ballots mailed is ultimately tracked based on the number of voters sent a ballot package, as regardless of an attempt by a bad actor to vote more than once, the Office of the County Clerk will only be able to receive and accept one return identification envelope for counting per voter. For the number of voters mailed a ballot for the 2022 and 2020 Elections, see Ballots Mailed starting on page 9.

The status of the mail ballot package and voted ballot is available to each voter using the App-ID on the return identification envelope. Voters can use the ballot tracking alert service, through elections.hawaii.gov, to check online or receive a notification by email, text, or telephone. Notifications include that the voter's mail ballot package has been created and that their return identification envelope has been received and accepted for counting. Instead of the ballot tracking alert service, voters may choose to contact their county elections office to check the status of their mail ballot package and voted return identification envelope.

Because the ballot package is sealed with the return identification envelope and ballot, along with the public announcement of the mailing of ballot packages, the risk of it being stolen, misdelivered, misplaced, or otherwise lost unbeknownst to an expectant voter is reduced. Consistent with this, voters are expected to contact election officials if they have not received their ballot. Likewise, groups who are focused on getting out the vote will also be aware if the voters they are contacting inform them that they have not received their ballot package.

Election officials coordinate delivery with the United States Postal Service (USPS). Given the volume of mail involved, election officials use mailing permits in which they are charged for each individual piece of mail. Election officials could identify a significant disconnect between the number of return identification envelopes prepared by the mailing house, reflected in the statewide voter registration system, and what was billed per piece by USPS.

Voted Ballot Return

The return identification envelopes, securing and concealing the voted ballot, are returned by mail or to a place of deposit for collection by the Office of the County Clerk. As noted on page 2, the return identification envelopes are readily identifiable and non-fungible as it is personalized to the voter (e.g. voter's name, App-ID, voter's signature), sealed, and otherwise not reasonably subject to tampering. Additionally, each County Clerk's office implements processes to ensure security when handling return identification envelopes from the United States Postal Service (USPS) and places of deposit. Of note, a voted ballot not concealed in a return identification envelope, for example – at a place of deposit, will not be received and accepted for counting as it would undermine the very security we have been discussing.

After taking custody of the return identification envelopes, the County Clerk's office checks each envelope into the statewide voter registration system by scanning the barcode on the envelope associated with the voter, generally using ballot sorting equipment. The ballot sorting equipment detects if the barcode has already been read or if the barcode has been canceled, thus preventing a return identification envelope from being accepted for counting. For example, a voter may have asked for a duplicate return identification envelope and then found the original one but mailed both back. The check in process by the County Clerk's office prevents the voter from submitting 2 return identification envelopes. Likewise, a voter who moves to a new district/precinct will have their registration updated in the statewide voter registration system and any return identification envelope associated with their former residence will be canceled and a new one will be generated that is associated with the new district/precinct. If the voter were to mail in the canceled return identification envelope the system would detect it and not allow it to be accepted for counting. We also want to emphasize that the voted ballot remains sealed in the return identification envelope and is opened at the counting center in the presence of official observers.

Additionally, as part of the check in process, the signature on the return identification envelope is matched to the signature associated with the voter's registration record. If the signature does not match, the return identification envelope is not accepted for counting and the voter is contacted to permit them to cure the deficiency with their signature which in turn allows their return identification envelope to be accepted for counting. These return identification envelopes remain sealed and are maintained by the Offices of the County Clerks.

The status of the return identification envelope is available to the voter through the ballot tracking alerts service or by calling an election office. For the number of return identification envelopes received deficient for the 2022 and 2020 Elections, see page 83.

Voter Service Centers

As previously noted, a voter is only allowed to cast one ballot. This means that the return identification envelope will be rejected if a voter has already voted at a voter service center. Likewise, a voter will not be permitted to vote at a voter service center if their return identification envelope has already been received. Starting with the 2024 Elections, the voting equipment at the voter service center will be programmed to not accept mail ballots and the ballots will visually be readily differentiated from voter service center ballots. Given this, a voter could not vote their mail ballot in addition to the ballot they would be issued at the voter service center.

After the voter service center closes, the vote counting equipment and the voted ballots are transferred to the state-operated counting center for accounting and secure storage.

Counting Voted Ballots

The County Clerk's office transfers accepted return identification envelopes to the state-operated counting center. Each state-operated counting center is staffed by election officials, the voting system vendor, and volunteers. Volunteers designated as counting center officials are assigned to various work areas to open return identification envelopes and collect voted ballots, track and log voted ballots for counting and tabulation, and track and duplicate defective ballots. Additionally, volunteers serve as official observers to be the "eyes and ears' of the public monitoring the handling of voted ballots within the counting center. Counting center operations to open, process, and count voted ballots must be conducted in the presence of official observers. When not directly handled, sensitive election materials are securely stored with tamper evident seals. The sealing and unsealing process requires certification by the official observers.

Processing Return Identification Envelopes

As noted on page 3, return identification envelopes are processed at the ballot opening work area in a two-step process. First, the return identification envelope is opened and the secrecy sleeve concealing the ballot is removed separating the voter from their ballot. The return identification envelope is cleared from the work area before the ballot is removed from the secrecy sleeve and it will be securely stored. The ballot opening team also tracks invalid ballot conditions which stop a ballot from being counted like the envelope or secrecy sleeve is returned without a ballot or the voter returned 2 voted ballots (e.g., 2 household members accidentally enclose both of their ballots in a single return identification envelope). Ballots invalidated at the counting center are not counted and are securely maintained by the Office of Elections. This accounting of invalid ballots is addressed on the over/under report as part of the

adjusted mail total to note a discrepancy with the number of return identification envelopes the county received. The over/under reports from the 2022 and 2020 Elections are included starting on page 34.

The ballot opening team forwards voted ballots to the VBC processing work area to be counted, logged, and securely stored.

Ballot Unique ID

As noted on page 3, ballots are non-fungible as each is printed with ballot unique ID in the form of a non-human readable barcode, and the vote counting system is programmed to only accept the ballot unique ID. The ballot unique ID is important for election security as it prevents and detects ballot stuffing as a ballot can only be counted once, and any duplicate ballots are rejected. In addition to tracking the votes, the vote counting system also captures the ballot image during counting which election officials can use to track and examine any issues with a ballot.

Reporting Overages and Underages

Results are tabulated and released starting on Election Day. As previously noted on page 7, the Offices of the County Clerks have up to 5 business days after Election Day to validate any return identification envelopes that were received by the deadline on Election Day. This typically involves voters whose return identification envelopes were found to be deficient (e.g. due to a non-matching signature or failure to sign the envelope) curing the deficiency with the Offices of the County Clerks by the 5th business day deadline. These validated return identification envelopes are then counted and tabulated.

The mail turnout, or the number of voted ballots counted at the counting center, from the final results report is compared to the number of voters who returned their return identification envelope, by district/precinct. Likewise, the in-person turnout, or the number of voted ballots counted at the voter service centers, from the results report is compared to the number of voters who voted at a voter service center. This is reflected in the over/under reports starting on page 34. Please note that they are also at times referred to as the reconciliation of voted ballots or voted ballot summary. Small differences may exist as the human element leads to human errors. A ballot may accidentally be left in the envelope or an invalid condition, such as an empty ballot secrecy sleeve may be misidentified during the processing of the return identification envelopes at the ballot opening work area.

Election Metrics

Voter registration

Undeliverable Election Mailings

The Offices of the County Clerks provided the following data related to undeliverable election mailings from the 2022 and 2020 Elections. Statistical data related to undeliverable mailings are not captured by type or district/precinct, but rather in totality.

County	2022 Elections	2020 Elections
County of Hawaii	5,730	10,277
County of Maui	8,165	4,925
County of Kauai	Data not tracked	Data not tracked
City & County of Honolulu	27,612	18,014

Voters Removed

After each general election, the Offices of the County Clerks removed voters who have remained inactive for at least 2 general elections. The table below indicates the number of voters removed (i.e., purged) from the voter rolls in 2023, following the 2022 General Election, and 2021, following the 2020 General Election. Voters removed from the voter rolls are eligible to re-register to vote in Hawaii. We would note that there was a transition to a new voter registration database between the 2016 and 2018 Elections. This resulted in an abundance of caution when flagging voters as inactive, which impacted when those voters could ultimately be removed.

County	2023 (Voters flagged inactive before the 2020 Elections)	2021 (Voters flagged inactive before the 2018 Elections)
County of Hawaii	4,965	3,291
County of Maui	6,811	2,575
County of Kauai	3,188	2,507
City & County of Honolulu	34,216	4,633

Election Results

The election results are available at elections.hawaii.gov/election-results as summary and precinct reports. A summary report is a cumulative report of votes for all contests based on the scope selected (i.e., statewide, countywide):

- Statewide Summary (PDF and text)
- County of Hawaii Summary
- County of Maui Summary
- County of Kauai Summary
- City & County of Honolulu Summary

The Statewide Precinct Detail report is available as a PDF or text file and provides the votes for each district/precinct broken down by mail and in-person.

Ballots Returned and Counted

As noted on page 9, there is a detailed process to prepare the over/under reports. These reports are sometimes referred to as the reconciliation of voted ballots or voted ballot summary as that is functionally what they involve. Likewise, we find that there are those who seek the same report but frame their request as seeking the number of ballots returned and the number

of ballots counted. We would note the columns “Adj. Mail Turnout” and “Walk Turnout” together reflect the number of ballots returned in an election, while the column “Prec. Report” reflects the number of ballots counted in a particular D/P in the following reports for the 2022 General, 2022 Primary, 2020 General, and 2020 Primary.

Other Election Safeguards

In addition to the processes related to voter registration, ballot mailing, voted ballot return, and counting voted ballots, safeguards are in place to test and secure the vote counting system, audit the election results, and file an election contest.

To test the vote counting system official observers who serve as the counting center volunteers, vote test ballots and create a hand tally of expected results. The test ballots are counted by the voting equipment and the official observer matches their hand tally of expected results to the results report tabulated by the vote counting system. After certifying the voting equipment, it is secured.

Election audits confirm the accuracy and integrity of the results by reviewing the ballots and creating a hand tally of expected results. The audit hand tally of expected results is compared to the results report tabulated by the vote counting system. The audit is conducted on 10% of precincts, which are randomly selected, and the hand tally is created for 1 contest per audit precinct. If during the audit an issue impacting the results of the election is found, the audit may be expanded to additional contests or precincts.

Ultimately, all disputes may be resolved by the court system. Specifically, the Hawaii Supreme Court has jurisdiction to resolve all election contests. The complaints in such cases are required to “set forth any cause or causes, such as but not limited to, provable fraud, overages, or underages, that could cause a difference in the election results.” Allegations regarding chain of custody must necessarily allege provable fraud, overages, or underages, that could cause a difference in the election results.

Conclusion

In recent years, the issue of election integrity has been raised by some who allege what they see as “chain of custody” concerns. Among the allegations are that fake ballots could be created and surreptitiously added to the existing ballots to be counted or that ballots could be removed before they are counted. This report demonstrates that any discussion regarding any alleged risks or opportunities for tampering with our elections first requires an understanding of how our elections operate and the procedures and safeguards that are in place. For example, when someone seeks to review and challenge a single process in isolation, they might not appreciate that the election actually has to be viewed in totality and that a check may already have been applied or will be conducted later in the process to address the issue they are concerned about. The layered safeguards and intentional checks election officials implement as part of their election processes are meant to work together to prevent and identify issues.

IN THE SUPREME COURT OF THE STATE OF HAWAII

Ralph S. Cushnie *pro se,* along with more than Thirty Voters

Plaintiffs

VS.

Scott T. Nago, in his official capacity as Chief Elections Officer for the Office of Elections, State of Hawaii; Ms Jade Fountain-Tanigawa, County Clerk for the County of Kauai

Defendants

CASE NO. _____

ELECTION COMPLAINT
PURSUANT TO
HRS § 11-172 and HRS § 11-174.5

WITH ATTACHMENT (1),
AND EXHIBITS (A) THROUGH (E)

I, Ralph S. Cushnie, one of the people, a citizen and registered voter, along with more than thirty registered voters from the County of Kauai, District 17 (Petitioners), and citizens of the State, hereby bring this Election Complaint pursuant to the Constitution of the State of Hawaii Article I Section 4, the Hawaii Revised Statutes, and the Hawaii Rules of Civil Procedure, for redress of a grievance regarding elections.

Plaintiffs' rights and responsibilities are pursuant to the Constitution for the State of Hawaii Article I Section I, Article I Section II, and the Hawaii Revised Statutes Title 2 Part XI Elections Contest, HRS § 11-172 Contests for cause, and HRS § 11-174.5 Contests for cause in...general election.

RECEIVED
NOV 25 2024
SUPREME COURT
CLERK'S OFFICE

Plaintiffs aver that the Supreme Court for the State of Hawaii is the court of competent jurisdiction and has jurisdiction of this matter pursuant to the Constitution for the State of Hawaii Article II Section 10, and per the Hawaii Revised Statutes Title 32 Chapter 602 Part I HRS § 602-5 Jurisdiction, and Title 2 Part XI HRS § 11-175 Powers of supreme court.

Plaintiffs aver that Scott T. Nago, in his official capacity as Chief Elections Officer for the Office of Elections, State of Hawaii, and Jade Fountain- Tanigawa in her official capacity as the County Clerk for the County of Kauai, are the Defendants for this election complaint.

Defendant Scott T. Nago, Chief Elections Officer for the Office of Elections is responsible for the supervision of state elections per the Constitution for the State of Hawaii Article IV Section III and HRS § 11-2.

Defendant Jade Fountain- Tanigawa, County Clerk for the County of Kauai is responsible for the conduct of county elections per The Charter of the County of Kauai, Article V, Section 5.01.B(4).

Plaintiffs aver that an overage did occur in the County of Kauai during the 2024 General Election and that the overage did cause a difference in the election results.

REQUEST FOR JUDICIAL NOTICE

Plaintiffs respectfully requests the court acknowledge the Plaintiffs rights to plead in plain language as a pro-se litigant.

Plaintiffs request the court take Judicial Notice of the following pursuant to the Hawaii Rules of Evidence Rule 201:

The Constitution for the State of Hawaii Article I Section I, Section II, and Section IV.

Hawaii Revised Statutes, Chapter 1 Construction of Laws, and specifically HRS § 1-14, HRS § 1-15, and HRS § 1-16.

Hawaii Revised Statutes, Chapter 11 Elections, and specifically HRS § 11-1, HRS § 11-2, HRS § 11-96, HRS § 11-98, HRS §11-104, HRS § 106, HRS § 11-108, HRS § 11-109, HRS § 11-153, HRS § 11-155, HRS § 11-171, HRS § 11-172 and HRS § 11-174.5.

Hawaii Administrative Rules, Chapter 177 Rules for the Office of Elections, and specifically HAR § 3-177-61, HAR § 3-177-250, HAR § 3-177-453, HAR § 3-177-750, and HAR § 3-177-769.

Plaintiffs respectfully requests the court take judicial notice and include by reference all other appropriate constitutional clauses, state statutes, relevant case law, and uncontested facts, whether referenced or cited in this pleading or from the outside, and which form the basis of lawful procedure and due process, or as necessary to establish any element which may be in question.

STATEMENT OF THE COMPLAINT

Plaintiffs maintain that accurate elections are fundamental to the preservation of inalienable rights and through the creation of government authority as determined through the election of public servants by the people, and as per the Constitution for the State of Hawaii Article I Section I & II.

HRS § 11-171 specifies that "This part shall apply whenever a contested election is subject to determination by a court of competent jurisdiction in the manner provided by law."

Per HRS § 11-172 "With respect to any election...any thirty voters of any election district, may file a complaint in the supreme court."

Per HRS § 11-172 "The complaint shall set forth any cause or causes, such as...overages, or underages, that could cause a difference in the election results." And that "The complaint shall also set forth any reasons for reversing, correcting, or changing the decisions of the voter service center officials[.]"

Per HRS § 11-174.5 "The judgement may invalidate the general...on the grounds that a correct result cannot be ascertained because of a mistake or fraud on the part of the voter service center officials."

HRS § 11-153(b) specifies that "the overage or underage shall be recorded after the tabulation of ballots."

Per HRS § 11-153(c) "An election contest may be brought under part XI, if the overage or underage in any precinct could affect the outcome of an election."

On 6 November 2024, Plaintiffs submitted a UIPA per HAR § 3-177-250 to the County of Kauai Elections Division to provide all chain of custody documentation for ballot collections and handling for the 2024 General Election. EXHIBIT (A)

On 21 November 2024, Plaintiffs received records from the County of Kauai Elections Division that were used for recording ballot chain of custody documentation during the 2024 General Election, and as required per HRS § 11-98, HAR § 3-177-61, and HAR § 3-177-453. (See EXHIBIT (B), (C), (D))

Per HRS § 11-96 "Every record made pursuant to law by a board of registration of voters, or the precinct officials, shall be a prima facie evidence of the facts therein set forth, and shall be received as such in any court or tribunal in which the same is offered in evidence."

Per HRS § 11-104(a) "Once a voter has returned a return identification envelope containing the secrecy envelope or secrecy sleeve with the marked ballot, that voter's ballot shall be deemed cast and may not be recast in the election." [underline for emphasis]

Per HRS § 11-1 "Place of deposit" means a site within the county of the voter's registration address designated pursuant to section 11-109 for the purpose of receiving return identification envelopes [voted ballot envelopes] in an election conducted by mail pursuant to part VII."

Per HRS § 11-109(d) "The clerks may designate and provide for places of deposit to be open as early as the mailing of ballots by the clerks; provided that the locations and apparatus for receiving voted ballots can be securely maintained during the period of use for each election, and as may be permitted by the operational hours." [underline for emphasis]

Per HAR § 3-177-750 "The voted ballots shall be kept secure and handled only in the presence of representatives not of the same political party or official observers." [underline for emphasis]

The security for the voted ballot begins when the voted ballot is deposited in a ballot drop box location or in a mailbox associated with the US Postal Service.

The "County of Kauai Office of the County Clerk 2024 General Election Envelope Collection Drop Box v2.0" (EXHIBIT (B)) is the record of the date, time, seal number, (courier) initials, and the quantity of voted ballot envelopes that were recovered from ballot drop boxes throughout the county, and which occurred during voting from 18 October through 5 November 2024. This form also records date, time, and (clerk) initials for receipt of the voted ballot envelopes at the elections division, along with the date, time, and clerk initials for unsealing/scanning of the voted ballot envelopes at the Kauai Elections Division.

The "County of Kauai Office of the County Clerk 2024 General Election Envelope Collection Office / VSC / USPS v2.0" (EXHIBIT (C)) is the record of the date, time, seal numbers, (clerk) initials for receipt/sealing of voted ballot envelopes from the drop box at the county elections division, county voter service center, and from the U.S. Postal Service, and which occurred during voting from 18 October through 5

November 2024. This form also records the date, time, and (clerk) initials for the unsealing/scanning of voted ballot envelopes at the Kauai Elections Division.

A tabulation of the number of voted ballot envelopes that were received by the Kauai County Elections Division recorded through this process is shown in Figure (1) and which summarizes the records for the total number of voted ballot envelopes received by the county through drop box, postal service and at the voter service center. The documented usage for voted ballot envelopes was recorded as 23,303, and is the total number of voted ballots submitted by mail for the county.

Figure (1) County of Kauai, Drop Box Ballot Summary

Following receipt of voted ballot envelopes at the Kauai Elections Division, the voted ballot envelopes are processed for signature verification and entry into the statewide voter registration system per HAR 3-177-652.

Voted ballot envelopes that pass signature verification are subsequently forwarded to the State Counting Center, and voted ballot envelopes that are rejected during the signature verification process are separated to cure the deficiency per HRS § 11-106 and are not forwarded to the State Counting Center unless cured.

The records do not show that any number of voted ballot envelopes were separated for curing and not forwarded to the state counting center from the county.

The transfer of voted ballot envelopes from the Kauai Elections Division to the State Counting Center were recorded on the "Elections Division - Office of the County Clerk - County of Kauai, 2024 General Election Envelope Transfer Form" (EXHIBIT (D) and which is the record of the quantity of voted ballot envelopes and duplicate voted ballot envelopes, separated by district precinct, and then shown as the total number of voted ballot envelopes transferred from the county elections division to the State Counting Center. This form also records the date, time, number of trays transferred, along with the initials of the county clerk for transfer and the state clerk for receipt of the voted ballot envelopes.

A tabulation of the number of voted ballot envelopes that were transferred by the Kauai County Elections Division to the State Counting Center and recorded through this process is shown in Figure (2). The summary of this record shows that 26,954 voted ballot envelopes were subsequently transferred to the state following signature verification.

County of Kauai, Ballot Transfer Summary

Transfer Date	Quantity Transferred
10/26/2024	9,558
10/30/2024	3,600
11/2/2024	4,841
11/5/2024	2,552
11/5/2024	1,664
11/6/2024	2,769
11/6/2024	1,970
TOTAL	**26,954**

Figure (2) County of Kauai Ballot Transfer Summary

The "General Election 2024 – State of Hawaii – County of Kauai November 5, 2024 Summary Report Final" recorded the number of voted ballot envelopes for mail turnout as 27,075 voted ballot envelopes. This report is public record located at: https://elections.hawaii.gov/wp-content/results/cok.pdf EXHIBIT (E)

The documented usage for voted ballot envelopes collected through the drop box and postal service collection process was recorded as 23,303. See Figure (1).

Per HRS § 11-153(a), HAR § 3-177-750 and HAR § 3-177-769(b) "If there are more ballots than documented usage indicates, this shall be an overage[.]"

The difference between the number of voted ballot envelopes recorded by the state through mail in voting (27,075) minus the documented usage for the number of voted ballots collected from the drop boxes and postal service by the county (23,303) is a provable overage of 3,772 voted ballots.

Plaintiffs aver that the overage of 3,772 voted ballots did cause a difference in the election results for the county council race for the County of Kauai.

The overage of 3,772 voted ballots exceeds the reported margin between candidates for the top nine candidates and did affect the outcome of the election for the top seven candidates that were elected to the county council.

Per HRS § 11-155 The certification of election results "shall be based on a comparison and reconciliation of the following: (2) The audit of records and the resultant overage and underage report."

Plaintiffs aver that due to this overage, the determination of the council members which were elected for the County of Kauai during the 2024 General Election is indeterminate, and the county council race cannot be certified.

Plaintiffs aver that the county council race for the County of Kauai is a contested election.

REQUEST FOR RELIEF AND REMEDY

Plaintiffs aver that per HRS 174.5, "a correct result cannot be ascertained" for the county council election due to the provable overage, and that the judgment should invalidate the Kauai County Council race held during the 2024 General Election.

Plaintiffs aver that per HRS 174.5 "If the judgement should be that the general...election was invalid, a certified copy thereof shall be filed with the governor, and the governor shall duly call a new election to be held not later than one hundred twenty days after the judgement is filed."

AFFIRMATION

Plaintiffs reserve all rights, without prejudice.

☒ If the agency maintains the records in a form other than paper, please advise in which **format you would prefer to have the record**.

☒ Electronic ☐ Audio ☐ Other (please specify):_____

[X] Check this box if you are attaching a request for waiver of fees in the public interest (See waiver information on next page).

FEES FOR PROCESSING PUBLIC RECORD REQUESTS

You may be charged fees for the services that the agency must perform when processing your request for public records, including fees for making photocopies and other lawful fees. **The first $30 of fees charged for searching for a record, reviewing, and segregating will not be charged to you. Any amount over $30 will be charged to you.** Fees are as follows:

Search for a Record	$2.50 for 15 minutes
Review and Segregation of a Record	$5.00 for 15 minutes

Generally, no search, review, and segregation fees may be charged if you are making a request for personal records that are about you.

WAIVER OF FEES IN THE PUBLIC INTEREST

As an alternative to the $30 fee waiver (not in addition to), the agency may waive the first $60 of fees for searching for, reviewing and segregating records when the waiver would serve the public interest. If you wish to apply for a waiver of fees in the public interest, you must attach to this request a statement of facts, including your identity as the requester, to show how the waiver of fees would serve the public interest. The criteria for this waiver, found at section 2-71-32, Hawaii Administrative Rules, are

(1) The requested record pertains to the operations or activities of an agency;
(2) The record is not readily available in the public domain; and
(3) The requester has the primary intention and the actual ability to widely disseminate information from the government record to the public at large.

COSTS

The Agency may charge you any other lawful fees and the costs to copy and deliver your personal or public record request.

AGENCY RESPONSE TO YOUR REQUEST FOR ACCESS

The agency to which you addressed your request must respond within a set time period. The agency will normally respond to you within 10 business days from the date it receives your request; however, in ***extenuating circumstances,*** the agency must respond within 20 business days from the date of your request. If you have questions about the response time or the records being sought, you should first contact the agency and request to consult with the agency's UIPA contact person.

Please note that the Office of Information Practices (OIP) does not maintain the records of other agencies and a requester must seek records directly from the agency. If the agency denies or fails to respond to your written request for records or if you have other questions regarding compliance with the UIPA, then you may contact OIP at 808-586-1400, oip@hawaii.gov, or 250 South Hotel Street, Suite 107, Honolulu, Hawaii 96813.

REQUESTER'S RESPONSIBILITIES

You have certain responsibilities under section 2-71-16, Hawaii Administrative Rules, which include making arrangements to inspect and copy records, providing further clarification or description of the requested record as instructed by the agency's notice, and making a prepayment of fees and costs, if assessed. The rules and additional training materials are available online at **oip.hawaii.gov** or from OIP.

DEFENDANT JADE FOUNTAIN-TANIGAWA'S MOTION TO DISMISS PLAINTIFF'S ELECTION COMPLAINT FILED NOVEMBER 25, 2024, ALTERNATIVELY, DEFENDANT JADE FOUNTAIN-TANIGAWA'S MOTION FOR SUMMARY JUDGMENT

Defendant JADE FOUNTAIN-TANIGAWA ("Defendant Tanigawa"), by and through her undersigned attorneys, hereby respectfully moves the Court for an order dismissing with prejudice the Election Complaint filed herein by Plaintiff RALPH CUSHNIE ("Plaintiff") and Thirty Voters on November 25, 2024. Alternatively, should this Court determine that matters outside the pleadings are presented, Defendant respectfully requests this motion be treated as one for summary judgment.

This Motion is brought pursuant to Rules 12(b)(6) and 56 of the Hawai'i Rules of Civil Procedure, the attached Memorandum in Support of Motion, the Declaration of Lyndon M. Yoshioka, and Exhibits A – C, all of which are attached hereto and incorporated herein.

DATED: Līhu'e, Kaua'i, Hawai'i, December 4, 2024.

Ralph Cushnie *pro se*, along with more than Thirty Voters, Plaintiffs, vs. Scott T. Nago, in his official capacity as Chief Elections Officer for the Office of Elections, State of Hawaiʻi; Ms. Jade Fountain-Tanigawa, County Clerk for the County of Kauaʻi, Defendants.	)	ORIGINAL PROCEEDING MEMORANDUM IN SUPPORT OF MOTION

MEMORANDUM IN SUPPORT OF MOTION

I. INTRODUCTORY STATEMENT

Plaintiffs' attack on the validity of the November 5, 2024 County Council Election is based on an inaccurate calculation of the voting overage. Plaintiffs allege that there was an overage of 3,772 of voted ballots and that the overage of "voted ballots exceeds the reported margin between candidates for the top nine candidates and did affect the outcome of the election for the top seven candidates that were elected to the county council." Plaintiffs go on to conclude that "the determination of the council members which were elected for the County of Kauaʻi during the 2024 General Election is indeterminate and the county council race cannot be certified." Plaintiffs seek a judicial declaration invalidating "the Kauaʻi County Council race held during the 2024 General Election" and request that a new election be held.

Defendant Tanigawa affirmatively asserts that the vote overage was only 32 and not the incorrectly alleged 3,772. For this reason, Defendant Tanigawa moves the Court for dismissal of

Plaintiffs' Complaint with prejudice, or in the alternative, summary judgment in her favor.

II. STATEMENT OF FACTS

The County started receiving mailed ballot envelopes on October 18, 2024. When the final votes were tallied after the polls closed it was determined that there was an overage of 32 votes. Declaration of Lyndon M. Yoshioka ("Yoshioka Dec.") ¶ 7. In the Kaua'i County Council Election the margin of victory between the seventh-place finisher, Fern Anuenue Holand, and the eighth-placed finisher, Ross Kagawa, was 108 votes. Yoshioka Dec. ¶ 8.

III. LEGAL STANDARDS

A. Election Contests Under Sections 11-172 and 11-174.5(b) of the Hawai'i Revised Statutes

Hawai'i Revised Statute ("HRS") § 11-172 provides, in pertinent part, that:

> With respect to any election, any candidate, or qualified political party directly interested, or any thirty voters of any election district, may file a complaint in the supreme court. The complaint shall set forth any cause or causes, such as but not limited to, provable fraud, overages, or underages, that could cause a difference in the election results. The complaint shall also set forth any reasons for reversing, correcting, or changing the decisions of the voter service center officials of the officials at a counting center in an election using the electronic voting system.

HRS § 11-174.5(b) states that:

> In cases involving general, special general, special or runoff elections the complaint shall be heard by the supreme court in which the complaint was filled as soon as it reasonably may be heard. On the return day, the court, upon its motion or otherwise, may direct summons to be issued to any person who may be interested in the result of the proceedings.
>
> At the hearing, the court shall cause the evidence to be reduced to writing and shall give judgment, stating all findings of fact and of law. The judgment may invalidate the general, special general, special or runoff election on the grounds that a correct result cannot be ascertained because of a mistake or fraud on the part of the voter service center officials, or decide that a certain candidate, or certain candidates, received a majority or plurality of votes and were elected. If the judgment should be that the general, special general, special, or runoff election is invalid, a certified copy thereof shall

> be filed with the governor, and the governor shall duly call a new election to be held no later than one hundred twenty days after the judgment is filed. If the court shall decide which candidate or candidates have been elected, a copy of that judgment shall be served on the chief election officer or county clerk, who shall sign and deliver to the candidate or candidates certificates of election, and the same shall be conclusive of the right of the candidate or candidates to the offices.

B. Motion to Dismiss Under HRCP Rule 12(b)(6)

A complaint may be dismissed for failure to state a claim under HRCP Rule 12(b)(6) "if the claim is 'clearly without merit' which may consist of "an absence of law to support a claim [or] facts sufficient to make a good claim." *Rosa v. CWJ Contractors*, 4 Haw. App. 210. 215, 664 P.2d 745, 749 (1983). In considering a Rule 12(b)(6) motion to dismiss a court must "deem the allegations contained in the complaint as true." *Au v. Au*, 63 Haw. 210, 214, 626 P.2d 173, 177 (1981). Nonetheless, the court is not required to accept conclusory allegations on the legal effect of the events alleged. *Marsland v. Pang*, 5 Haw. App. 463, 474, 701 P.2d 175, 185 (1985). "To survive a motion for dismissal, the '[f]actual allegations must be enough to raise a right to relief above the speculative level.'" *Bank of America, N.A. v. Reyes-Toledo*, 143 Haw. 249, 261, 428 P.3d 761, 773 (2018) (quoting *Bell Atlantic Corp. v. Twombly*, 550 U.S. 544, 555, 127 S.Ct. 1955, 1965 (2007). When "matters outside the pleading are presented and not excluded by the court, the motion shall be treated as one for summary judgment and disposed of as provided in" HRCP Rule 56. *Goran Pleho, LLC v. Lacy*, 144 Haw. 224, 237, 439 P.3d 176, 189 (2019)

C. Motion for Summary Judgment Under HRCP Rule 56

Under Rule 56(c) of the Hawai'i Rules of Civil Procedure, summary judgment is proper if "the pleadings, depositions, answers to interrogatories, admissions on file, together with the affidavits … show that there is no genuine issue as to any material fact and that the moving party is entitled to judgment as a matter of law." The mere existence of disputed facts is insufficient to

defeat a motion for summary judgment. The disputed facts must be material. *Wilder v. Tanouye*, 7 Haw.App. 247, 254, 753 P.2d 816 (1988). The party moving for summary judgment need not negate his opponent's claims but need only point out that there is an absence of evidence to support them. *First Hawaiian Bank v. Weeks*, 70 Haw. 392, 397, 772 P.2d 1187, 1190 (1989).

Once the moving party satisfies its initial burden of proof, the burden shifts to the non-moving party to respond by demonstrating specific facts, not general allegations, that a genuine issue worthy of trial exists. *GECC Financial Corp. v. Jaffarian*, 79 Haw. 516, 521 (Haw. Ct. App. 1995), aff'd., 80 Haw. 118(1995). "Bare allegations or factually unsupported conclusions are insufficient to raise genuine issues of material fact, and therefore, insufficient to reverse a grant of summary judgment." *Housing Finance and Development Corp. v. Castle*, 79 Haw. 64, 91, 898 P.2d 576, 603 (1995), citing *Reed v. City and County of Honolulu*, 76 Haw. 219, 225, 873 P.2d 98, 104 (1994).

Where the moving party is the defendant, who does not bear the ultimate burden of proof at trial, summary judgment is proper when the non-moving party-plaintiff fails to make a showing sufficient to establish the existence of an element essential to that party's case, and on which that party will bear the burden of proof at trial. In such a situation, there can be no genuine issue as to any material fact, since a complete failure of proof concerning an essential element of the nonmoving party's case necessarily renders all other facts immaterial. *Hall v. State*, 7 Haw.App. 274, 284, 756 P.2d 1048, 1055 (1988).

IV. ARGUMENT

Here, the voting overage was a mere 32 votes which cannot cause a difference in the election results. Thus, the correct result of the election was ascertained and Plaintiff's Complaint contesting the election should be dismissed.

V. CONCLUSION

By virtue of the foregoing, Defendant Tanigawa respectfully requests the Court to dismiss Plaintiffs' Complaint with prejudice. In the alternative, should this Court determine that matters outside of the pleadings are presented and not excluded by this Court, Defendant Tanigawa respectfully requests that this motion be treated as one for summary judgment and that summary judgment be entered in her favor.

Ralph Cushnie *pro se*, along with more than Thirty Voters, Plaintiffs vs. Scott T. Nago, in his official capacity as Chief Elections Officer for the Office of Elections, State of Hawaiʻi; Ms. Jade Fountain-Tanigawa, County Clerk for the County of Kauaʻi, Defendants.	ORIGINAL PROCEEDING DECLARATION OF LYNDON M. YOSHIOKA

DECLARATION OF LYNDON M. YOSHIOKA

I, LYNDON M. YOSHIOKA, hereby declare under penalty of law that the foregoing is true and correct:

1. I am the Deputy County Clerk for the County of Kauaʻi ("Deputy Clerk") and have personal knowledge of the following facts. If called and sworn as a witness, I could and would testify competently to them. I have held this position with the County of Kauaʻi since November 1, 2022.

2. As the Deputy Clerk, the County Clerk delegated to me the oversight of all staff assigned to the Elections Division of the Office of the County Clerk who are directly responsible for conducting elections in the County of Kauaʻi.

3. Overages and underages pursuant to HRS § 11-153 are calculated using the quantity of voters submitting a valid mail ballot as reported in the voter registration system, which is the system of record, and the quantity of ballots counted and reported in official election results.

4. A form printed on 2-part non-carbonless paper (white original/yellow copy) was used to record the quantity of ballot envelopes collected from drop boxes around Kaua‘i. A separate form, using the same type of non-carbonless paper was used to record the quantity of ballot envelopes hand-delivered by voters to the office and voter service center and received via the U.S. Postal Service ("USPS"). A new form was completed each collection day. A summary spreadsheet was created to capture information from individual forms and to calculate the total quantity of ballot envelopes collected from all sources. A disclaimer on the bottom section of each form and on the spreadsheet noted that the figures on the spreadsheet represented a manual count of envelopes – not the number of ballots counted, and was developed to approximate the quantity of ballot envelopes collected and the quantity still outstanding and was meant to aide with projecting staffing needs and scheduling of staff overtime, with the understanding that the envelope counts would not equal the quantity of ballots counted and reported in official election results. The forms capturing ballot envelope counts are not used to calculate overages and underages pursuant to HRS § 11-153. True and accurate copies of forms containing envelope collection counts for the 2024 General Election are hereto attached as Exhibit A.

5. Plaintiff's spreadsheet is incomplete. Specifically, Plaintiff is missing the form for ballot envelopes collected from drop boxes island-wide on October 22, 2024. Additionally, Plaintiff's form depicting ballot envelopes received at the office and voter service center and the USPS is missing the quantity of ballot envelopes received via the USPS. We believe that the USPS ballot envelope count was inadvertently omitted when the form was initially completed and was eventually recorded on only the yellow copy of the form and not on the white original copy of the form, which was used to create the photocopies provided to the Plaintiff.

6. When a deficient ballot envelope is received by the Elections Division, a paper

file is created of each deficient envelope. The file includes a photocopy of the deficient envelope, a photocopy of the corresponding voter's election document containing a signature, and a photocopy of the follow-up letter sent to notify the voter of the deficient envelope and a description of the process for curing the deficiency so the ballot can be counted.

7. The State Office of Elections calculated the official overage and underage report ("Over/Under Report") for the 2024 General Election utilizing the quantity of voters submitting a valid mail ballot as reported in the voter registration system, which is the system of record, and the quantity of ballots counted and reported in official election results. A true and accurate copy of the Over/Under Report, which reports an overall overage of 32 is attached hereto as Exhibit B.

8. The seventh-place finisher in the Kaua'i Council election was Fern Anuenue Holland with 12,041 votes. The eighth-place finisher was Ross Kagawa who received 11,933 votes, a difference of 108 votes and far exceeding the overall overage of 32. A true and accurate copy of election results for the County of Kaua'i for the 2024 General Election is hereto attached as Exhibit C.

DATED: Līhu'e, Kaua'i, Hawai'i, December 4, 2024.

DEFENDANT NAGO'S MOTION TO DISMISS OR, IN THE ALTERNATIVE, FOR SUMMARY JUDGMENT

Defendant SCOTT T. NAGO, in his official capacity as Chief Election Officer of the State of Hawai'i (hereinafter referred to as "Defendant Nago") by and through his attorneys ANNE E. LOPEZ, Attorney General of Hawai'i, and Deputy Attorneys General RANDALL S. NISHIYAMA and REESE R. NAKAMURA, hereby respectfully move this Honorable Court for an order dismissing with prejudice the Election Complaint filed herein by Plaintiffs on November 25, 2024. Alternatively, should this Honorable Court find that matters outside the pleadings are presented to and not excluded by this Court, Defendant Nago respectfully requests this motion be treated as one for summary judgment and disposed of as provided by Rule 56(a) of the Hawai'i Rules of Civil Procedure.

This Motion is brought pursuant to Rule 27 of the Hawai'i Rules of Appellate Procedure and Rules 12(b)(1), 12(b)(6), 56(a), and 81(b)(10) of the Hawai'i Rules of Civil Procedure, and is based on the Memorandum in Support of Motion, Declaration of Scott T. Nago, and exhibits, all of which are attached hereto and are incorporated by reference herein.

DATED: Honolulu, Hawai'i, December 5, 2024.

United States Code

52 USC § 20701 7

No. SCEC-24-0000797

IN THE SUPREME COURT OF THE STATE OF HAWAI‘I

Ralph S. Cushnie *pro se*, along with more than Thirty Voters, *Plaintiffs,* vs. Scott T. Nago, in his official capacity as Chief Elections Officer for the Office of Elections, State of Hawaii; Ms Jade Fountain-Tanigawa, County Clerk for the County of Kauai *Defendants*	ORIGINAL PROCEEDING

MEMORANDUM IN SUPPORT OF MOTION

I. BACKGROUND

Plaintiffs' Election Complaint only clearly identifies Plaintiff Ralph Cushnie ("Plaintiff Cushnie") as a plaintiff, while making reference to "more than thirty registered voters from the County of Kauai" and attaching a document with the printed names, telephone numbers, and signatures of ostensibly at least thirty voters, without reference to their addresses, stating they were "filing this election complaint . . . as per the accompanying filing." Dkt. 1:1, 10-13 (Attachment 1 to Complaint).

In essence, "Plaintiffs aver that an overage did occur in the County of Kauai during the 2024 General Election and that the overage did cause a difference in the election results." Dkt. 1:2. Plaintiffs' contention is based on their interpretation of documents generated by the County of Kauai in comparison with the official election results. Dkt. 1:5-8. They essentially contend there was an overage of 3,772 ballots. Dkt. 1:8. Additionally, it is contended by Plaintiffs that this alleged overage of 3,772 ballots "exceeds the reported margin between candidates for the top

nine candidates and did affect the outcome of the election for the top seven candidates that were elected to the county council." Dkt. 1:9.

In contrast, Defendant Nago contends that the overage/underage calculation required by HRS § 11-153 was conducted for each precinct in the County of Kauai and that the overage and underage in each precinct was in single digits. Declaration of Nago ("Nago Dec.") at ¶ 13. Specifically, the overall overage for precincts with overages was 36 for the County of Kauai, while the overall underage for precincts with underages was 4. Nago Dec. at ¶ 13. This was significantly less than the difference between the seventh and eighth place candidates of 108 votes for the county council contest and could not have affected the outcome of the contest. Nago Dec. at ¶¶ 15-18.

II. LEGAL STANDARDS

A. ELECTION CONTESTS UNDER HRS §§ 11-172 AND 11-174.5

Election contests are governed by HRS § 11-172 governs election contests which provides:

> With respect to any election, any candidate, or qualified political party directly interested, or any thirty voters of any election district, may file a complaint in the supreme court. The complaint shall set forth any cause or causes, such as but not limited to, provable fraud, overages, or underages, that could cause a difference in the election results. The complaint shall also set forth any reasons for reversing, correcting, or changing the decisions of the voter service center officials or the officials at a counting center in an election using the electronic voting system. A copy of the complaint shall be delivered to the chief election officer or the clerk in the case of county elections.

HRS § 11-172 (Emphasis added).

The legal standard for election contests concerning a general election can be found in HRS § 11-174.5:

> (a) In general, special general, special, or runoff elections, the complaint shall be filed in the office of the clerk of the supreme court not later than 4:30 p.m. on the

> twentieth day following the general, special general, special, or runoff election and shall be accompanied by a deposit for costs of court as established by rules of the supreme court. The clerk shall issue to the defendants named in the complaint a summons to appear before the supreme court not later than 4:30 p.m. on the tenth day after service thereof.
>
> (b) In cases involving general, special general, special, or runoff elections the complaint shall be heard by the supreme court in which the complaint was filed as soon as it reasonably may be heard. On the return day, the court, upon its motion or otherwise, may direct summons to be issued to any person who may be interested in the result of the proceedings.
>
> At the hearing, the court shall cause the evidence to be reduced to writing and shall give judgment, stating all findings of fact and of law. The judgment may invalidate the general, special general, special, or runoff election on the grounds that a correct result cannot be ascertained because of a mistake or fraud on the part of the voter service center officials; or decide that a certain candidate, or certain candidates, received a majority or plurality of votes cast and were elected. If the judgment should be that the general, special general, special, or runoff election was invalid, a certified copy thereof shall be filed with the governor, and the governor shall duly call a new election to be held not later than one hundred twenty days after the judgment is filed. If the court shall decide which candidate or candidates have been elected, a copy of that judgment shall be served on the chief election officer or county clerk, who shall sign and deliver to the candidate or candidates certificates of election, and the same shall be conclusive of the right of the candidate or candidates to the offices.

HRS § 11-174.5 (emphases added).

B. HRCP RULE 12(b)(1)

A court's review of a Rule 12(b)(1) motion to dismiss is based on the contents of the complaint, the allegations of which are accepted as true and construed in the light most favorable to the plaintiff. *Casumpang v. ILWU, Local 142*, 94 Hawai'i 330, 337, 13 P.3d 1235, 1242 (2000) (quoting *Norris v. Hawaiian Airlines*, 74 Haw. 235, 239-40, 842 P.2d 634, 637 (1992)). Dismissal is proper where it appears beyond doubt that the plaintiff can prove no set of facts in support of his claim which would entitle him to relief. *Id.* The court is not restricted to the face of the pleadings, but may review any evidence, such as affidavits and testimony, to resolve factual disputes concerning the existence of subject matter jurisdiction. *Id.*

C. HRCP RULE 12(b)(6)

Upon review of a Rule 12(b)(6) motion to dismiss a complaint for failure to state a claim upon which relief can be granted,

> the court must accept plaintiff's allegations as true and view them in the light most favorable to the plaintiff; dismissal is proper only if it appears beyond doubt that the plaintiff can prove no set of facts in support of his or her claim that would entitle him or her to relief.

Tataii v. Cronin, 119 Hawai'i 337, 340, 198 P.3d 124, 127 (2008). The court, however, is not required to accept conclusory allegations on the legal effect of the events alleged. *Civil Beat Law Center for the Public Interest, Inc. v. City and County of Honolulu*, 144 Hawai'i 466, 474, 445 P.3d 47, 55 (2019).

Moreover, "[w]hen matters outside the pleadings are presented in connection with an HRCP 12(b)(6) motion to dismiss, the trial court has discretion to either exclude the material or to convert the motion to dismiss into a motion for summary judgment." *Andrade v. Cnty. of Hawai'i*, 145 Hawai'i 265, 268 n.3, 451 P.3d 1, 4 n.3 (App. 2019) (citing *Bellavia Blatt & Crossett, P.C. v. Kel & Partners LLC*, 151 F.Supp.3d 287, 291 (E.D.N.Y. 2015)).

D. HRCP RULE 56

In a motion for summary judgment, "the evidence must generally be viewed in the light most favorable to the nonmoving party." *Coon v. City & County of Honolulu*, 98 Hawaii 233, 244, 47 P.3d 348, 359 (2002). However, the nonmoving party "must show more than some metaphysical doubt as to the material facts," and "the mere existence of a scintilla of evidence in support of his or her position is insufficient to survive summary judgment." *Yoneda v. Tom*, 110 Hawaii 367, 384-385, 133 P.3d 796, 813-814 (2006) (internal citations omitted). Furthermore, a dispute as to an immaterial fact does not bar a grant of summary judgment. *Globalmart, Inc. v. Posec Hawaii, Inc.*, 127 Hawaii 412, 279 P.3d 77 (Ct. App. 2012).

III. ARGUMENT

A. LACK OF SUFFICIENT PLAINTIFFS TO HAVE STANDING TO FILE AN ELECTION CONTEST

Standing is a prudential concern regarding whether the party seeking a forum has alleged a sufficient personal stake in the outcome of a controversy as to justify the exercise of the court's remedial powers on the party's behalf. *Tax Foundation of Hawai'i v. State of Hawaii*, 144 Hawai'i 175, 188, 439 P.3d 127, 140 (2019). Standing requirements may be tempered, or even prescribed, by legislative declarations of policy. *Id.*

HRS § 11-172 states:

> With respect to any election, **any candidate, or qualified political party directly interested, or any thirty voters of any election district**, may file a complaint in the supreme court. The complaint shall set forth any cause or causes, such as but not limited to, provable fraud, overages, or underages, that could cause a difference in the election results. The complaint shall also set forth any reasons for reversing, correcting, or changing the decisions of the precinct officials or the officials at the counting center in an election using the electronic voting system. A copy of the complaint shall be delivered to the chief election officer, or the clerk in the case of county elections.

Emphasis added.

Plaintiff Cushnie does not allege he is a candidate or a qualified political party. Instead, he contends he is one of at least thirty voters of an election district and attaches a document with the printed names, telephone numbers, and signatures of ostensibly at least thirty voters, without reference to their addresses, stating they were "filing this election complaint . . . as per the accompanying filing." Dkt. 1:1, 10-13 (Attachment (1)). It should be noted that Plaintiff Cushnie subsequently filed his "Motion for Interrogatories Pursuant to HRCP Rule 33" on December 4, 2024, that appears to simply use the same signature pages for these additional purported plaintiffs. Dkt. 15:4-7 (Attachment (1)).

Recently, in *Cordery v. Ige*, No. SCEC-22-0000734 (Feb. 22, 2023), the Court addressed whether a non-attorney plaintiff could seek to join other individuals as plaintiffs after the original complaint had been filed. Part of the discussion pointed out the applicability of "HRCP Rule 11(a) (requiring a pro se party to sign a pleading and to include the pro se party's 'address and telephone number, if any')" to a filing. *Id.* at 3.

In the present case, only Plaintiff Cushnie is listed in the caption of the Complaint, as opposed to the names of the other alleged plaintiffs. Dkt. 1:1. Additionally, the cover page of the Complaint only has Plaintiff Cushnie's mailing address, telephone number, and email address, ostensibly for contact purposes regarding the case. Dkt. 1:1. The Complaint from pages 1 to 9 does not include the names of the other plaintiffs. Dkt. 1:1-9. Instead, page 9 says "Signatures of more than Thirty Voters (See ATTACHMENT (1))" and includes said attachment. Dkt. 1:9-13. The attachment is not dated and, as previously noted, contains the printed names, telephone numbers, and signatures of ostensibly at least thirty voters, without reference to their addresses, stating they were "filing this election complaint . . . as per the accompanying filing." Dkt. 1:1, 10-13 (Attachment (1)). The recent filing by Plaintiff, on December 4, 2024, has similar issues in regard to the manner in which these other purported plaintiffs are indicated to be involved in this litigation. Dkt. 15.

The end result is that there does not appear to be a practical way to serve these individuals in accordance with Rule 5 of the Hawaii Rules of Civil Procedure, if they are considered to be proper plaintiffs, and one must instead operate through Plaintiff Cushnie.

In conclusion, if only Plaintiff Cushnie is recognized as a plaintiff, then the jurisdictional requirements of HRS § 11-172 have not been satisfied and this case should be dismissed.

B. PLAINTIFFS FAILED TO DEMONSTRATE OVERAGES OR UNDERAGES THAT COULD CAUSE A DIFFERENCE IN THE ELECTION RESULTS

1. OVER/UNDER REPORT

As detailed in the Declaration of Scott T. Nago, the overage/underage calculation required by HRS § 11-153 was conducted for each precinct in the County of Kauai and the overage and underage in each precinct was in single digits. Nago Dec. at ¶ 13. The end result was that the overall overage for precincts with overages was 36 for the County of Kauai, while the overall underage for precincts with underages was 4. Nago Dec. at ¶ 13. As previously noted, this was significantly less than the difference between the seventh and eighth place candidate of 108 votes for the county council contest and could not have affected the outcome of the contest. Nago Dec. at ¶¶ 15-18.

Defendant Nago provides context in his declaration for understanding the authentication, accounting, and securing of ballots by summarizing the key parts of an eighty-four page report that entitled *Report on Election Security: The Authentication, Accounting, and Securing of Ballots*, dated February 16, 2024. Nago Dec. at ¶¶ 19-26. The key aspects of this process center on the statewide voter registration system that is supported by the actual ballots and return identification envelopes that are sealed and retained in accordance with federal law.

> With the above in mind, the statewide voter registration system is the form that all the county clerks interact with for inventory control purposes (i.e. the issuance of ballots, along with their return and validation, is recorded and tracked in the system). The reports of the statewide voter registration system are supported through the actual ballots and return identification envelopes that have been sealed and will be retained for a period of twenty-two months, consistent with federal and state law. 52 USC § 20701, HRS § 11-154, and HAR §3-177-757. This statewide voter registration information, along with the counting center documentation of the invalidation of ballots and the official election results, is used to prepare the *Over/Under Report*.

Nago Dec. at ¶ 26.

The declaration continues on by explaining how the *Over/Under Report* reflecting the overages and underages across the state "as previously noted in paragraph 7, is the result of the statewide voter registration system tracking the receipt of validated mail ballots by the county clerks, adjusted by the number of invalidated ballots tracked at the state counting centers by counting center personnel, along with the tracking by the statewide voter registration system of ballots issued for in-person voting at voter service centers, being compared to the official election results." Nago Dec. at ¶ 27. This was elaborated on in the declaration, including explaining what each column of the Over/Under Report reflected and how it was determined. Nago Dec. at ¶ 28-37.

It finally concludes with the statement that "[a]s noted in paragraphs 7-17, the *Over/Under Report* described in paragraphs 27-37 and the election results for the 2024 General Election reflect that the overages and the underages associated with the precincts in the County of Kauai could not have affected the outcome of the election. *See* HRS § 11-153(c).

2. PLAINTIFF CUSHNIE'S DOCUMENTS

In contrast to the process explained above that focuses on the statewide voter registration system and the source documents, Plaintiff Cushnie appears to argue that the determination of overages and underages rests tenuously on the documents he references. Specifically, he cites to some internal documents that he contends he received from the County of Kauai. He does not confirm if the documents are complete or if there are any human errors associated with them. The documents themselves have disclaimer language from the County of Kauai.

For example, the drop box documents have the following disclaimer:

> Disclaimer
>
> Figures on this form represent a manual count of envelopes – not the number of ballots counted. The manual counts were made for internal purposes to track

election progress with the understanding that it would not match official election results.

Dkt. 1:18-32 (Exhibit B – Drop Box).

Similarly, the documents associated with the elections division, voter service center, and United States Postal Service had the same language.

Disclaimer

> Figures on this form represent a manual count of envelopes – not the number of ballots counted. The manual counts were made for internal purposes to track election progress with the understanding that it would not match official election results.

Dkt. 1:33-48 (Exhibit C – Elections Division/Voter Service Center/USPS).

In looking at these documents, one sees that there appears to be an omitted document, something is illegible, or perhaps human error in regard to the United States Postal Service receipt of return identification ballots for October 22, 2024 (Tuesday) has occurred. Dkt. 1:36 (Exhibit C – Page Referencing October 22, 2024).[1] Likewise, there does not appear to be a document presented for drop box locations on October 22, 2024 (Tuesday), even though there are documents for October 21, 2024, and October 23, 2024. Dkt. 1:19-20.[2] Additionally, there does not appear to be a document reflecting ballots that were transferred on November 13, 2024,

[1] On December 4, 2024, Defendant Fountain-Tanigawa filed her motion to dismiss that included the declaration of her deputy county clerk and supporting exhibits. Dkt. 17-22. The declaration of Deputy County Clerk Lyndon M. Yoshioka appears to substantiate that there was an issue with the documents. Specifically, as he notes, in part, in paragraph 5 of his declaration: "We believe that the USPS envelope count was inadvertently omitted when the form was initially completed and was eventually recorded on only the yellow copy of the form and not on the white original copy of the form, which was used to create the photocopies provided to the Plaintiff." Dkt. 19:2 (Page 2 of Declaration of Lyndon M. Yoshioka).

[2]This appears again to be substantiated by the declaration of Deputy County Clerk Lyndon M. Yoshioka, who states, in part, in paragraph 5: "Specifically, Plaintiff is missing the form for ballot envelopes collected from drop boxes island-wide on October 22, 2024." Dkt. 19:2 (Page 2 of Declaration of Lyndon M. Yoshioka).

the last day on which ballots could be validated by the county clerk as provided for in HRS §§ 11-106 and 11-108.

Plaintiffs appear to have added the documents they had together to reach 23,303 and compared it to the mail turnout of 27,075 in the election results issued on November 13, 2024, to draw their conclusions about a significant overage in terms of ballots counted as opposed to ballots received by the county. Dkt. 1:8. However, Plaintiffs appear to discount that these documents had disclaimer language and at most indicate that return identification envelopes were received on certain days, but not necessarily the exact number involved. Additionally, they fail to acknowledge the possibility that their documents were incomplete, such as the lack of ballots from the United States Postal Service on October 22, 2024, or the lack of drop box ballots on October 22, 2024.

Further, they do not appear to acknowledge the significance of the other county created documents relating to the transfer of return identification envelopes to the counting center that reflect according to Plaintiffs 26,954 return identification envelopes were transferred to the counting center between October 26, 2024, and November 6, 2024. Dkt. 1:8 and 49-56 (Exhibit (D) to Complaint).

Specifically, the countywide report for the County of Kauai entitled "GENERAL ELECTION 2024 – State of Hawaii – County of Kaua‘i, November 5, 2024, SUMMARY REPORT, Report 4" that was printed on November 6, 2024, at 12:19:34 p.m. and published that day on the Office of Elections' website reflected a mail turnout of 26,993, and the difference between 26,993 and 26,954, the amount of ballots Plaintiffs apparently contend were transferred to the counting center, is 39. Dkt. 1:8; Nago Dec. at ¶ 39 and Exhibit 4 to Nago Dec.

Plaintiffs omit any discussion of the transfer of ballots after November 6, 2024. However, the final day of counting was November 13, 2024, as ballots could be validated up to five business days after the election. As explained by Defendant Nago,

> As part of their standard operating procedure, Official Observers and counting center personnel from the counting center take possession of the return identification envelopes at the county building and take them back to the counting center for counting over the course of the election processing period that started on October 26, 2024, and ended on November 13, 2024. As such, on the final day of counting, November 13, 2024, the Official Observers and counting center personnel took possession of the return identification ballots for that day and took them back to the counting center for counting. A total of 82 ballots were counted that day at the counting center.

Nago Dec. at ¶ 40.

These additional 82 ballots increased the transferred ballots to 27,036, if one were to use the internally created county documents, as opposed to the statewide voter registration system. The countywide report for the County of Kauai entitled "GENERAL ELECTION 2024 – State of Hawaii – County of Kaua'i, November 5, 2024, SUMMARY REPORT, Final" that was printed on November 13, 2024, at 5:22:48 p.m. and published that day on the Office of Elections' website reflected a mail turnout of 27,075, and the difference between 27,075 and 27,036 is 39 (i.e. an overage of 39 not broken down by precinct). Nago Dec. at ¶ 41 and Exhibit 5 to Nago Dec.

This overage of 39 described above is not significantly different than the official Over/Under Report issued by Defendant that indicates the overall overage for precincts with overages was 36 for the County of Kauai, while the overall underage for precincts with underages was 4. Nago Dec. at ¶ 13. An excerpt of the Over/Under Report, which breaks the information down to the precinct level and which includes in-person voting at voter service centers is provided below. For the convenience of the Court, we have added in a row showing the totals for each column.

D/P	Mail				In-Person			
	Adj. Mail Turnout	Prec. Report	Over (+)	Under (-)	Walk Turnout	Prec. Report	Over (+)	Under (-)
15-01	1,761	1,763	2	0	167	170	3	0
15-02	1,708	1,713	5	0	209	209	0	0

17-06	23	23	0	0	0	0	0	0
	27,050	**27,075**	**25**	**0**	**3,484**	**3,491**	**11**	**4**

Nago Dec. at ¶¶ 8-13 and Exhibit 1 to Nago Dec.

Having said that, using the internally created county documents in this manner is not a substitute for the statewide voter registration system and the process explained in the declaration of Defendant Nago that constitutes the process for determining overages and underages for purposes of HRS § 11-153. The manner in which these documents, some of which have disclaimers, are used by the county and their purpose likely impact their utility to the county after they factor in possible issues of their completeness, human error, or similar matters that might occur with their use or the use of any document. Ultimately, the county uses its own documents for its own internal purposes and they are not relied upon by Defendant Nago for purposes of his determination of overages and underages under HRS § 11-153. Nago Dec. at ¶ 7.

This overage of 39 described above is not significantly different than the official Over/Under Report issued by Defendant that indicates the overall overage for precincts with overages was 36 for the County of Kauai, while the overall underage for precincts with underages was 4. Nago Dec. at ¶ 13. An excerpt of the Over/Under Report, which breaks the information down to the precinct level and which includes in-person voting at voter service

centers is provided below. For the convenience of the Court, we have added in a row showing the totals for each column.[3]

IV. CONCLUSION

For the foregoing reasons, Defendant Nago respectfully requests that this Honorable Court dismiss this Complaint with prejudice. Alternatively, should this Honorable Court find that matters outside the pleadings are presented to and not excluded by this Court, Defendant Nago respectfully requests that this motion be treated as one for summary judgment and disposed of in accordance with Rule 56(a) of the HRCP.

DATED: Honolulu, Hawai‘i, December 5, 2024.

[3]A review of the declaration of Deputy County Clerk Lyndon M. Yoshioka appears to indicate in paragraphs 7 and 8 that he interprets the *Over/Under Report* as reflecting an overall overage of 32. This appears based on adding the overage of 25 for precincts associated with mail together with the overage of 11 associated with precincts for in-person voting, and then subtracting the underage of 4 associated with precincts for in-person voting to arrive at 32 (i.e. [25 + 11] – 4 = 32). The State's preference when referring to overages/underages is to generally refer directly to the Over/Under Report, which breaks things down to the precinct level and to categories of mail and in-person. In the alternative, the State indicates the overall overage for precincts with overages and then the overall underage for precincts with underages, which in the case of the County of Kauai would be 36 and 4, respectively.

No. SCEC-24-0000797

IN THE SUPREME COURT OF THE STATE OF HAWAI'I

Ralph S. Cushnie *pro se*, along with more than Thirty Voters, *Plaintiffs,* vs. Scott T. Nago, in his official capacity as Chief Elections Officer for the Office of Elections, State of Hawaii; Ms Jade Fountain-Tanigawa, County Clerk for the County of Kauai *Defendants*	ORIGINAL PROCEEDING

DECLARATION OF SCOTT T. NAGO

I, SCOTT T. NAGO, under penalty of law, do hereby declare as follows:

1. I have personal knowledge of the following facts and am competent to testify to them.

2. As the Chief Election Officer, I am responsible for administering and managing the Office of Elections, which provides election services to the citizens of the State of Hawaii including the planning, management, and conduct of elections.

3. I have been with the Office of Elections since 1998, and I have served in this capacity since January 1, 2010.

4. The 2024 General Election was an election by mail involving federal, state, and county offices, along with state and county ballot questions.

5. As provided for in HRS § 11-110(b)(1), responsibilities are divided between the State and the counties.

6. Specifically, the counties were "responsible for voter registration, absentee voting, voter service centers, places of deposit, and the mailing and receipt of ballots," while my office was "responsible for the printing and counting of ballots." HRS § 11-110(b)(1)(A) and (B).

7. Consistent with the counting of ballots and HRS § 11-153(c), I am responsible for "mak[ing] a list of all precincts in which an overage or underage occurred and the amount of the overage or underage" and having [t]his list . . . filed and kept as a public record in [my office]. An overage is when "there are more ballots than documented usage indicates," while an underage is when there are "fewer ballots." HRS § 11-153(a). Documented usage in terms of mail ballots for each precinct for my purposes refers to the results of the statewide voter registration system tracking of the receipt of validated ballots (e.g. return identification envelopes or materials associated with a ballot returned electronically) on precinct by precinct basis by the county clerks, adjusted by the number of invalidated ballots on a precinct by precinct basis tracked by counting center personnel at the state counting centers. Documented usage in terms of in-person voting at a voter service center for each precinct for my purposes refers to the result of the statewide voter registration system tracking of the issuance of said ballots on a precinct by precinct basis at the voter service centers where they are voted on the voting machines that are there. The documented usage is compared to the official election results on a precinct by precinct basis to the determine the overage or underage in each precinct categorized by mail ballot voting and in-person voting. Finally, [a]n election contest may be brought under part XI, if the overage or underage in any precinct could affect the outcome of an election." HRS § 11-153(c).

8. Attached hereto as Exhibit 1 is a true and correct copy the *Over/Under Report* for the 2024 General Election listing every precinct in the state and its overage or underage.

9. A precinct is a physical subdivision of a state representative district. For identification purposes of a precinct, we use a two-part naming convention. The first number is the state representative district followed by a hyphen, dash, or forward slash, and then the precinct number (e.g. D/P 15-01 refers to the first precinct within state representative district 15).

10. The County of Kauai for election purposes consists of state representative districts 15, 16, and 17. The corresponding precincts are D/Ps 15-01, 15-02, 15-03, 15-04, 15-05, 16-01, 16-02, 16-03, 16-04, 16-05, 17-01, 17-02, 17-03, 17-04, 17-05, and 17-06.

11. For ease of reference, below is a true and correct copy of the portion of Exhibit 1 concerning the County of Kauai.

D/P	Mail				In-Person			
	Adj. Mail Turnout	Prec. Report	Over (+)	Under (-)	Walk Turnout	Prec. Report	Over (+)	Under (-)
15-01	1,761	1,763	2	0	167	170	3	0

	27,050	**27,075**	**25**	**0**	**3,484**	**3,491**	**11**	**4**

13. The overage and underage in each precinct was in single digits. The overall overage for precincts with overages was 36 for the County of Kauai, while the overall underage for precincts with underages was 4.

14. Attached hereto as Exhibit 2 is a true and correct copy of the final election results for all of the contests and ballot questions across the state.

15. As indicated on page 3 of Exhibit 2, the contest for the County of Kauai Council had a difference between the seventh-place candidate (i.e. FERN ANUENUE HOLLAND, the final of the seven councilmembers) and the eighth-place candidate (i.e. ROSS KAGAWA) of 108 votes.

16. For ease of reference, below is a true and correct copy of the portion of page 3 of Exhibit 2 concerning the contest for the County of Kauai Council.

Councilmember, County of Kaua'i		
Number To Vote For: 7		
CARVALHO, Bernard P., Jr.	15,435	7.2%
RAPOZO, Mel	14,403	6.7%
KANESHIRO, Arryl J.	13,049	6.1%
BULOSAN, Addison	12,385	5.8%
COWDEN, Felicia	12,325	5.8%
KUALII, KipuKai	12,276	5.7%
HOLLAND, Fern Anuenue	12,041	5.6%
KAGAWA, Ross	11,933	5.6%
DECOSTA, Billy D.	9,977	4.7%
APILADO, Abe, Jr. (Aba-G)	5,964	2.8%
KEAHIOLALO, W. Butch	5,202	2.4%
CUMMINGS, Sherri	4,160	1.9%
NELSON, Jacquelyn (Jakki)	3,386	1.6%
THOMAS, Bart	3,296	1.5%
Blank Votes:	77,696	36.4%
Over Votes:	62	0.0%

17. In conclusion, the overages and the underages associated with the precincts in the County of Kauai could not affect the outcome of the election. *See* HRS § 11-153(c).

18. Having said that, the crux of the Complaint appears to be that there is allegedly an overage of 3,772 ballots and that this would at a minimum exceed the margin between the seventh place and eighth place candidate of 108 votes.

19. With that in mind, while Plaintiffs have the burden of proof in this case, this declaration will highlight how the *Over/Under Report* for the 2024 General Election is generated and how Plaintiffs conclusions as to their being an overage of 3,772 is flawed. In order to do this, I will first provide some context for understanding the authentication, accounting, and securing of ballots.

Report on Election Security: The Authentication, Accounting, and Securing of Ballots

20. Our office issued a report entitled *Report on Election Security: The Authentication, Accounting, and Securing of Ballots*, dated February 16, 2024, for purposes of an

Elections Commission meeting to be held on February 20, 2024. The report is part of the meeting packet materials for that meeting and continues to be posted on the portion of our website associated with Elections Commission meetings. https://elections.hawaii.gov/wp-content/uploads/EC-Meeting-Packet-02-20-24.pdf.

21. Attached hereto as Exhibit 3 is a true and correct copy of the *Report on Election Security: The Authentication, Accounting, and Securing of Ballots*, dated February 16, 2024.

22. The eighty-four page report had the following conclusion:

> In recent years, the issue of election integrity has been raised by some who allege what they see as "chain of custody" concerns. **Among the allegations are that fake ballots could be created and surreptitiously added to the existing ballots to be counted or that ballots could be removed before they are counted. This report demonstrates that any discussion regarding any alleged risks or opportunities for tampering with our elections first requires an understanding of how our elections operate and the procedures and safeguards that are in place.** For example, when someone seeks to review and challenge a single process in isolation, they might not appreciate that the election actually has to be viewed in totality and that a check may already have been applied or will be conducted later in the process to address the issue they are concerned about. The layered safeguards and intentional checks election officials implement as part of their election processes are meant to work together to prevent and identify issues.

Exhibit 3 at 84 (Emphasis added).

23. The initial overview for the report notes, in part, the following:

> **The security of the elections is based on the fact that the eligibility of voters is readily identifiable and non-fungible (i.e., unique and not interchangeable), and likewise, the authentication of the ballots, while not associated with a voter, is also readily identifiable and non-fungible. Then, layers of processes to secure the election are applied such that the conduct of the election must be viewed in its totality.** The materials for each election, such as the return identification envelope personalized to each voter and the ballot sent to the voter are each unique and not interchangeable. As a simple example, the return identification envelope received for a primary election cannot be accepted for the general election and similarly, the ballot received for the primary election cannot be counted for the subsequent general election**. Election officials rely on the readily identifiable and non-fungible nature of election materials to apply layered safeguards and intentional checks within the processes of 1) voter**

> **registration; 2) ballot mailing; 3) voted ballot return; and 4) counting voted ballots to authenticate, account for, and secure the election.** It is important to note that when we talk about the security of the elections, we are talking about how all the safeguards work together to provide secure elections. This report attempts to explain the security and safeguards and how they complement and work together.

Exhibit 3 at 1 (Emphasis added).

24. In other words, Plaintiffs unstated premise that the security of our elections tenuously rests on the documents he has submitted is misplaced.

25. To summarize, the report indicates, in part, the following:

> [(1)] [B]allots are non-fungible as each is printed with ballot unique ID in the form of a non-human readable barcode, and the vote counting system is programmed to only accept the ballot unique ID. The ballot unique ID is important for election security as it prevents and detects ballot stuffing as a ballot can only be counted once, and any duplicate ballots are rejected. In addition to tracking the votes, the vote counting system also captures the ballot image during counting which election officials can use to track and examine any issues with a ballot.

Exhibit 3 at 2.

> [(2)] [T]he return identification envelope [provided to each voter] is personalized with information from the statewide voter registration system including a unique identifier, the App-ID. [The App-ID is both human readable and in the form of a barcode on the return identification envelope.] We want to emphasize that the App-ID is the unique identifier associated with the return identification envelope only. The App-ID is not cross-referenced or associated with the ballot sent to the voter (i.e. no election official or vendor knows which ballot is associated with a particular return identification envelope or voter). [It should be noted that the backside of the return identification envelope containing the voter's name, address, and barcode with their App-ID faces the window of the ballot packet so as to allow it to be delivered to the voter]

Exhibit 3 at 5.

> [(3)] During voting, voters vote their ballot, conceal it in the secrecy sleeve, seal it in the return identification envelope, and sign the exterior of the return identification envelope. The sealed and signed return identification envelope is submitted to the Office of the County Clerk by mail or to a place of deposit. Instead of voting using the mailed ballot package, a voter could choose to visit a voter service center to vote in person and have their mail ballot package canceled.

Exhibit 3 at 2.

> [(4)] After taking custody of the return identification envelopes, the County Clerk's office checks each envelope into the statewide voter registration system by scanning the barcode on the envelope associated with the voter, generally using ballot sorting equipment. The ballot sorting equipment detects if the barcode has already been read or if the barcode has been canceled, thus preventing a return identification envelope from being accepted for counting. For example, a voter may have asked for a duplicate return identification envelope and then found the original one but mailed both back. The check in process by the County Clerk's office prevents the voter from submitting 2 return identification envelopes. Likewise, a voter who moves to a new district/precinct will have their registration updated in the statewide voter registration system and any return identification envelope associated with their former residence will be canceled and a new one will be generated that is associated with the new district/precinct. If the voter were to mail in the canceled return identification envelope the system would detect it and not allow it to be accepted for counting. We also want to emphasize that the voted ballot remains sealed in the return identification envelope and is opened at the counting center in the presence of official observers.

Exhibit 3 at 6.

> [(5)] Additionally, as part of the check in process, the signature on the return identification envelope is matched to the signature associated with the voter's registration record. If the signature does not match, the return identification envelope is not accepted for counting and the voter is contacted to permit them to cure the deficiency with their signature which in turn allows their return identification envelope to be accepted for counting. These return identification envelopes remain sealed and are maintained by the Offices of the County Clerks.

Exhibit 3 at 6;

> [(6)] The status of the mail ballot package and voted ballot is available to each voter using the App-ID on the return identification envelope. Voters can use the ballot tracking alert service, through elections.hawaii.gov, to check online or receive a notification by email, text, or telephone. Notifications include that the voter's mail ballot package has been created and that their return identification envelope has been received and accepted for counting. Instead of the ballot tracking alert service, voters may choose to contact their county elections office to check the status of their mail ballot package and voted return identification envelope.

Exhibit 3 at 5.

> [(7)] [V]alidated return identification envelopes are transferred to the state-operated counting center to be opened, processed, counted, and secured. The return identification envelopes are opened in a two-step process to maintain voters' secrecy. First, the secrecy sleeve concealing the voted ballot is removed from the return identification envelope. Emptied return identification envelopes are cleared from the work area before proceeding to remove the voted ballots from the secrecy sleeve and unfolding them for counting. Voted ballots are scanned by the vote counting system and securely stored. The vote counting system checks the ballot unique ID to authenticate each individual ballot and prevent duplicate counting.

Exhibit 3 at 2.

> [(8)] [The determination of overages and underages.] The mail turnout, or the number of voted ballots counted at the counting center, from the final results report is compared to the number of voters who returned their return identification envelope, by district/precinct. Likewise, the in-person turnout, or the number of voted ballots counted at the voter service centers, from the results report is compared to the number of voters who voted at a voter service center. This is reflected in the over/under reports . . . . Please note that they are also at times referred to as the reconciliation of voted ballots or voted ballot summary. Small differences may exist as the human element leads to human errors. A ballot may accidentally be left in the envelope or an invalid condition, such as an empty ballot secrecy sleeve may be misidentified during the processing of the return identification envelopes at the ballot opening work area.

Exhibit 3 at 8.

> [(9)] [In elaborating on this topic,] [t]he ballot opening team . . . tracks invalid ballot conditions which stop a ballot from being counted like the envelope or secrecy sleeve is returned without a ballot or the voter returned 2 voted ballots (e.g., 2 household members accidentally enclose both of their ballots in a single return identification envelope). Ballots invalidated at the counting center are not counted and are securely maintained by the Office of Elections. This accounting of invalid ballots is addressed on the over/under report as part of the adjusted mail total to note a discrepancy with the number of return identification envelopes the county received.

Exhibit 3 at 7-8.

26. With the above in mind, the statewide voter registration system is the form that all the county clerks interact with for inventory control purposes (i.e. the issuance of ballots, along

with their return and validation, is recorded and tracked in the system). The reports of the statewide voter registration system are supported through the actual ballots and return identification envelopes that have been sealed and will be retained for a period of twenty-two months, consistent with federal and state law. 52 USC § 20701, HRS § 11-154, and HAR §3-177-757. This statewide voter registration information, along with the counting center documentation of the invalidation of ballots and the official election results, is used to prepare the *Over/Under Report*.

Over/Under Report

27. The *Over/Under Report* for the 2024 General Election (Exhibit 1), as previously noted in paragraph 7, is the result of the statewide voter registration system tracking the receipt of validated mail ballots by the county clerks, adjusted by the number of invalidated ballots tracked at the state counting centers by counting center personnel, along with the tracking by the statewide voter registration system of ballots issued for in-person voting at voter service centers, being compared to the official election results.

28. Specifically, the statewide voter registration system indicated how many electronic ballots authorized by HRS §§ 11-107, 15-5, or 15D-9 for military, overseas, and special needs voters were sent and subsequently how many were treated as voted due to being received by the deadline by the county clerk and then validated. Likewise, the statewide voter registration system tracked how many voters voted in person at a voter service center (i.e. the voter is issued a ballot for inventory control purposes and ballot is received when the ballot is voted on the voting machine at the voter service center). Finally, the statewide voter registration system tracked how many mail ballots were sent out and how many were treated as voted due to being received by the deadline by the county clerk and then validated. This was supplemented

by the counting center documentation of the invalidation of ballots and the official election results.

29. Turning to the *Over/Under Report* (Exhibit 1), the first column is "D/P" and refers to the District/Precincts for which election results are issued.

30. The second column entitled *Adj. Mail Turnout* reflects the mail ballots that the statewide voter registration indicates have been received and validated and the electronic ballots that have been received and validated, the total of which is reduced by the number of ballots invalidated at the state counting centers (i.e. mail ballots + electronic ballots – invalidated ballots at counting center). I consider this to constitute documented usage.

31. The third column entitled *Prec. Report* reflects the precinct turn out for mail reflected in the 500-page *Statewide Precinct Report* that is posted to our website. https://elections.hawaii.gov/wp-content/results/precinct.pdf. Electronic ballots are treated as mail ballots for purposes of the *Statewide Precinct Report*.

32. The fourth column entitled *Over (+)* reflects the difference between the *Prec. Report* and *Adj. Mail Turnout* columns and constitutes the overage for each precinct for purposes of mail ballots, which includes electronic ballots, if the difference is positive. In other words, if there is a positive difference between the two, then it is considered to be an overage (i.e. more ballots counted than documented usage indicates). HRS § 11-153.

33. The fifth column entitled *Under (-)* reflects the difference between the *Prec. Report* and *Adj. Mail Turnout* columns and constitutes the underage for each precinct for purposes of mail ballots, which includes electronic ballots, if the difference is negative. In other words, if there is a negative difference between the two, then it is considered to be an underage (i.e. fewer ballots counted than documented usage indicates). *Id.*

34. The sixth column entitled *Walk Turnout* reflects the voter service center ballots that were issued (i.e. the number of the voters who appeared at the voter service center and were issued a ballot to vote).

35. The seventh column entitled *Prec. Report* reflects the precinct turnout for in-person voting at a voter service center reflected in the previously mentioned *Statewide Precinct Report*.

36. The eighth column entitled *Over (+)* reflects the difference between the *Prec. Report* and *Walk Turnout* columns and constitutes the overage for each precinct for purposes of in-person voting at voter service centers if the difference is positive. In other words, if there is a positive difference between the two, then it is considered to be an overage (i.e. more ballots counted than documented usage indicates). HRS § 11-153.

37. The ninth column entitled *Under (-)* reflects the difference between the *Prec. Report* and *Walk Turnout* columns and constitutes the underage for each precinct for purposes of in-person voting at voter service centers if the difference is negative. In other words, if there is a negative difference between the two, then it is considered to be an underage (i.e. fewer ballots counted than documented usage indicates). *Id.*

38. As noted in paragraphs 7-17, the *Over/Under Report* described in paragraphs 27-37 and the election results for the 2024 General Election reflect that the overages and the underages associated with the precincts in the County of Kauai could not have affected the outcome of the election. *See* HRS § 11-153(c).

39. Attached hereto as Exhibit 4 is a true and correct copy of the countywide report for the County of Kauai entitled "GENERAL ELECTION 2024 – State of Hawaii – County of

Kaua'i, November 5, 2024, SUMMARY REPORT, Report 4" that was printed on November 6, 2024, at 12:19:34 p.m. and published that day on the Office of Elections' website.

40. As part of their standard operating procedure, Official Observers and counting center personnel from the counting center take possession of the return identification envelopes at the county building and take them back to the counting center for counting over the course of the election processing period that started on October 26, 2024, and ended on November 13, 2024. As such, on the final day of counting, November 13, 2024, the Official Observers and counting center personnel took possession of the return identification ballots for that day and took them back to the counting center for counting. A total of 82 ballots were counted that day at the counting center.

41. Attached hereto as Exhibit 5 is a true and correct copy of the countywide report for the County of Kauai entitled "GENERAL ELECTION 2024 – State of Hawaii – County of Kaua'i, November 5, 2024, SUMMARY REPORT, Final" that was printed on November 13, 2024, at 5:22:48 p.m. and published that day on the Office of Elections' website.

I, SCOTT T. NAGO, declare under penalty of perjury that the forgoing is true and correct.

DATED: Pearl City, Hawaii, December 5, 2024.

SCOTT T. NAGO

Report on Election Security: The Authentication, Accounting, and Securing of Ballots

February 16, 2024

This report has been prepared by the Office of Elections and Offices of the County Clerks. For additional information or questions, please contact the Office of Elections by emailing elections@hawaii.gov or by calling (808) 453-VOTE (8683) or toll-free 1-800-442-VOTE (8683).

Overview

The mission of the Office of Elections is to provide secure, accessible, and convenient election services to all citizens statewide. The office works cooperatively and collaboratively with the Offices of the County Clerks to conduct the elections. The responsibilities of each office are provided by statute with the state responsible for the printing and counting of ballots and the counties responsible for voter registration and voting, including the mailing and receipt of ballots and establishing and operating places of deposit and voter service centers.

The security of the elections is based on the fact that the eligibility of voters is readily identifiable and non-fungible (i.e., unique and not interchangeable), and likewise, the authentication of the ballots, while not associated with a voter, is also readily identifiable and non-fungible. Then, layers of processes to secure the election are applied such that the conduct of the election must be viewed in its totality. The materials for each election, such as the return identification envelope personalized to each voter and the ballot sent to the voter are each unique and not interchangeable. As a simple example, the return identification envelope received for a primary election cannot be accepted for the general election and similarly, the ballot received for the primary election cannot be counted for the subsequent general election. Election officials rely on the readily identifiable and non-fungible nature of election materials to apply layered safeguards and intentional checks within the processes of 1) voter registration; 2) ballot mailing; 3) voted ballot return; and 4) counting voted ballots to authenticate, account for, and secure the election. It is important to note that when we talk about the security of the elections, we are talking about how all the safeguards work together to provide secure elections. This report attempts to explain the security and safeguards and how they complement and work together.

Background

As a starting point, Hawaii conducts elections by mail such that registered voters are automatically sent a ballot for each election and a voter service center is established in each County to provide accessible in-person voting.

Voters register to vote by submitting a voter registration application and must update their records when their information (e.g., residence address, mailing address) changes. At the start of each election year, election officials conduct list maintenance to check for outdated voter registration records by sending voters a Notification of Voter Registration mailing. Delivered mailings are considered to be active voter registration records, while undeliverable mailings are used to flag outdated voter registrations to require impacted voters to update their records before voting or eventually be removed from Hawaii's voter rolls if no action is taken. It is important to understand that the voter rolls are fluid. The rolls are constantly being updated as

voters may register or update their records at any time. Election officials also receive information from other government agencies that allow them to maintain the accuracy of the rolls.

After the candidate filing deadline for each election, ballots are programmed, proofed, printed, and mailed. Mail ballot packages are created for each active voter registration record and include 1) a ballot based on the voter's assigned district/precinct (D/P); 2) the voter's personalized return identification envelope; and 3) a secrecy sleeve. As noted, the voter rolls are fluid, but each voter's return identification envelope is identifiable to a voter. Each ballot, while not tied to a voter, is also programmed with a ballot unique ID in the form of a non-human readable barcode used by the vote counting system.

During voting, voters vote their ballot, conceal it in the secrecy sleeve, seal it in the return identification envelope, and sign the exterior of the return identification envelope. The sealed and signed return identification envelope is submitted to the Office of the County Clerk by mail or to a place of deposit. Instead of voting using the mailed ballot package, a voter could choose to visit a voter service center to vote in person and have their mail ballot package canceled.

After collecting the return identification envelopes, the Office of the County Clerk validates the signature on the exterior of the envelope and indicates on the voter record that it has been received and accepted for counting. The return identification envelope remains sealed. Likewise, for a voter who appears at a voter service center, their mail ballot packet is canceled so that the return identification envelope cannot be received and accepted. The statewide voter registration system, which is the database of the voter rolls, is used to track voting – either using the return identification envelope or in person by the individual voter when voting at a voter service center.

Finally, validated return identification envelopes are transferred to the state-operated counting center to be opened, processed, counted, and secured. The return identification envelopes are opened in a two-step process to maintain voters' secrecy. First, the secrecy sleeve concealing the voted ballot is removed from the return identification envelope. Emptied return identification envelopes are cleared from the work area before proceeding to remove the voted ballots from the secrecy sleeve and unfolding them for counting. Voted ballots are scanned by the vote counting system and securely stored. The vote counting system checks the ballot unique ID to authenticate each individual ballot and prevent duplicate counting.

Voter Registration

Voters register and update their voter registration records using a voter registration application. The paper voter registration application is available at elections.hawaii.gov, post offices, libraries, and election offices statewide. Also, voters with a Hawaii Driver License or State ID may use the online voter registration system at elections.hawaii.gov. Additionally, the voter registration application is a required part of the Hawaii driver license and state ID application that is used for applicants to get, renew, or update their ID. Further, election officials receive information related to voters from other government agencies, such as the State of Hawaii Department of Health to remove deceased voters from the rolls. Registering, updating, and maintaining records using government data is a routine function of the Offices of the County Clerks.

Election officials also conduct list maintenance in accordance with the federal National Voter Registration Act of 1993 (NVRA). The NVRA establishes a process to identify outdated voter records through a series of election mailings. Hawaii conducts list maintenance under NVRA ahead of each primary election. The initial mailing is non-forwardable, and delivery confirms that the voter remains registered as addressed (i.e., no action is required by the voter and election officials).

If the initial mailing is undeliverable, the mailing is returned to the County Clerk's office. The County Clerks follow up with these voters by sending a second forwardable mailing to locate the voter and notify them that they must update their voter registration before they are allowed to vote in Hawaii's elections. Voters who are sent this mailing and do not take action to update their voter registration within 2 general elections are removed from the voter rolls. Additionally, NVRA provides that a voter may not be flagged inactive within 90 days of the election. As such, the timing of the undeliverable mail piece being returned to the County Clerk's office impacts the timeline for removal. For example, an undeliverable mail ballot package cannot be used to flag a voter as inactive until after the general election, as it would occur less than 90 days prior to the general election. Given this, the current/recent general election would not count toward the required two general elections that must follow a voter being flagged as inactive before they can be removed. It is important to note that under state law the voter will not be sent a ballot while they are inactive as ballots are not permitted to be mailed to an outdated or non-deliverable mailing address.

Through the process of list maintenance, at any given time there are inactive voter registration records included in the voter rolls. As an example, for the upcoming 2024 Elections, voters will be mailed a Notice of Voter Registration card to be received in the first half of 2024. Voters flagged as having an outdated voter record through this mailing prior to the Primary Election will

be marked inactive and sent the second forwardable mailing. Any impacted voters who fail to update their voter record by the 2026 General Election can only be removed after the 2026 Elections.

Looking at past elections, voters removed after the 2022 General Election were flagged inactive at least 90 days ahead of the 2020 Primary Election, while voters removed after the 2020 General Election were flagged inactive at least 90 days ahead of the 2018 Primary Election. For the number of voters removed after the 2022 General Election (i.e., 2023), and 2020 General Election (i.e., 2021), see page 9.

There is no statutorily established date to purge voters from the rolls and the County Clerks' offices typically remove voters after the resolution of the previous general election in the non-election year but before the calendar year of the next election.

We would also note that the voter registration count associated with a specific election is captured on the deadline for voters to submit a paper voter registration application. The voter registration count reported by the election results represents all voters (i.e., active plus inactive and questionable addresses) associated with the election. This reporting of the voter registration count is used to calculate voter turnout for each election. For information on accessing the election results, see Election Results on page 34.

The process for voter registration and list maintenance serves as a safeguard to the integrity of the election by checking that ballots are not sent to voters who no longer receive mail at the provided address. Also, the inclusion of the voter registration application with the Hawaii driver license/state ID application allows voters to simultaneously register or update their voter registration. Further, individual voters contribute to the accuracy and integrity of the elections by returning election mailings to the Office of the County Clerk for resolution if they receive an election mailing for a voter who no longer resides or receives mail at the address associated with the voter registration record.

Ballot Mailing

As provided for in HRS § 11-102, election officials "mail a ballot package by non-forwardable mail to each registered voter[,]" except for those who are "identified as having an outdated or non-deliverable mailing address." As noted on page 2, each mail ballot package includes (1) a ballot for the voter's assigned district/precinct, (2) the voter's personalized return identification envelope; and (3) a secrecy sleeve. The voter's ballot and their personalized return identification envelope are not connected, to ensure secrecy, and as individual pieces, are readily identifiable and non-fungible.

For purposes of sending a ballot package to voters, this section will focus on the return identification envelope. As noted on page 5, the return identification envelope is personalized with information from the statewide voter registration system including a unique identifier, the App-ID. We want to emphasize that the App-ID is the unique identifier associated with the return identification envelope only. The App-ID is not cross-referenced or associated with the ballot sent to the voter (i.e. no election official or vendor knows which ballot is associated with a particular return identification envelope or voter).

Election officials know how many ballot packages have been prepared for mailing based on the voter rolls (e.g., the assignment of the App-ID) and reconcile physical pieces with the mailing house vendor. This allows election officials to account for the number of voters sent a ballot in the statewide voter registration system. As the voter rolls are fluid, the Offices of the County Clerks continue to issue and replace ballot packages to voters after the initial mailing by the mailing house vendor. The number of ballots mailed is ultimately tracked based on the number of voters sent a ballot package, as regardless of an attempt by a bad actor to vote more than once, the Office of the County Clerk will only be able to receive and accept one return identification envelope for counting per voter. For the number of voters mailed a ballot for the 2022 and 2020 Elections, see Ballots Mailed starting on page 9.

The status of the mail ballot package and voted ballot is available to each voter using the App-ID on the return identification envelope. Voters can use the ballot tracking alert service, through elections.hawaii.gov, to check online or receive a notification by email, text, or telephone. Notifications include that the voter's mail ballot package has been created and that their return identification envelope has been received and accepted for counting. Instead of the ballot tracking alert service, voters may choose to contact their county elections office to check the status of their mail ballot package and voted return identification envelope.

Because the ballot package is sealed with the return identification envelope and ballot, along with the public announcement of the mailing of ballot packages, the risk of it being stolen, misdelivered, misplaced, or otherwise lost unbeknownst to an expectant voter is reduced. Consistent with this, voters are expected to contact election officials if they have not received their ballot. Likewise, groups who are focused on getting out the vote will also be aware if the voters they are contacting inform them that they have not received their ballot package.

Election officials coordinate delivery with the United States Postal Service (USPS). Given the volume of mail involved, election officials use mailing permits in which they are charged for each individual piece of mail. Election officials could identify a significant disconnect between the number of return identification envelopes prepared by the mailing house, reflected in the statewide voter registration system, and what was billed per piece by USPS.

Voted Ballot Return

The return identification envelopes, securing and concealing the voted ballot, are returned by mail or to a place of deposit for collection by the Office of the County Clerk. As noted on page 2, the return identification envelopes are readily identifiable and non-fungible as it is personalized to the voter (e.g. voter's name, App-ID, voter's signature), sealed, and otherwise not reasonably subject to tampering. Additionally, each County Clerk's office implements processes to ensure security when handling return identification envelopes from the United States Postal Service (USPS) and places of deposit. Of note, a voted ballot not concealed in a return identification envelope, for example – at a place of deposit, will not be received and accepted for counting as it would undermine the very security we have been discussing.

After taking custody of the return identification envelopes, the County Clerk's office checks each envelope into the statewide voter registration system by scanning the barcode on the envelope associated with the voter, generally using ballot sorting equipment. The ballot sorting equipment detects if the barcode has already been read or if the barcode has been canceled, thus preventing a return identification envelope from being accepted for counting. For example, a voter may have asked for a duplicate return identification envelope and then found the original one but mailed both back. The check in process by the County Clerk's office prevents the voter from submitting 2 return identification envelopes. Likewise, a voter who moves to a new district/precinct will have their registration updated in the statewide voter registration system and any return identification envelope associated with their former residence will be canceled and a new one will be generated that is associated with the new district/precinct. If the voter were to mail in the canceled return identification envelope the system would detect it and not allow it to be accepted for counting. We also want to emphasize that the voted ballot remains sealed in the return identification envelope and is opened at the counting center in the presence of official observers.

Additionally, as part of the check in process, the signature on the return identification envelope is matched to the signature associated with the voter's registration record. If the signature does not match, the return identification envelope is not accepted for counting and the voter is contacted to permit them to cure the deficiency with their signature which in turn allows their return identification envelope to be accepted for counting. These return identification envelopes remain sealed and are maintained by the Offices of the County Clerks.

The status of the return identification envelope is available to the voter through the ballot tracking alerts service or by calling an election office. For the number of return identification envelopes received deficient for the 2022 and 2020 Elections, see page 83.

Voter Service Centers

As previously noted, a voter is only allowed to cast one ballot. This means that the return identification envelope will be rejected if a voter has already voted at a voter service center. Likewise, a voter will not be permitted to vote at a voter service center if their return identification envelope has already been received. Starting with the 2024 Elections, the voting equipment at the voter service center will be programmed to not accept mail ballots and the ballots will visually be readily differentiated from voter service center ballots. Given this, a voter could not vote their mail ballot in addition to the ballot they would be issued at the voter service center.

After the voter service center closes, the vote counting equipment and the voted ballots are transferred to the state-operated counting center for accounting and secure storage.

Counting Voted Ballots

The County Clerk's office transfers accepted return identification envelopes to the state-operated counting center. Each state-operated counting center is staffed by election officials, the voting system vendor, and volunteers. Volunteers designated as counting center officials are assigned to various work areas to open return identification envelopes and collect voted ballots, track and log voted ballots for counting and tabulation, and track and duplicate defective ballots. Additionally, volunteers serve as official observers to be the "eyes and ears' of the public monitoring the handling of voted ballots within the counting center. Counting center operations to open, process, and count voted ballots must be conducted in the presence of official observers. When not directly handled, sensitive election materials are securely stored with tamper evident seals. The sealing and unsealing process requires certification by the official observers.

Processing Return Identification Envelopes

As noted on page 3, return identification envelopes are processed at the ballot opening work area in a two-step process. First, the return identification envelope is opened and the secrecy sleeve concealing the ballot is removed separating the voter from their ballot. The return identification envelope is cleared from the work area before the ballot is removed from the secrecy sleeve and it will be securely stored. The ballot opening team also tracks invalid ballot conditions which stop a ballot from being counted like the envelope or secrecy sleeve is returned without a ballot or the voter returned 2 voted ballots (e.g., 2 household members accidentally enclose both of their ballots in a single return identification envelope). Ballots invalidated at the counting center are not counted and are securely maintained by the Office of Elections. This accounting of invalid ballots is addressed on the over/under report as part of the

adjusted mail total to note a discrepancy with the number of return identification envelopes the county received. The over/under reports from the 2022 and 2020 Elections are included starting on page 34.

The ballot opening team forwards voted ballots to the VBC processing work area to be counted, logged, and securely stored.

Ballot Unique ID

As noted on page 3, ballots are non-fungible as each is printed with ballot unique ID in the form of a non-human readable barcode, and the vote counting system is programmed to only accept the ballot unique ID. The ballot unique ID is important for election security as it prevents and detects ballot stuffing as a ballot can only be counted once, and any duplicate ballots are rejected. In addition to tracking the votes, the vote counting system also captures the ballot image during counting which election officials can use to track and examine any issues with a ballot.

Reporting Overages and Underages

Results are tabulated and released starting on Election Day. As previously noted on page 7, the Offices of the County Clerks have up to 5 business days after Election Day to validate any return identification envelopes that were received by the deadline on Election Day. This typically involves voters whose return identification envelopes were found to be deficient (e.g. due to a non-matching signature or failure to sign the envelope) curing the deficiency with the Offices of the County Clerks by the 5th business day deadline. These validated return identification envelopes are then counted and tabulated.

The mail turnout, or the number of voted ballots counted at the counting center, from the final results report is compared to the number of voters who returned their return identification envelope, by district/precinct. Likewise, the in-person turnout, or the number of voted ballots counted at the voter service centers, from the results report is compared to the number of voters who voted at a voter service center. This is reflected in the over/under reports starting on page 34. Please note that they are also at times referred to as the reconciliation of voted ballots or voted ballot summary. Small differences may exist as the human element leads to human errors. A ballot may accidentally be left in the envelope or an invalid condition, such as an empty ballot secrecy sleeve may be misidentified during the processing of the return identification envelopes at the ballot opening work area.

Election Metrics

Voter registration

Undeliverable Election Mailings

The Offices of the County Clerks provided the following data related to undeliverable election mailings from the 2022 and 2020 Elections. Statistical data related to undeliverable mailings are not captured by type or district/precinct, but rather in totality.

County	2022 Elections	2020 Elections
County of Hawaii	5,730	10,277
County of Maui	8,165	4,925
County of Kauai	Data not tracked	Data not tracked
City & County of Honolulu	27,612	18,014

Voters Removed

After each general election, the Offices of the County Clerks removed voters who have remained inactive for at least 2 general elections. The table below indicates the number of voters removed (i.e., purged) from the voter rolls in 2023, following the 2022 General Election, and 2021, following the 2020 General Election. Voters removed from the voter rolls are eligible to re-register to vote in Hawaii. We would note that there was a transition to a new voter registration database between the 2016 and 2018 Elections. This resulted in an abundance of caution when flagging voters as inactive, which impacted when those voters could ultimately be removed.

County	2023 (Voters flagged inactive before the 2020 Elections)	2021 (Voters flagged inactive before the 2018 Elections)
County of Hawaii	4,965	3,291
County of Maui	6,811	2,575
County of Kauai	3,188	2,507
City & County of Honolulu	34,216	4,633

Election Results

The election results are available at elections.hawaii.gov/election-results as summary and precinct reports. A summary report is a cumulative report of votes for all contests based on the scope selected (i.e., statewide, countywide):

- Statewide Summary (PDF and text)
- County of Hawaii Summary
- County of Maui Summary
- County of Kauai Summary
- City & County of Honolulu Summary

The Statewide Precinct Detail report is available as a PDF or text file and provides the votes for each district/precinct broken down by mail and in-person.

Ballots Returned and Counted

As noted on page 9, there is a detailed process to prepare the over/under reports. These reports are sometimes referred to as the reconciliation of voted ballots or voted ballot summary as that is functionally what they involve. Likewise, we find that there are those who seek the same report but frame their request as seeking the number of ballots returned and the number

of ballots counted. We would note the columns "Adj. Mail Turnout" and "Walk Turnout" together reflect the number of ballots returned in an election, while the column "Prec. Report" reflects the number of ballots counted in a particular D/P in the following reports for the 2022 General, 2022 Primary, 2020 General, and 2020 Primary.

Other Election Safeguards

In addition to the processes related to voter registration, ballot mailing, voted ballot return, and counting voted ballots, safeguards are in place to test and secure the vote counting system, audit the election results, and file an election contest.

To test the vote counting system official observers who serve as the counting center volunteers, vote test ballots and create a hand tally of expected results. The test ballots are counted by the voting equipment and the official observer matches their hand tally of expected results to the results report tabulated by the vote counting system. After certifying the voting equipment, it is secured.

Election audits confirm the accuracy and integrity of the results by reviewing the ballots and creating a hand tally of expected results. The audit hand tally of expected results is compared to the results report tabulated by the vote counting system. The audit is conducted on 10% of precincts, which are randomly selected, and the hand tally is created for 1 contest per audit precinct. If during the audit an issue impacting the results of the election is found, the audit may be expanded to additional contests or precincts.

Ultimately, all disputes may be resolved by the court system. Specifically, the Hawaii Supreme Court has jurisdiction to resolve all election contests. The complaints in such cases are required to "set forth any cause or causes, such as but not limited to, provable fraud, overages, or underages, that could cause a difference in the election results." Allegations regarding chain of custody must necessarily allege provable fraud, overages, or underages, that could cause a difference in the election results.

Conclusion

In recent years, the issue of election integrity has been raised by some who allege what they see as "chain of custody" concerns. Among the allegations are that fake ballots could be created and surreptitiously added to the existing ballots to be counted or that ballots could be removed before they are counted. This report demonstrates that any discussion regarding any alleged risks or opportunities for tampering with our elections first requires an understanding of how our elections operate and the procedures and safeguards that are in place. For example, when someone seeks to review and challenge a single process in isolation, they might not appreciate that the election actually has to be viewed in totality and that a check may already have been applied or will be conducted later in the process to address the issue they are concerned about. The layered safeguards and intentional checks election officials implement as part of their election processes are meant to work together to prevent and identify issues.

DEFENDANT JADE FOUNTAIN-TANIGAWA'S REPLY TO PLAINTIFFS' OPPOSITION TO MOTION TO DISMISS PLAINTIFF'S ELECTION COMPLAINT FILED NOVEMBER 25, 2024, ALTERNATIVELY, DEFENDANT JADE FOUNTAIN-TANIGAWA'S MOTION FOR SUMMARY JUDGMENT

Plaintiffs' opposition memorandum filed December 5, 2024 continues to utilize envelope counts containing a disclaimer the expressly states that: "The manual counts were made for internal purposes to track election progress with the understanding that it would not match official election results." See: Declaration of Lyndon M. Yoshioka and Exhibit A.

For this reason Plaintiffs' complaint must be dismissed.

IN THE SUPREME COURT OF STATE OF HAWAI'I

Ralph Cushnie *pro se*, along with more than Thirty Voters, Plaintiffs vs. Scott T. Nago, in his official capacity as Chief Elections Officer for the Office of Elections, State of Hawai'i; Ms. Jade Fountain-Tanigawa, County Clerk for the County of Kaua'i, Defendants.	ORIGINAL PROCEEDING DECLARATION OF LYNDON M. YOSHIOKA

DECLARATION OF LYNDON M. YOSHIOKA

I, LYNDON M. YOSHIOKA, hereby declare under penalty of law that the foregoing is true and correct:

1. I am the Deputy County Clerk ("Deputy Clerk") for the County of Kaua'i ("County") and have personal knowledge of the following facts. If called and sworn as a witness, I could and would testify competently to them. I have been with the County since February 1, 1995 and have the held this position with the County since November 1, 2022.

2. As the Deputy Clerk, the County Clerk has delegated to me the oversight of all staff assigned to the Elections Division of the Office of the County Clerk who are directly responsible for conducting elections in the County.

3. The Chief Election Officer is responsible for printing and counting ballots, including the calculation of overages and underages for elections by mail involving federal, state, and county offices pursuant to HRS § 11-110(b)(1).

4. The Chief Election Officer's established method for calculating overages and

underages evaluates the quantity of ballots counted and reported in official election results against the documented quantity of mail ballots received, adjusted by the number of ballots deemed to be invalid by counting center personnel at the State counting center, and the documented quantity of in-person voters as reported from the statewide voter registration system, which is the system of record. This method for calculating overages and underages has been the established standard since at least the mid-1990s.

5. Based on the Chief Election Officer's overage and underage calculations for each district and precinct in the County, the overall overage was 36 and the overall underage was 4. For reference, the table below is a true and correct copy of the Chief Election Officer's overage/underage calculations for the County, with column totals included in a row added to the bottom of the table.

6. The County was responsible for taking a manual count of return identification envelopes collected for its own internal use and recording the counts on a form that it developed.

would begin immediately after scanning was completed because it cannot be delayed or postponed because Plaintiff or their representative was not present.

9. At the counting center in the presence of Official Observers, return identification envelopes are opened and ballots removed. Ballots are scanned by the voting system to capture an image of both sides of the ballot. A separate process will later record the votes on each scanned ballot, identify and not count voting errors (over-votes or multi-party votes in the Primary Election), if any, and tabulate election results. A true and accurate image of all scanned and counted ballots is saved on a secure memory drive and maintained for a minimum of 22 months pursuant to 52 USC § 20701.

10. Opened return identification envelopes are rechecked to ensure that any contents have been removed then they are placed inside an envelope storage container which is sealed with a uniquely numbered wire hasp seal. The seal number is recorded on a form prescribed by the chief election officer and the sealed envelope container is stored for a minimum of 22 months pursuant to 52 USC § 20701.

11. After valid ballots are counted, the ballots are placed inside a voted ballot container which is sealed with a uniquely numbered wire hasp seal. The seal number is recorded on a form prescribed by the chief election officer and the sealed voted ballot container is stored for a minimum of 22 months pursuant to 52 USC § 20701.

DATED: Līhu'e, Kaua'i, Hawai'i, December 9, 2024.

County Attorney

/s/ Mark L. Bradbury
MARK L. BRADBURY
Deputy County Attorney

Attorneys for Defendant
JADE FOUNTAIN-TANIGAWA, County Clerk for the County of Kaua'i

7. The envelope counts made by the County were never intended to be used to calculate overages and underages and were simply meant to establish a point in time approximation of the quantity of envelopes received on a given day and to estimate the quantity of envelopes outstanding. The approximations were made to aide with projecting staffing needs and scheduling overtime, and were made with the understanding that the count would not equal the quantity of ballots counted and reported in official election results.

8. To note the limited application of the return identification envelope counts taken by the County, the following disclaimer was imprinted on the lower portion of each form used to record the counts:

> "Figures on this form represent a manual count of envelopes – not the number of ballots counted. The manual counts were made for internal purposes to track election progress with the understanding that it would not match official election results."

9. Plaintiff appears to discount the County's disclaimer imprinted on forms used to record the quantity of return identification envelopes collected for a given day and uses the raw envelope counts to calculate his alleged overage of 442.

10. Plaintiff also discounts the Chief Election Officer's established process for calculating overages and underages as described in paragraph 4 above.

11. The Chief Election Officer's calculated overall overage of 36 is well below the 108 vote difference between the 7th place and final candidate for Kaua'i County Council to be elected to office and the 8th place candidate who was not elected.

DATED: Līhu'e, Kaua'i, Hawai'i, December 9, 2024.

IN THE SUPREME COURT OF THE STATE OF HAWAII

Ralph S. Cushnie *pro se,* along with more than Thirty Voters

Plaintiffs

VS.

Scott T. Nago, in his official capacity as Chief Elections Officer for the Office of Elections, State of Hawaii; Ms Jade Fountain-Tanigawa, County Clerk for the County of Kauai

Defendants

CASE NO. SCEC-24-0000797

MEMORANDUM IN SUPPORT OF OPPOSITON TO MOTION TO DISMISS / SUMMARY JUDGEMENT PURSUANT TO HRCP RULE 7

Plaintiffs hereby bring this Memorandum in Support of the Opposition to the Motion to Dismiss / Motion for Summary Judgement, filed by Defendant Nago on 5 December 2024, pursuant to the Hawaii Rules of Civil Procedure Rule 7.

MEMORANDUM IN SUPPORT

Plaintiffs, through due diligence, have received new evidence from the Kauai Elections Division which records deficient ballots which were removed as "The final number of uncured envelopes is 219 for the 2024 General election." EXHIBIT (J)

The difference between the number of voted ballot envelopes recorded by the state through mail in voting (27,075) minus the documented usage for the number of voted ballots collected from the drop boxes and postal service by the county

(26,633) minus the number of ballots removed as deficient (219) is a provable overage of 661 voted ballots.

UPDATED INTERROGATORIES

Very simply for the Court to now ponder: How is it possible for the quantity of mail in ballots reported by the centralized statewide voter registration system to be more than the number of ballots physically collected and cured by the County of Kauai? [underline for emphasis] See Figure (1).

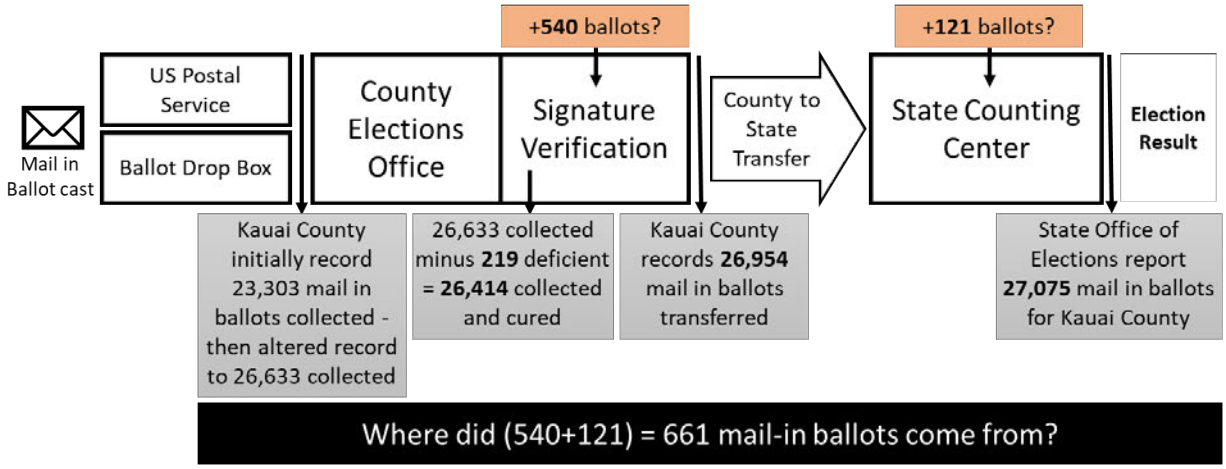

Figure (1) Chain of Custody Reporting for Kauai Mail in Ballots

Plaintiffs maintain that a provable overage of 661 ballot is verifiable through a comparison and reconciliation of the Kauai County chain of custody documentation, Kauai County attestation to ballots removed as deficient, and the States Summary Report for the County of Kauai. Dkt 20 EXH A, EXHIBIT (J), and Dkt 20 EXH C.

CONCLUSION

Plaintiffs maintain that the overage of 661 voted ballots did cause a difference in the election results for the county council race for the County of Kauai.

Plaintiffs aver that a physical count of all mail in ballots, or alternatively, all mail in ballot envelopes, collected for the County of Kauai will alleviate this controversy.

Plaintiffs maintain that per HRS 174.5, "a correct result cannot be ascertained" for the county council election due to the provable overage, and that the judgement should invalidate the Kauai County Council race held during the 2024 General Election. Dkt 1 EC page 9

Plaintiffs Request for Remedy and Relief remain.

AFFIRMATION

Plaintiffs reserve all rights, without prejudice.

CAUTION: This email originated from outside the County of Kauai. Do not click links or open attachments even if the sender is known to you unless it is something you were expecting.

Hi Geri,

What is the County's final number of ballots that could not be cured for the 2024 General Election.

Please send the County's statistic by close of business today.

Regards,
RJ

IN THE SUPREME COURT OF THE STATE OF HAWAII

Ralph S. Cushnie *pro se,* along with more than Thirty Voters

Plaintiffs

VS.

Scott T. Nago, in his official capacity as Chief Elections Officer for the Office of Elections, State of Hawaii; Ms Jade Fountain-Tanigawa, County Clerk for the County of Kauai

Defendants

CASE NO. SCEC-24-0000797

ADDENDUM TO MEMORANDUM IN SUPPORT OF OPPOSITON TO MOTION TO DISMISS / SUMMARY JUDGEMENT PURSUANT TO HRCP RULE 7

Plaintiffs hereby bring this Addendum to Memorandum in Support of the Opposition to the Motion to Dismiss / Motion for Summary Judgement, filed by Defendant Nago on 5 December 2024, pursuant to the Hawaii Rules of Civil Procedure Rule 7.

ADDENDUM TO MEMORANDUM IN SUPPORT

Plaintiffs, through additional due diligence would request to add the following information and summary of chain of custody documentation as reported by the County of Kauai and the Office of Elections, and to ease the understanding for the Court to comprehend the gravity of this election complaint.

Per Mr Nago's Declaration of 5 December 2024, "As such, on the final day of counting, November 13, 2024, the Official Observers and counting center personnel took possession of the return identification ballots for that day and took them back to the counting center for counting. A total of 82 ballots were counted that day at the counting center." DKT 28 Declaration #40.

There was no record of this transfer reported by the County of Kauai.

Plaintiffs maintain that Table (1) presents the undisputed facts for the recorded quantity of ballots collected, uncured, and transferred by the County of Kauai and as declared by Mr Yoshioka (Dkt 19 DEC, Dkt 20 & 21 EXH), and the number of cured ballots accepted at the State Counting Center as reported by Mr Nago (Dkt 28 MD Declaration #40), and as compared to the number of mail in ballots reported for the County of Kauai by the Office of Elections (Dkt 22 EXH). See Table (1).

	OVERAGE															**661**

Table (1): Undisputed Facts of Ballot Receipt, Transfer, and Reporting

Plaintiffs maintain that the difference between the number of voted ballot envelopes recorded by the state through mail in voting (27,075) minus the number of collected voted ballot envelopes and uncured envelopes (26,414) is a provable overage of 661 voted ballots.

Plaintiffs maintain that a provable overage of 661 ballots is verifiable through a comparison and reconciliation of the Kauai County chain of custody documentation, Kauai Elections Division attestation to ballots removed as deficient, Mr Nago's attestation to ballots transferred, and the States Summary Report for the County of Kauai. Dkt 20 EXH A, EXHIBIT (J), Dkt 28 Declaration #40, and Dkt 20 EXH C.

CONCLUSION

Plaintiffs maintain that the overage of 661 voted ballots did cause a difference in the election results for the county council race for the County of Kauai.

Plaintiffs aver that a physical count of all mail in ballots, or alternatively, all mail in ballot envelopes, collected for the County of Kauai will alleviate this controversy.

Plaintiffs Request for Remedy and Relief remain.

AFFIRMATION

Plaintiffs reserve all rights, without prejudice.

SCEC-24-0000797

IN THE SUPREME COURT OF THE STATE OF HAWAIʻI

RALPH S. CUSHNIE and more than THIRTY VOTERS, Plaintiffs,

vs.

SCOTT NAGO, as Chief Elections Officer for the Office of Elections, State of Hawaiʻi; and JADE FOUNTAIN-TANIGAWA, County Clerk for the County of Kauaʻi, Defendants.

ORIGINAL PROCEEDING

FINDINGS OF FACT, CONCLUSIONS OF LAW, AND JUDGMENT
(By: Recktenwald, C.J., McKenna, Eddins, Ginoza, and Devens, JJ.)

This 2024 General Election contest is about overages. An overage occurs when the amount of ballots recorded in the official election results is more than what "documented usage" indicates.

Plaintiffs Ralph Cushnie (Cushnie) and thirty-two other voters (collectively, Plaintiffs) assert there is an overage in mail ballots that are sufficient in quantity to cause a difference in the results of the Kauaʻi County Councilmember race in the 2024 General Election.

However, the data that Plaintiffs rely on for "documented usage" contains a disclaimer that expressly states that the figures represent a manual count of envelopes and not the number of ballots counted. It is unreasonable to infer a ballot count from this data due to this disclaimer.

Plaintiffs' December 12, 2024 Memorandum in Support also concedes that there is a difference of only 39 ballots when comparing Plaintiffs' 27,036 envelope amount that was transferred to the state counting center and the 27,075 total mail ballots from the official results of the 2024 General Election in Kauaʻi County. This 39 ballot difference is less than the 108 vote difference between the seventh place and eighth place candidates in the 2024 General Election race for Kauaʻi County Councilmember.

We thus enter the following findings, conclusions, and Judgment in favor of the State and County, and against Plaintiffs. We also deny Plaintiffs' motion for interrogatories.

I. FINDINGS OF FACT

According to the final printout, the 2024 General Election results for the Kauaʻi County Councilmember race were:

1.	CARVALHO, Bernard P., Jr.	15,435	7.2%
2.	RAPOZO, Mel	14,403	6.7%
3.	KANESHIRO, Arryl J.	13,049	6.1%

4. BULOSAN, Addison	12,385	5.8%
5. COWDEN, Felicia	12,325	5.8%
6. KUALII, KipuKai	12,276	5.7%
7. HOLLAND, Fern Anuenue	12,041	5.6%
KAGAWA, Ross	11,933	5.6%
DECOSTA, Billy D.	9,977	4.7%
APILADO, Abe, Jr. (Aba-G)	5,964	2.8%
KEAHIOLALO, W. Butch	5,202	2.4%
CUMMINGS, Sherri	4,160	1.9%
NELSON, Jacquelyn (Jakki)	3,386	1.6%
THOMAS, Bart	3,296	1.5%
Blank Votes:	77,696	36.4%
Over Votes:	62	0.0%

A voter may vote for up to seven candidates in this race. Numbers are added to the above results to clearly identify the top seven candidates.

There is a 108 vote difference between the seventh-place candidate (Fern Anuenue Holland) and eighth place candidate (Ross Kagawa).

There were a total 27,075 mail ballots that were recorded in the final printout of the official 2024 General Election results for Kauaʻi County.

On November 25, 2024, Plaintiffs filed an Election Complaint (Complaint) asserting there is an "overage of 3,772 voted ballots" that caused a difference in the 2024 General Election results for the Kauaʻi County Councilmember race. Plaintiffs assert that a correct result cannot be determined for

this election "due to the provable overage," and this court's Judgment should invalidate the results of the Kaua'i County Councilmember race.

Plaintiffs submitted an information request under the Uniform Information Practices Act to the Kaua'i County Elections Division for chain-of-custody documentation relating to ballot collections and handling for the 2024 General Election.

Based on the information provided by County, Plaintiffs assert that the "documented usage for voted ballot envelopes was recorded as 23,303, and is the total number of voted ballots submitted by mail for the county." Plaintiffs assert their 23,303 number constitutes the "documented usage" for purposes of calculating an overage of mail ballots pursuant to Hawai'i Revised Statutes (HRS) § 11-153(a) (Supps. 2019 & 2021), Hawai'i Administrative Rules (HAR) § 3-177-750 (eff. 2020), and HAR § 3-177-769(b) (eff. 2020).

The documents attached to the Complaint that support Plaintiffs' 23,303 number all contain the following "Disclaimer" at the bottom of each page:

> Figures on this form represent a manual count of envelopes - not the number of ballots counted. The manual counts were made for internal purposes to track election progress with the understanding that it would not match official election results.

Subtracting Plaintiffs' 23,303 figure from the total 27,075 mail ballots in Kaua'i County results in an overage of 3,772 mail

ballots. Plaintiffs assert that this 3,772 overage amount "cause[d] a difference in the election results for the county council race for the County of Kauai" because the "overage of 3,772 voted ballots exceeds the reported margin between candidates for the top nine candidates" in the Kauaʻi County Councilmember race.

Plaintiffs' Complaint was signed by Cushnie and includes the signatures of Cushnie and thirty-two other voters from "Kauai District 17" under the following affirmation:

> I am one of more than thirty voters from Kauai District 17 and am filing this election complaint pursuant to the Constitution for the State of Hawaii and Hawaii Revised Statutes for redress of grievances regarding the 2024 Hawaii General Election and as per the accompanying filing.

Motions to dismiss or for summary judgment were filed by Defendant Jade Fountain-Tanigawa, County Clerk for the County of Kauaʻi (County), on December 4, 2024, and Defendant Scott Nago, Chief Elections Officer for the Office of Elections (the State or Nago), on December 5, 2024.

County's motion asserts that the data that Plaintiffs used to calculate the 3,772 overage ballot amount is wrong because Plaintiffs' data is based on ballot envelopes rather than ballots themselves, and the County "forms capturing ballot envelope counts are not used to calculate overages and underages pursuant to HRS § 11-153." Pointing to the Disclaimer at the

bottom of the County forms, County states that its forms capturing ballot envelope counts are used by County to

> approximate the quantity of ballot envelopes collected and the quantity still outstanding and was meant to aide with projecting staffing needs and scheduling of staff overtime, with the understanding that the envelope counts would not equal the quantity of ballots counted and reported in official election results.

County also asserts that Plaintiffs miscalculated the ballot envelope amount due to missing data, and provided the missing data through Exhibit A to County's motion.

The State's motion to dismiss or for summary judgment asserts: (A) the Complaint should be dismissed for lack of standing pursuant to Cordery v. Ige, SCEC-22-0000734, because Cushnie is the only Plaintiff, or voter, in this election contest; (B) Plaintiffs disregard the disclaimer language on the County forms they rely on; (C) Plaintiffs also disregard return identification envelopes data that is also attached to their Complaint showing that 26,954 return identification envelopes were transferred to counting centers between October 26, 2024 and November 6, 2024; and (D) the State's data shows there are a total of 25 overage mail ballots in Kauaʻi County, and this 25 overage mail ballots is not enough to cause a difference in the results of the 2024 General Election race for Kauaʻi County Councilmember because the difference in votes between the seventh-place candidate and eighth-place candidate is 108 votes.

The State's 25 overage mail ballots is reflected by the following table:

D/P	Mail				In-Person			
	Adj. Mail Turnout	Prec. Report	Over (+)	Under (-)	Walk Turnout	Prec. Report	Over (+)	Under (-)
15-01	1,761	1,763	2	0	167	170	3	0
15-02	1,708	1,713	5	0	209	209	0	0
15-03	938	940	2	0	138	138	0	0
15-04	3,456	3,458	2	0	537	537	0	0
15-05	1,207	1,208	1	0	151	152	1	0
16-01	2,875	2,877	2	0	468	469	1	0
16-02	1,172	1,173	1	0	195	195	0	0
16-03	1,997	1,999	2	0	271	271	0	0
16-04	2,505	2,506	1	0	345	344	0	(1)
16-05	304	304	0	0	40	37	0	(3)
17-01	2,290	2,294	4	0	285	288	3	0
17-02	2,954	2,954	0	0	367	368	1	0
17-03	1,929	1,929	0	0	154	155	1	0
17-04	755	756	1	0	57	57	0	0
17-05	1,176	1,178	2	0	100	101	1	0
17-06	23	23	0	0	0	0	0	0
	27,050	**27,075**	**25**	**0**	**3,484**	**3,491**	**11**	**4**

The State's documented usage for mail ballots adds the amount of mail ballots with the amount of electronic ballots, and then reduces the sum by the amount of invalidated mail and electronic ballots. In other words: mail ballots + electronic ballots - invalidated mail and electronic ballots = documented usage.

Overage and underage is calculated on a precinct-by-precinct basis by comparing the documented usage (Adj. Mail Turnout in the above table) with the amount of precinct turnout for mail ballots (Prec. Report in the table).

Nago's Declaration states that the envelopes remain sealed and are not opened until the envelopes are transferred to a state-operated counting center. The envelopes are then opened at the state-operated counting center.

Plaintiffs filed an opposition to County's motion on December 5, 2024, and an opposition to the State's motion on December 9, 2024.

Plaintiffs' opposition to County's motion: (A) asserts Exhibit A of County's motion is unreliable as evidence because "chain of custody has been broken for the handling of 3,004 voted ballot envelopes reportedly received by the county from the US Postal Service and the validity of this new entry cannot be verified"; (B) continues to assert that "documented usage" is calculated by using the ballot envelope count in the County-provided forms with the Disclaimer; and (C) asserts there is an overage of 442 ballots rather than the 3,772 ballots asserted in their Complaint based on Exhibit A of County's motion.

Each page of Exhibit A of County's motion includes the same Disclaimer quoted above.

Plaintiffs' opposition to the State's motion: (A) attaches a list of addresses for the thirty-three voters in this general election contest; (B) asserts that the State has "frustrated all efforts to retrieve chain of custody documentation"; (C) continues to assert that Kauaʻi County chain-of-custody documentation is the only physical verification of the quantity of mail in ballots collected and, based on Kauaʻi County data, there is an overage of 442 mail ballots.

On December 4, 2024, Plaintiffs filed a motion for interrogatories that seeks answers to questions concerning certification of Councilmembers prior to the resolution of this election contest. According to Plaintiffs, the 2024 Kauaʻi County Councilmember election is a contested election and cannot yet be certified.

Additional arguments were filed by County and Plaintiffs on December 9, 2024.

On December 10, 2024, Plaintiffs filed a "Memorandum in Support of Opposition to Motion to Dismiss/Summary Judgment Pursuant to HRCP Rule 7." Plaintiffs state that County informed them there were 219 uncured envelopes in the 2024 General Election, and assert that the 219 uncured envelopes constitute 219 more overage ballots that could have caused a difference in the Kauaʻi County Councilmember race in the 2024 General Election.

On December 12, 2024, Plaintiffs filed a second Memorandum in Support that again asserts the 661 overage mail ballots based on the County forms, the uncured envelopes, and now Nago's "attestation to ballots transferred, and the States Summary Report for the County of Kauai." Notably, Plaintiffs' December 12 Memorandum now says that a total of 27,036 envelopes were transferred from County to the State counting center.

II. CONCLUSIONS OF LAW

A. Standing

When asked to decide whether a litigant is asserting legally recognized interests, personal and peculiar to that person, "we have spoken of standing[.]" Tax Found. of Hawai'i v. State, 144 Hawai'i 175, 191, 439 P.3d 127, 143 (2019).

> Standing is that aspect of justiciability focusing on the party seeking a forum rather than on the issues he wants adjudicated. And the crucial inquiry in its determination is "whether the plaintiff has 'alleged such a personal stake in the outcome of the controversy' as to warrant his invocation of . . . (the court's) jurisdiction and to justify exercise of the court's remedial powers on his behalf."

Life of the Land v. Land Use Comm'n, 63 Haw. 166, 172, 623 P.2d 431, 438 (1981) (quoting Warth v. Seldin, 422 U.S. 490, 498-99 (1975)).

Standing requirements may be tempered or prescribed by legislative declarations policy. Tax Found., 144 Hawai'i at 191, 439 P.3d at 143. HRS § 11-172 (Supp. 2021) states that an election complaint may be brought by "any thirty voters of any election district."

Plaintiffs' Complaint was signed by thirty-three voters, one of whom is Cushnie. Phone numbers and addresses of the thirty-three voters were also provided in the record.

The signature pages in the Complaint include the following affirmation:

> I am one of more than thirty voters from Kauaʻi District 17 and am filing this election complaint pursuant to the Constitution for the State of Hawaii and Hawaii Revised Statutes for redress of grievances regarding the 2024 Hawaii General Election and as per the accompanying filing.

Based on this record, Plaintiffs have satisfied the standing required by Cordery.

B. Summary Judgment

When reviewing a request to dismiss a complaint, the court's review "is based on the contents of the complaint, the allegations of which [the court] accept[s] as true and construe[s] in the light most favorable to the plaintiff. Dismissal is improper unless it appears beyond doubt that the plaintiff can prove no set of facts in support of his claim which would entitle him to relief." Casumpang v. ILWU, Local 142, 94 Hawaiʻi 330, 337, 13 P.3d 1235, 1242 (2000) (quotation marks and citation omitted).

The court's consideration of matters outside the pleadings converts a motion to dismiss into one for summary judgment. Foytik v. Chandler, 88 Hawaiʻi 307, 313, 966 P.2d 619, 625 (1998).

Summary judgment is appropriate where there is no genuine issue as to any material fact and the moving party is entitled to judgment as a matter of law. Estate of Doe v. Paul Revere Ins. Group, 86 Hawaiʻi 262, 269-70, 948 P.2d 1103, 1110-11 (1997).

A fact is material if proof of that fact would have the effect of establishing or refuting an essential element of a cause of action asserted by one of the parties. Winfrey v. GGP Ala Moana LLC, 130 Hawai‘i 262, 271, 308 P.3d 891, 900 (2013).

On a motion for summary judgment, this court must view the evidence in the light most favorable to the nonmoving party. State ex rel. Shikada v. Bristol-Myers Squibb Co., 152 Hawai‘i 418, 442, 526 P.3d 395, 419 (2023).

However, this "court is permitted to draw only those inferences of which the evidence is reasonably susceptible and it may not resort to speculation." Winfrey, 130 Hawai‘i at 271, 308 P.3d at 900 (quoting Pioneer Mill Co. v. Dow, 90 Hawai‘i 289, 295, 978 P.2d 727, 733 (1999)).

Pursuant to HRS § 11-174.5(b) (Supp. 2021), this court's Judgment may invalidate the general election contest for Kaua‘i County Councilmember "on the grounds that a correct result cannot be ascertained because of a mistake or fraud on the part of the voter service center officials; or decide that a certain candidate, or certain candidates, received a majority or plurality of votes cast and were elected."

An election complaint may allege an overage that could cause a difference in the election results of a race. See HRS § 11-172.

Plaintiffs' Complaint states a claim under HRS § 11-172 because Plaintiffs assert there is a mail ballot overage of 3,772 ballots that could cause a difference in the 2024 General Election results for Kaua'i County Councilmember. Plaintiffs later asserted there is an overage of 442 mail ballots using updated data provided by County, and then 661 mail ballots when adding uncured envelopes.

"Overage" and "underage" are defined by HRS § 11-153 (Supps. 2019 & 2021), which states in its entirety:

> (a) If there are more ballots than documented usage indicates, this shall be an overage and if fewer ballots, it shall be an underage. The election officials or counting center employees responsible for the tabulation of ballots shall make a note of this fact on a form to be provided by the chief election officer. The form recording the overage or underage shall be sent directly to the chief election officer or the clerk in county elections separate and apart from the other election records.
>
> (b) If the electronic voting system is being used in an election, the overage or underage shall be recorded after the tabulation of the ballots. In an election using the paper ballot voting system, the chief election officer or the chief election officer's designee shall proceed to count the votes cast for each candidate or on a question after recording the overage or underage.
>
> (c) The chief election officer or the clerk shall make a list of all precincts in which an overage or underage occurred and the amount of the overage or underage. This list shall be filed and kept as a public record in the office of the chief election officer or the clerk in county elections.
>
> An election contest may be brought under part XI, if the overage or underage in any precinct could affect the outcome of an election.

(Emphasis added.)

Overage and underage are also defined in HAR § 3-177-750, which states:

> §3-177-750 Electronic voting systems; documentation of overages and underages; records. The voted ballots shall be kept secure and handled only in the presence of representatives not of the same political party or official observers. If there are more ballots than documented usage indicates, this shall be an overage and if fewer ballots, it shall be an underage. Any overages or underages in any district shall be documented. The list of any such overages or underages shall be filed and kept as a public record in the office of the chief election officer or the clerk in county elections. After all ballots have been tabulated, they shall be sealed in containers.

(Emphasis added.)

Additionally, HAR § 3-177-769 states:

> §3-177-769 Reconciliation of voted ballots. (a) The clerk shall prepare a reconciliation of voted mail and voter service center ballots recorded on a form prescribed by the chief election officer. The form shall summarize the following totals by precinct:
>
> (1) Walk-in voter service center ballots;
>
> (2) Valid mail return identification envelopes; and
>
> (3) Invalidated mail ballots.
>
> (b) If there are more ballots than documented usage indicates, this shall be an overage and if fewer ballots, it shall be an underage.

(Emphasis added.)

Reading "documented usage" in context with the plain language of the above statutes and administrative rules shows that "documented usage" refers to ballots ("[i]f there are more ballots than documented usage indicates") and not ballot envelopes. See Tax Found., 144 Hawai‘i at 193, 439 P.3d at 145

(stating that, when construing a statute, our foremost obligation is to ascertain and give effect to the intention of the legislature, which is to be obtained primarily from the language contained in the statute itself, and we must read statutory language in the context of the entire statute and construe it in a manner consistent with its purpose).

With that in mind, Plaintiffs' reliance on the data used to calculate their 3,772 or 442 overage mail ballot amount is unavailing because Plaintiffs disregard the "Disclaimer" at the bottom of each page of the data they use. This "Disclaimer" appears on the County forms and expressly states that "[f]igures on this form represent a manual count of envelopes - not the number of ballots counted." (Emphases added.)

The Declaration attached to County's motion explained that this data is used for County's internal staffing needs. This data is not used to calculate overages and underages pursuant to HRS § 11-153.

Moreover, Nago's Declaration states that the envelopes remain sealed and are not opened until the envelopes are transferred to a state-operated counting center. The envelopes are then opened at the state-operated counting center.

It is thus unreasonable to infer an amount of overage ballots from these County forms. See Winfrey, 130 Hawai‘i at 271, 308 P.3d at 900 (observing that this court is permitted to

draw only those inferences of which the evidence is reasonably susceptible and it may not resort to speculation).

HRS § 11-96 (2009), which Plaintiffs rely on, states:

> Every record made pursuant to law by a board of registration of voters, or the precinct officials, shall be a prima facie evidence of the facts therein set forth, and shall be received as such in any court or tribunal in which the same is offered in evidence.

Even if HRS § 11-96 applies to the County forms, the County forms are prima facie evidence of the amount of envelopes. The County forms do not constitute prima facie evidence of the amount of ballots due to the Disclaimer appearing on those forms. See HRS § 11-96.

Plaintiffs' reliance on HRS § 11-104(d) (Supp. 2023) is similarly unavailing. HRS § 11-104(d) states: "Once a voter has returned a return identification envelope containing the secrecy envelope or secrecy sleeve with the marked ballot, that voter's ballot shall be deemed cast and may not be recast in the election." (Emphasis added.)

Even if the amount of envelopes recorded on the County forms were construed to be the amount of return identification envelopes, the County forms do not reflect whether those return identification envelopes contained a secrecy envelope or sleeve "with the marked ballot," see HRS § 11-104(d), because the disclaimer on the County forms expressly states that the County forms do not represent "the number of ballots counted."

Moreover, even if these County forms are prima facie evidence of ballots notwithstanding the Disclaimer, Plaintiffs' assertion that there is an overage amount that could have caused a difference in the election results is belied by Plaintiffs' December 12, 2024 Memorandum in Support that states there were 27,036 envelopes transferred from County to the State counting center. The difference between 27,075 ballots and 27,036 envelopes is 39, which is clearly less than the 108 vote difference between the seventh-place candidate (Fern Anuenue Holland) and eighth-place candidate (Ross Kagawa) in the 2024 General Election for Kauaʻi County Councilmember.

According to the State's data, for all Kauaʻi County precincts, there is a total of 25 overage mail ballots. The State's data confirms that the amount of overage for mail ballots will not cause a difference in the results of the Kauaʻi County Councilmember race.

Even when viewing the evidence in a light most favorable to Plaintiffs, there is no genuine issue of material fact of an overage that could cause a difference in the 2024 General Election results for Kauaʻi County Councilmember. See HRS § 11-172.

C. Plaintiffs' Memoranda in Support

Plaintiffs' December 10 and 12, 2024 Memoranda in Support is an attempt to amend its Complaint. Rather than rely only on

the County forms to assert that an overage exists, Plaintiffs now seek to rely on an email to assert there are 219 uncured envelopes in addition to the ballot envelope figures provided by the County forms. In doing so, Plaintiffs make no discernable argument explaining why the uncured ballots should be counted as an overage ballot.

Plaintiffs attached an email string to their December 10 Memorandum in Support with emails dated December 9, 2024. One of these emails appears to be from the Kauaʻi County Elections Division and states: "The final number of uncured envelopes is 219 for the 2024 General election."

But the final number of uncured envelopes in Kauaʻi County could have been discovered earlier, before the November 25, 2024 deadline to file a general election contest. See HRS § 11-106 (Supp. 2023) (stating in part that a voter "shall have five business days after the date of the election to cure the deficiency").

The General Election occurred on November 5, 2024. Plaintiffs' Complaint was filed on November 25, 2024. Rather than include the 219 uncured envelope argument in the Complaint, the Complaint instead states: "The records do not show that any number of voted ballot envelopes were separated for curing and not forwarded to the state counting center from the county."

County and the State filed their responses to the Complaint on December 4 and 5, 2024, respectively. Plaintiffs did not file a Memorandum in Support until December 10, 2024, or after County and State filed their responses to the Complaint.

"All pleadings in applications for writs or other relief, filed originally in the supreme court, shall conform to the requirements of Hawai‘i Rules of Civil Procedure 7 through 15." Hawai‘i Rules of Appellate Procedure Rule 16 (eff. 2000).

Rule 15(a)(1) of the Hawai‘i Rules of Civil Procedure (HRCP) states that a party "may amend the party's pleading once as a matter of course at any time before a responsive pleading is served[.]" Otherwise, "[i]n all other cases, a party may amend the party's pleading only by leave of court or by written consent of the adverse party; and leave shall be freely given when justice so requires." HRCP Rule 15(a)(2) (eff. 2012).

In civil lawsuits, this court applied HRCP Rule 15(a)(2) in a manner that "leave to amend a complaint shall be freely given and . . . undue delay alone is an insufficient basis for denying leave to amend a complaint." Carvalho v. AIG Hawai‘i Ins. Co., Inc., 150 Hawai‘i 381, 387, 502 P.3d 482, 488 (2022).

But this isn't an ordinary civil lawsuit. This is an election contest. This court must hear the general election complaint "as soon as it reasonably may be heard." HRS § 11-174.5(b) (Supp. 2021). In a primary election contest, this

court's decision must be issued within four days after the defendant's answer to the complaint is filed. See HRS § 11-173.5(b) (2009).

And the defendants are mandated with answering a complaint within ten days after service of the summons in a general election contest. HRS § 11-174.5(a) (2009). The defendants have five days after service of the summons to answer a primary election complaint. HRS § 11-173.5(a) (Supp. 2019) & Act 1 (March 5, 2024) (to be codified at HRS § 11-173.5(a)) (deleting language concerning primary election contests arising from a mandatory recount).

The election statutes are framed in a manner that mandates a quick resolution of each general and primary election complaint that is brought before this court. See HRS §§ 11-173.5, 11-174.5. As Plaintiffs themselves point out in their Motion for Interrogatories, certification of the results of a general election race is delayed due to a general election contest. See HRS § 11-174.5(b) (discussing the options that this court's Judgment may do to a general election); see also HRS § 11-155 (Supp. 2022) (certification).

Allowing amendments to an election complaint to be freely given under HRCP Rule 15(a)(2) is inconsistent with the quick decisions that this court is mandated to make on general and primary election complaints under HRS §§ 11-173.5 and 11-174.5,

and further delaying election certification due to an amended election complaint does not benefit the public's interest. We thus deny Plaintiffs' attempt to amend their Complaint through their December 10 and 12 Memoranda in Support.

D. Motion for Interrogatories

As for Plaintiffs' motion for interrogatories, an election contest is not intended to be used to delay certification of an election and thereafter raise issues concerning acts that may have been taken prior to certification. See HRS § 11-172 (concerning the basis of an election complaint).

Nor is an election contest intended to be used as a discovery device concerning the consequences of a delayed certification. See id.

Plaintiffs' motion for interrogatories is denied.

JUDGMENT

Based on the foregoing findings of fact and conclusions of law, Judgment is entered in favor of the State and County, and against Plaintiffs.

DATED: Honolulu, Hawai'i, December 20, 2024.

STATE OF HAWAII
OFFICE OF ELECTIONS
802 LEHUA AVENUE
PEARL CITY, HAWAII 96782
elections.hawaii.gov

SCOTT T. NAGO
CHIEF ELECTION OFFICER

March 17, 2025

Chair Curtis and Members of the Elections Commission
c/o Office of Elections
802 Lehua Avenue
Pearl City, HI 96782

Dear Chair Curtis and Members of the Elections Commission:

Our office has heard various concerns related to the handling of ballots by the county clerks prior to their receipt at our State counting center. They have come in the form of lawsuits, correspondence with our office, and correspondence with the Elections Commission taking issue with various aspects of what these concerns term "chain of custody." In response, our office would like to provide an overview of the roles of the Office of Elections and county clerks, and the associated transfer of materials from the county to the State.

I. ROLES OF THE OFFICE OF ELECTIONS AND THE COUNTY CLERKS

The roles and responsibilities in the administration of elections in Hawaii are divided between State and county offices.

The Office of Elections is a State agency administratively attached to the Department of Accounting and General Services that provides support to the Chief Election Officer. *See* HRS § 11-1.5. As provided for in Article IV, Section 3, of the Hawaii State Constitution, the Legislature has established specific statutory responsibilities of the Chief Election Officer that are found in Title 2, HRS.

At the county level, there are the county clerks who are appointed by their respective county councils and have duties and responsibilities based on their county charters, along with specific state laws, a significant portion of which involve the conduct of elections.

The regularly scheduled primary election and general election are considered combined federal, state, and county elections in which federal, state, and county contests, along with questions, appear on the same ballot. Since 2020, all elections are

required to be conducted by mail, with accommodations for voting in person at designated voter service centers. *See* HRS §§ 11-101 and 11-109.

The duties and responsibilities of the Office of Elections and county clerks in these types of elections are primarily summarized in HRS §§ 11-110(b)(1)(A) & (B). Specifically, "[t]he counties shall be responsible for voter registration, absentee voting, voter service centers, places of deposit, and the mailing and receipt of ballots," while "[t]he State shall be responsible for the printing and counting of ballots. *Id.* The counting of ballots occurs at State counting centers operated by the Office of Elections. *See* HRS § 16-41. One of the benefits of the roles and responsibilities of election officials being divided is that it naturally establishes checks and balances of the processes such that there is no single entity completing all tasks and reconciliation.

As an example, the counties receive, validate, and track return identification envelopes, from voters using the statewide voter registration system. From there, the validated return identification envelopes are transferred to the State-operated counting center to open, process, and count. As voted ballots are processed at the counting center, our office compares the number of return envelopes accounted for in the statewide voter registration system to the number of voted ballots counted by the voting system.

II. TRANSFER BETWEEN COUNTY AND STATE

As provided for in HRS § 11-102, election officials "mail a ballot package by non-forwardable mail to each registered voter[,]" except for those who are "identified as having an outdated or non-deliverable mailing address." The ballot package itself includes: (1) the ballot, (2) return identification envelope; and (3) secrecy sleeve. Voters are also able to choose to vote at a voter service center. *See* HRS § 11-109.

The statewide voter registration system tracks the issuance of ballots for both mail and in-person voting. In terms of mail voting, the return identification envelope includes a barcode with a unique identifier associated with each voter. Return identification envelopes are scanned by the county clerks as part of the validation process and the statewide voter registration system is updated to reflect the receipt of the return identification envelopes. The system can also track other situations. For example, it can track if a previously validly issued ballot needs to be invalidated, such as when a voter changes address and requires a new ballot associated with the contests in their new community to be issued to them and the previously issued ballot to be invalidated.

For in-person voting, the issuance of a ballot to a voter at a voter service center is tracked by the statewide voter registration system. The voter directly casts the ballot in the voting machine, which scans it and drops it into a secure ballot box. Ballots issued at a voter service center are simultaneously considered received for purposes of the statewide voter registration system in terms of crediting the voter with having voted.

This tracking mechanism in the statewide voter registration system effectuates the language of HAR § 3-177-453(b) (i.e. "The clerk shall maintain a complete and current count of all marksense ballots issued, spoiled, and received in their county. The accounting of marksense ballots by the clerk shall be recorded on forms prescribed by the chief election officer). In other words, the "form" is electronic in that the county clerks interact with the statewide voter registration system for purposes of tracking the issuance, receipt, and spoiling of ballots.

The validated return identification envelopes are transferred by the county clerks to the State for purposes of opening and counting at the State counting center, along with the ballots that were already processed by the voting machines at the voter service centers. The amount of return identification envelopes and voter service center ballots are known values due to the previously mentioned statewide voter registration system that the county clerks interact with to track the ballots.

While the transfer of return identification envelopes and voter service center ballots is the responsibility of the county clerks, we seek to work collaboratively with their offices to conduct honest and efficient elections. As an outline, first, the county clerks secure the voted materials (e.g., return identification envelopes, voted ballot containers). Second, they transfer these items using Official Observers as witnesses to the State counting center. This typically involves a handoff at the county clerk's office to a team of election officials and Official Observers who take custody of the items.

To emphasize, the counties know the exact number of ballots transferred to the counting center, due to the previously noted statewide voter registration system. In terms of the documentation of the transfer, each county does it in their own way (e.g. some additionally indicate in their documentation the number of envelopes in their documentation, while others do not). The documentation itself consists of either the counties using the State's multi-purpose Certification of Sealing/Unsealing form, which

is a form used within the State's counting center, or creating its own paperwork to accompany the ballots.[1]

At the counting center, the return identification envelopes are opened, and the voted ballots are scanned by the vote counting system and securely stored. However, this does not apply to those having invalid ballot conditions. Invalid ballot conditions which stop a ballot from being counted, such as the envelope or secrecy sleeve is returned without a ballot or the voter returned two voted ballots (e.g. two household members accidentally enclose both of their ballots in a single return identification envelope) are tracked. Ballots invalidated at the counting center are not counted and are securely maintained by the Office of Elections.

2024 General Election Seal Certification Forms

The documents related to the transfer of ballots from the county clerks to our State counting centers are enclosed.

The County of Hawaii used the State's Certification of Sealing/Certification of Unsealing form to transfer materials to the State counting center. The form is a multipurpose form that can be used for various containers and associated content. The Certification of Sealing/Certification of Unsealing documents reflect the documents that a reasonable search of our records have produced that could have been used in connection with the transfer of ballots from the county to the State counting center. All of them have been provided, and they have been bates stamped HAWAII 001 to HAWAII 114.

The County of Maui used the State's Certification of Sealing/Certification of Unsealing form to transfer materials to the State counting center. The form is a multipurpose form that can be used for various containers and associated content. The Certification of Sealing/Certification of Unsealing documents reflect the documents that a reasonable search of our records have produced that could have been used in

[1] The Certification of Sealing/Unsealing form addresses various procedural matters and is found on pages 33, 51, 57, 83, 100, 108, and 125 of our 2024 Counting Center manual. *Counting Center*, Office of Elections, https://elections.hawaii.gov/wp-content/uploads/2024-Counting-Center-manual.pdf, Accessed 12 Mar. 2025. For example, seals are used in conjunction with the documentation of the sealing and unsealing of the following: (1) ballot transport containers (BTCs); (2) discard boxes; (3) equipment transport containers (ETCs); (4) security cages; (5) voted ballot containers (VBCs); (6) written vDrive cans; and (7) other containers. The contents of these items could include the following: (1) certified results; (2) County USB archives; (3) defective ballots; (4) duplicate ballot stock; (5) invalidated ballots; (6) test ballots; (7) test results; (8) unprocessed control packets; (9) vDrives (blank); (10) vDrives (test & accumulation); (11) vDrives (written & audit); (12) Verity Transmit devices; (13) voted ballots (counted); (14) voted ballots (uncounted); and (15) other items.

connection with the transfer of ballots from the county to the State counting center. All of them have been provided, and they have been bates stamped MAUI 001 to MAUI 036.

Our review of these documents reflected that some of the documents concerning the transfer of validated mail ballots, as opposed to voter service center ballots, that we expected to see were not present and may have been misplaced due to human error. We contacted the County of Maui, and it confirmed the process by which it would use the Certification of Sealing/Certification of Unsealing document each time it sealed validated return identification envelopes for transfer. Likewise, we confirmed with counting center staff that they unsealed the containers and filled out the Certification of Sealing/Certification of Unsealing forms as they had in prior elections. The forms ultimately should have been placed in the cut seals envelope, but our search of those envelopes does not reflect the forms.

We would emphasize that this human error appears to have resulted from the volume of forms and documents handled in the course of the election and is not indicative of a systemic issue or breach in the security of the ballots. Election processes are purposefully layered for redundancies. In this and all instances related to the security of the handling of the return envelopes, the county clerks maintain a record of the number of envelopes accepted through the statewide voter registration system on a regular (e.g., daily) basis. Likewise, our office tracks the number of voted ballots counted by the voting system on the dates of counting.

The County of Kauai used their own forms for the transfer of mail ballots, while using the State's Certification of Sealing/Certification of Unsealing forms for voted ballots from the voter service centers. As such, the county created forms, and all of the Certification of Sealing/Certification of Unsealing forms have been provided. They have been bates stamped KAUAI 001 to KAUAI 023.

The City and County of Honolulu used their own forms for the transfer of mail ballots and voter service center ballots. They have been bates stamped CITY 001 to CITY 159. The documentation of ballots associated with the transfer of mail ballots involved two forms. The first is their seal certification form. To the extent the form indicated a security cage or another container held uncounted ballots from its AIPA location, there was a corresponding form entitled "Mail Ballot Transfer Form," which would repeat the name of the container, indicate the number trays, and state the number of envelopes. This would be followed by a sheet of paper indicating each individual tray and how many envelopes were in each tray. Otherwise, the seal certification form was used to transfer voted ballots from its voter service centers. The form would indicate if the location was Honolulu Hale, Kapolei Hale, Kaneohe District

Park, or Wahiawa District Park. Please note that in relation to Seal No. 2456635 (CITY 156 to CITY 159), while it was originally sealed using the City's form, the unsealing of it was documented on the State's form. Otherwise, the unsealing of the City's ballots at the State counting center was done using the original form that had been used to document the initial sealing.

2024 General Election Over/Under Report

Throughout the election, officials regularly track the number of return identification envelopes accounted for in the statewide voter registration system and the number of voted ballots counted by the vote counting system. The final reconciliation, or the Over/Under Report, of the 2 systems is compiled after each election in relation to the certification of the results. The 2024 General Election Over/Under Report is enclosed.

The reconciliation process in which we compare the number of ballots received and validated by the county clerks as documented in the statewide voter registration system against the number of ballots our office counted is one of the safeguards we follow to ensure chain of custody – or the handling, accounting, and security of the ballots. The information in the statewide voter registration system as to who voted is supported by the signed return identification envelopes for all voters who voted by mail and the in-person applications signed by all voters who voted in person. Likewise, the election results are supported by the actual ballots that have been preserved. We would note that the accounting of mail ballots is adjusted to address invalid ballot conditions that were recorded during the ballot opening process at the State counting centers.

As a summary of the 2024 General Election Over/Under report, the table below provides a cumulative comparison on the number of return envelopes received by the county clerk (i.e., Adj. Mail Total, Walk Turnout) as compared to the number of ballots counted at the State-operated counting centers (i.e., Mail Prec. Report, In-Person Prec. Report):

	Adj. Mail Total	Mail Prec. Report	Walk Turnout	In-Person Prec. Report
County of Hawaii	76,587	76,595	7,091	7,091
County of Maui	57,681	57,713	5,860	5,860
County of Kauai	27,050	27,075	3,484	3,491
City and County of Honolulu	321,734	321,695	22,698	22,716

Total (Statewide)	483,052	483,078	39,133	39,158

III. CONCLUSION

Recently, the issue of election integrity has been raised by some who allege what they see as "chain of custody" concerns. The processes by which Hawaii election officials maintain "chain of custody" come in many shapes and forms, all of which have merit and credibility. Our election officials, at all levels, work with the utmost integrity and dignity to ensure secure and accurate elections.

Among the allegations is a concern that there is a lack of transparency in the transfer of materials from the county to the State. However, any discussion regarding any alleged risks or opportunities for tampering with our elections first requires an understanding of how our elections operate and the procedures and safeguards that are in place. For example, when someone seeks to review and challenge a single process in isolation, they might not appreciate that the election has to be viewed in totality and that a check may already have been applied or will be conducted later in the process to address the issue they are concerned about. The layered safeguards and intentional checks election officials implement as part of their election processes are meant to work together to prevent and identify issues.

These processes include division of responsibilities between the county clerk and State Office of Elections as well as the tracking, accounting for, and securing ballots by hundreds of county and State election officials and volunteers, statewide. As we strive for excellence with each election, we will continue to work with the county clerks to refine the process of transferring materials between entities.

Finally, we would emphasize that there are provisions to file election contests with the Hawaii Supreme Court to resolve anomalies that challenge the accuracy and integrity of the results. Specifically, complaints in such cases are required to "set forth any cause of causes, such as but not limited to, provable fraud, overages, or underages, that could cause a difference in the election results." *See* HRS §11-172. Allegations regarding "chain of custody" must necessarily allege provable fraud, overages, or underages that could cause a difference in the election results.

If you have any questions, please feel free to contact me at (808) 453-VOTE (8683).

Very truly yours,

SCOTT T. NAGO
Chief Election Officer

MICHAEL CURTIS
ELECTIONS COMMISSION CHAIR

STATE OF HAWAII
ELECTIONS COMMISSION

MINUTES

REGULAR MEETING OF THE ELECTIONS COMMISSION

March 19, 2025 @ 10:00 AM

Pursuant to Section 92-3.7, Hawaii Revised Statutes, the Elections Commission (EC) will be meeting remotely using interactive conference technology.

Commissioners in Attendance:

Michael Curtis, Chair
Dylan Andrion
Anita Aquino
Ralph Cushnie
Jeffrey Kuwada
Clare McAdam
Jeffrey Osterkamp
Kahiolani Papalimu

Support Staff in Attendance:

Jordan Ching, Department of the Attorney General (AG)
Jazelle Aolahiko, Office of Elections
Scott Nago, Office of Elections
Aaron Schulaner, Office of Elections
Aulii Tenn, Office of Elections

PROCEEDINGS

I. Call to Order [10:00 a.m.]

The regular meeting of the Elections Commission was called to order by Chair Curtis.

DRAFT

II. Roll Call and Determination of a Quorum [10:00 a.m.]

All members of the Elections Commission were present at the meeting with the exception of Commissioner Young.

Commissioner Osterkamp entered the meeting at 10:01 a.m. and Commissioner Kuwada entered the meeting at 10:07 a.m.

III. Approval of the Written Minutes from the January 15, 2025 meeting [10:00 a.m.]

Commissioner McAdam moved to approve the minutes. The motion was seconded by Commissioner Cushnie. [10:00 a.m.]

Commissioner Cushnie moved to amend the minutes to add Scott Nago, Aaron Schulaner, and Aulii Tenn to the list of attendees. The motion was seconded by Commissioner Andrion and **carried** unanimously noting the excused absence of Commissioner Kuwada and Commissioner Young. [10:01 a.m.]

Commissioner Aquino moved to amend the minutes to include "composed of members of the legislature and elections commission" to Commissioner Young's motion made at 1:29 pm regarding the creation of the bipartisan task force. The motion was seconded by Commissioner Cushnie and **carried** unanimously noting the excused absence of Commissioner Kuwada and Commissioner Young. [10:03 a.m.]

IV. Communications & Correspondence, Received for the Record [10:05 a.m.]

Commissioner McAdam moved to receive Communications & Correspondence for the record. The motion was seconded by Commissioner Kuwada and **failed** noting the excused absence of Commissioner Young. [10:09 a.m.]

YES: Kuwada, McAdam, Osterkamp, Curtis

NO: Andrion, Aquino, Cushnie, Papalimu

Commissioner Cushnie moved to amend the motion to receive and discuss the written Communications. The motion was seconded by Commissioner Andrion and **failed** noting the excused absence of Commissioner Young. [10:11 a.m.]

YES: Andrion, Aquino, Cushnie, Papalimu

NO: Kuwada, McAdam, Osterkamp, Curtis

V. Matters of Public Record [10:15 a.m.]

DRAFT

VI. Records Request; Refer to OIP [10:15 a.m.]

VII. Results of the Audit of HD 37 from the 2022 General Election [10:17 a.m.]

Andy Crossland provided testimony urging the Commission to vote on investigating official complaints regarding election issues like chain of custody and discrepancies in ballot counts between the counties and the state.

Jamie Detwiler provided testimony expressing concerns about delays in the audit process for District 37 and the lack of communication from the Office of Elections, as well as inconsistencies in the chain of custody procedures during the transportation and handling of ballots, urging the Commission to improve communication and oversight in future elections.

Tara Rojas provided testimony criticizing the Commission for silencing public input and failing to address formal complaints, calling for immediate intervention, an independent review, and the restoration of public trust and transparency.

Karl Dicks provided testimony presenting footage and evidence, criticizing the use of plastic bins for ballot storage, claiming it compromised election security, and stated that his formal complaints have been ignored, asserting that the elections are fraudulent.

Shelby Billionaire provided testimony expressing frustration over the lack of progress on election bills, criticized the influence of party control on the legislative process, and announced the creation of a new political party, the Ohana Unity Party, to challenge the current system.

AnnMarie Hamilton provided testimony criticizing the weaknesses in Hawaii's election chain of custody, highlighted a case of ballot discrepancies in Kauai, and called on the Commission to investigate and address potential fraud and vulnerabilities in the system.

Doug Pasnik testified about the failure to reconcile election records and procedural errors in the 2024 general election, urging the Commission to investigate and enforce compliance with election laws.

Nolan Chang testified about issues with the chain of custody, signature verification, and the lack of transparency and accountability in Hawaii's election process, offering several recommendations for improvement.

Jenn Hunt provided testimony expressing frustration over the lack of action on her formal complaint regarding chain of custody violations, missing official observers, and the disregard for election laws, particularly in Maui County.

Keone Payton provided testimony reiterating concerns about the broken chain of custody in elections, calling for an investigation and criticizing those who support the current system.

Lindsay Kamm provided testimony sharing concerns about the lack of chain of custody documentation for election envelopes, urging an investigation and improvements to the system for better transparency.

Kellyna Campbell provided testimony expressing frustration that the people's concerns are not being addressed, highlighting a breach of trust by public officials and urging accountability.

Jaerick Medeiros provided testimony expressing frustration that complaints about chain of custody and election procedures are being ignored, warned that officials will be held personally accountable, and criticized the current political system in Hawaii.

Marcin Wyszogrodzki provided testimony questioning how the elections were certified without proper chain of custody and criticized public officials for not listening to the public's concerns.

Wallyn Christian provided testimony raising concerns about a violation of the Hawaii Constitution regarding party identification on ballots and the broken chain of custody, calling for accountability and investigation.

Haunani Kahea provided testimony expressing concerns about election integrity, called for a recount with honest people, criticized the board for ignoring public testimony, and demanded accountability for Scott Nago.

Jenn Hunt provided additional testimony requesting that her official complaint be moved to the correct category, as it is not a records request but concerns her efforts to obtain chain of custody information from the Maui County Clerk's office.

Victoria provided testimony raising concerns about the failure to follow proper election processes, questioned the Elections Commission's competence, and stated she would file charges for fraud and theft.

Mary Healy provided testimony calling for election system reforms, including firing Scott Nago, implementing watermarked ballots, removing drop boxes, and securing elections in Hawaii ahead of the 2026 elections.

Jennifer Cabjuan testified about a chain of custody issue involving her father's vote in 2020, requesting an investigation into the ballot envelope and supporting reforms like one-day voting, paper ballots, and voter ID.

Robyn McCreary provided testimony supporting the idea of watermarking ballots, suggested one-day voting with no internet access, and offered to help run a voting location.

Commissioner Cushnie moved to subpoena all ballot batch reports for the 2022 General Election. The motion was seconded by Commissioner Andrion and **failed** noting the excused absence of Commissioner Young. [11:37 a.m.]

YES: Andrion, Aquino, Cushnie, Papalimu

NO: Kuwada, McAdam, Osterkamp, Curtis

VIII. HAR 3-170-7 Official Complaints, Assign Task Force to Determine Validity & Recommend Formal Investigation [11:42 a.m.]

Commissioner Cushnie moved to form a permitted interaction group (PIG) to investigate chain of custody complaints on Kauai and elections results discrepancies on the Big Island. The motion was seconded by Commissioner Papalimu and **carried** noting the excused absence of Commissioner Young. [11:44 a.m.]

YES: Andrion, Aquino, Cushnie, McAdam, Osterkamp, Papalimu, Curtis

NO: Kuwada

Deputy AG Jordan Ching explained the process of forming a PIG under the Sunshine Law. The PIG allows board members to investigate and present findings, but it must be defined, voted on, and have a clear scope and authority. When a PIG concludes its investigation, it presents findings and recommendations at a subsequent meeting, and the Commission would not be able to vote or comment until a subsequent meeting follows that.

Ching clarified that the PIG does not have separate subpoena powers. Any subpoena requests made by the PIG would need to be presented to the Commission for approval, in compliance with the Commission's existing subpoena powers. This means the PIG cannot unilaterally subpoena documents or responses. Subpoena decisions must be made at an agenda-approved meeting.

Additionally, Ching noted that while non-Commission members can participate in a PIG, they would not have special authority. The Commission must define the scope of each member's authority, including non-Commission participants, for the PIG.

Commissioner Papalimu made a motion to limit the membership of the PIG to only Election Commissioners. The motion was seconded by Commissioner Aquino and **failed** noting the excused absence of Commissioner Young. [12:08 p.m.]

YES: Andrion, Aquino, Cushnie, Kuwada, McAdam, Osterkamp, Curtis

NO: Papalimu

Commissioner Cushnie moved to appoint Commissioners Osterkamp, McAdam, and Papalimu to the PIG, investigating election results discrepancies on the Big Island. The motion was seconded by Commissioner Papalimu and **carried** unanimously noting the excused absence of Commissioner Young. [12:14 p.m.]

Commissioner Cushnie moved to appoint Commissioner Young, Commissioner Aquino, and Lindsay Kamm to the PIG, investigating the chain of custody complaints and any other irregularities on Kauai. The motion was seconded by Commissioner Andrion and **carried** noting the excused absence of Commissioner Young. [12:18 p.m.]

YES: Andrion, Aquino, Cushnie, Kuwada, McAdam, Papalimu, Curtis

NO: Osterkamp

IX. Formal Complaint Regarding Signed Certificate before Certification [12:25 p.m.]

Tara Rojas provided testimony criticizing the commission for not listening to the public, calling the meetings unproductive and accusing members of bullying and shutting down opposing voices.

Wallyn Christian provided testimony criticizing Chair Curtis for appointing individuals that sway the commission in favor of one side and for not allowing people's voices to be heard, urging that board members should be elected, not appointed.

Keone Payton provided testimony criticizing Chair Mike Curtis for his handling of complaints, claiming he is not following proper procedures and is acting in a biased manner, urging his removal from the commission.

Jaerick Medeiros provided testimony expressing frustration with the commission's decisions, criticizing certain members for blocking progress, acting against the people, and making biased, unilateral choices.

Shelby Billionaire provided testimony expressing frustration with the commission's actions, criticizing political bias, corruption, and a lack of

adherence to laws and the state constitution, while urging for change to better serve the public.

Victoria provided testimony emphasizing the importance of consulting and ensuring qualifications for appointees, suggested offering the public an opportunity to apply, and recommended that voters should have a say in the appointments.

Wendy Balidoy provided testimony expressing frustration with the meeting's lack of participation, criticized Chair Curtis's leadership, and called for more attention to the people's concerns over party influence.

Nicole Berinobis provided testimony calling for the removal of Mr. Curtis, accusing him of corruption, bias, and obstructing transparency in the election process, and supported Ralph for his efforts in addressing these issues.

Lindsay Kamm provided testimony expressing uncertainty about her involvement in the committee, leaving the decision to the group, and noted that she was unsure of the proceedings.

Jenn Hunt provided testimony requesting that her formal complaint about chain of custody be moved to the proper category for review, as it was mistakenly filed under the wrong category.

Jessica Priya provided testimony expressing frustration with the meeting's conduct, criticizing the lack of accountability and responsiveness to the people's concerns, and called out the Chair for disregarding their voices.

Karl Dicks provided testimony emphasizing that while the Chair can appoint members to the committee, objections should lead to opening the floor for nominations, following Robert's rules of order.

Commissioner Cushnie moved to have the Deputy Attorney General answer Doug Pasnik's question if it was lawful for Scott Nago to certify an election before it was certified. The motion was seconded by Commissioner Andrion and **failed** noting the excused absence of Commissioner Young. [1:00 p.m.]

YES: Andrion, Aquino, Cushnie, Papalimu

NO: Kuwada, McAdam, Osterkamp, Curtis

X. Adjournment [1:04 p.m.]

Chair Curtis adjourned the meeting at 1:04 p.m.

Respectfully submitted,

Jazelle Aolahiko
Elections Commission Secretary

DRAFT

April 11, 2025

Office of the County Clerk, Kauai
Jade Fountain-Tanigawa
4386 Rice Street, Suite 101
Lihue, HI 96766

Dear Ms. Fountain-Tanigawa:

On March 19, 2025, the Election Commission established a Permitted Interaction Group (PIG), which is tasked with obtaining documentation validating complaints received regarding ballot count irregularities on Kauai. It is also tasked with obtaining documentation from the County Clerk and the Office of Elections to counter the complaints and/or to explain the inconsistencies. That information is to be forwarded to the full Election Commission, then discussed and acted upon at a subsequent meeting. Once the Commission can verify the integrity of the election procedures, the complaints can be put to rest.

We have a letter to the Commission from Scott Nago dated March 17 (enclosed) in which he states that the checks and balances that ensure election integrity may not be apparent to observers. He states that those checks might have occurred earlier, or they might be applied later. With all due respect to all officials, that is an insufficient and unacceptable explanation. There is no point in having observers if they cannot observe all the steps in the process and if the logic of those steps is not apparent. It is not enough for Mr. Nago to say, "Our election officials work with the utmost integrity and dignity to ensure secure and accurate elections." As the saying goes, "Trust, butverify."We are attempting to verify the accuracy of the 2024 general election, and we need more documentation.

Most essential to our inquiry are the daily records of the number of ballot envelopes received by the County, the number verified, and the number transferred to the Counting Center. The daily accounts will enable us to confirm that the chain of custody was not violated. Mr. Nago states on page 3 of his March 17 letter that these "forms" (his quotes) are electronic, compiled as the County Clerk interacts with the statewide voter registration system. If that is the case, they are not visible to observers and cannot be verified. That in itself is a red flag. You cannot claim to honor transparency and accountability if only the County Clerk is privy to this information.

This Permitted Action Group is made up of Commissioner Peter Young, Chair, Commissioner Anita Aquino, and Lindsay Kamm, Kauai resident and election observer. We respectfully ask that you forward the following to our emails listed below by April 30:

1. Records of the daily count of ballot envelopes collected from drop boxes and the USPS.
2. Transfer records of ballot envelopes from the County to the State.

3. Statewide Voter Registration System records showing the daily number of ballot envelopes that were signature verified.
4. Daily logs that were used to compile over/under reports.

Sincerely,

Peter Young
[redacted]

Anita Aquino

Enclosure:
Letter from Mr. Nago to Election Commission, dated March 17, 2025

STATE OF HAWAII
OFFICE OF ELECTIONS
802 LEHUA AVENUE
PEARL CITY, HAWAII 96782
elections.hawaii.gov

SCOTT T. NAGO
CHIEF ELECTION OFFICER

March 17, 2025

Chair Curtis and Members of the Elections Commission
c/o Office of Elections
802 Lehua Avenue
Pearl City, HI 96782

Dear Chair Curtis and Members of the Elections Commission:

Our office has heard various concerns related to the handling of ballots by the county clerks prior to their receipt at our State counting center. They have come in the form of lawsuits, correspondence with our office, and correspondence with the Elections Commission taking issue with various aspects of what these concerns term "chain of custody." In response, our office would like to provide an overview of the roles of the Office of Elections and county clerks, and the associated transfer of materials from the county to the State.

I. ROLES OF THE OFFICE OF ELECTIONS AND THE COUNTY CLERKS

The roles and responsibilities in the administration of elections in Hawaii are divided between State and county offices.

The Office of Elections is a State agency administratively attached to the Department of Accounting and General Services that provides support to the Chief Election Officer. *See* HRS § 11-1.5. As provided for in Article IV, Section 3, of the Hawaii State Constitution, the Legislature has established specific statutory responsibilities of the Chief Election Officer that are found in Title 2, HRS.

At the county level, there are the county clerks who are appointed by their respective county councils and have duties and responsibilities based on their county charters, along with specific state laws, a significant portion of which involve the conduct of elections.

The regularly scheduled primary election and general election are considered combined federal, state, and county elections in which federal, state, and county contests, along with questions, appear on the same ballot. Since 2020, all elections are

required to be conducted by mail, with accommodations for voting in person at designated voter service centers. *See* HRS §§ 11-101 and 11-109.

The duties and responsibilities of the Office of Elections and county clerks in these types of elections are primarily summarized in HRS §§ 11-110(b)(1)(A) & (B). Specifically, "[t]he counties shall be responsible for voter registration, absentee voting, voter service centers, places of deposit, and the mailing and receipt of ballots," while "[t]he State shall be responsible for the printing and counting of ballots. *Id.* The counting of ballots occurs at State counting centers operated by the Office of Elections. *See* HRS § 16-41. One of the benefits of the roles and responsibilities of election officials being divided is that it naturally establishes checks and balances of the processes such that there is no single entity completing all tasks and reconciliation.

As an example, the counties receive, validate, and track return identification envelopes, from voters using the statewide voter registration system. From there, the validated return identification envelopes are transferred to the State-operated counting center to open, process, and count. As voted ballots are processed at the counting center, our office compares the number of return envelopes accounted for in the statewide voter registration system to the number of voted ballots counted by the voting system.

II. TRANSFER BETWEEN COUNTY AND STATE

As provided for in HRS § 11-102, election officials "mail a ballot package by non-forwardable mail to each registered voter[,]" except for those who are "identified as having an outdated or non-deliverable mailing address." The ballot package itself includes: (1) the ballot, (2) return identification envelope; and (3) secrecy sleeve. Voters are also able to choose to vote at a voter service center. *See* HRS § 11-109.

The statewide voter registration system tracks the issuance of ballots for both mail and in-person voting. In terms of mail voting, the return identification envelope includes a barcode with a unique identifier associated with each voter. Return identification envelopes are scanned by the county clerks as part of the validation process and the statewide voter registration system is updated to reflect the receipt of the return identification envelopes. The system can also track other situations. For example, it can track if a previously validly issued ballot needs to be invalidated, such as when a voter changes address and requires a new ballot associated with the contests in their new community to be issued to them and the previously issued ballot to be invalidated.

For in-person voting, the issuance of a ballot to a voter at a voter service center is tracked by the statewide voter registration system. The voter directly casts the ballot in the voting machine, which scans it and drops it into a secure ballot box. Ballots issued at a voter service center are simultaneously considered received for purposes of the statewide voter registration system in terms of crediting the voter with having voted.

This tracking mechanism in the statewide voter registration system effectuates the language of HAR § 3-177-453(b) (i.e. "The clerk shall maintain a complete and current count of all marksense ballots issued, spoiled, and received in their county. The accounting of marksense ballots by the clerk shall be recorded on forms prescribed by the chief election officer). In other words, the "form" is electronic in that the county clerks interact with the statewide voter registration system for purposes of tracking the issuance, receipt, and spoiling of ballots.

The validated return identification envelopes are transferred by the county clerks to the State for purposes of opening and counting at the State counting center, along with the ballots that were already processed by the voting machines at the voter service centers. The amount of return identification envelopes and voter service center ballots are known values due to the previously mentioned statewide voter registration system that the county clerks interact with to track the ballots.

While the transfer of return identification envelopes and voter service center ballots is the responsibility of the county clerks, we seek to work collaboratively with their offices to conduct honest and efficient elections. As an outline, first, the county clerks secure the voted materials (e.g., return identification envelopes, voted ballot containers). Second, they transfer these items using Official Observers as witnesses to the State counting center. This typically involves a handoff at the county clerk's office to a team of election officials and Official Observers who take custody of the items.

To emphasize, the counties know the exact number of ballots transferred to the counting center, due to the previously noted statewide voter registration system. In terms of the documentation of the transfer, each county does it in their own way (e.g. some additionally indicate in their documentation the number of envelopes in their documentation, while others do not). The documentation itself consists of either the counties using the State's multi-purpose Certification of Sealing/Unsealing form, which

is a form used within the State's counting center, or creating its own paperwork to accompany the ballots.[1]

At the counting center, the return identification envelopes are opened, and the voted ballots are scanned by the vote counting system and securely stored. However, this does not apply to those having invalid ballot conditions. Invalid ballot conditions which stop a ballot from being counted, such as the envelope or secrecy sleeve is returned without a ballot or the voter returned two voted ballots (e.g. two household members accidentally enclose both of their ballots in a single return identification envelope) are tracked. Ballots invalidated at the counting center are not counted and are securely maintained by the Office of Elections.

2024 General Election Seal Certification Forms

The documents related to the transfer of ballots from the county clerks to our State counting centers are enclosed.

The County of Hawaii used the State's Certification of Sealing/Certification of Unsealing form to transfer materials to the State counting center. The form is a multipurpose form that can be used for various containers and associated content. The Certification of Sealing/Certification of Unsealing documents reflect the documents that a reasonable search of our records have produced that could have been used in connection with the transfer of ballots from the county to the State counting center. All of them have been provided, and they have been bates stamped HAWAII 001 to HAWAII 114.

The County of Maui used the State's Certification of Sealing/Certification of Unsealing form to transfer materials to the State counting center. The form is a multipurpose form that can be used for various containers and associated content. The Certification of Sealing/Certification of Unsealing documents reflect the documents that a reasonable search of our records have produced that could have been used in

[1] The Certification of Sealing/Unsealing form addresses various procedural matters and is found on pages 33, 51, 57, 83, 100, 108, and 125 of our 2024 Counting Center manual. *Counting Center*, Office of Elections, https://elections.hawaii.gov/wp-content/uploads/2024-Counting-Center-manual.pdf, Accessed 12 Mar. 2025. For example, seals are used in conjunction with the documentation of the sealing and unsealing of the following: (1) ballot transport containers (BTCs); (2) discard boxes; (3) equipment transport containers (ETCs); (4) security cages; (5) voted ballot containers (VBCs); (6) written vDrive cans; and (7) other containers. The contents of these items could include the following: (1) certified results; (2) County USB archives; (3) defective ballots; (4) duplicate ballot stock; (5) invalidated ballots; (6) test ballots; (7) test results; (8) unprocessed control packets; (9) vDrives (blank); (10) vDrives (test & accumulation); (11) vDrives (written & audit); (12) Verity Transmit devices; (13) voted ballots (counted); (14) voted ballots (uncounted); and (15) other items.

connection with the transfer of ballots from the county to the State counting center. All of them have been provided, and they have been bates stamped MAUI 001 to MAUI 036.

Our review of these documents reflected that some of the documents concerning the transfer of validated mail ballots, as opposed to voter service center ballots, that we expected to see were not present and may have been misplaced due to human error. We contacted the County of Maui, and it confirmed the process by which it would use the Certification of Sealing/Certification of Unsealing document each time it sealed validated return identification envelopes for transfer. Likewise, we confirmed with counting center staff that they unsealed the containers and filled out the Certification of Sealing/Certification of Unsealing forms as they had in prior elections. The forms ultimately should have been placed in the cut seals envelope, but our search of those envelopes does not reflect the forms.

We would emphasize that this human error appears to have resulted from the volume of forms and documents handled in the course of the election and is not indicative of a systemic issue or breach in the security of the ballots. Election processes are purposefully layered for redundancies. In this and all instances related to the security of the handling of the return envelopes, the county clerks maintain a record of the number of envelopes accepted through the statewide voter registration system on a regular (e.g., daily) basis. Likewise, our office tracks the number of voted ballots counted by the voting system on the dates of counting.

The County of Kauai used their own forms for the transfer of mail ballots, while using the State's Certification of Sealing/Certification of Unsealing forms for voted ballots from the voter service centers. As such, the county created forms, and all of the Certification of Sealing/Certification of Unsealing forms have been provided. They have been bates stamped KAUAI 001 to KAUAI 023.

The City and County of Honolulu used their own forms for the transfer of mail ballots and voter service center ballots. They have been bates stamped CITY 001 to CITY 159. The documentation of ballots associated with the transfer of mail ballots involved two forms. The first is their seal certification form. To the extent the form indicated a security cage or another container held uncounted ballots from its AIPA location, there was a corresponding form entitled "Mail Ballot Transfer Form," which would repeat the name of the container, indicate the number trays, and state the number of envelopes. This would be followed by a sheet of paper indicating each individual tray and how many envelopes were in each tray. Otherwise, the seal certification form was used to transfer voted ballots from its voter service centers. The form would indicate if the location was Honolulu Hale, Kapolei Hale, Kaneohe District

Park, or Wahiawa District Park. Please note that in relation to Seal No. 2456635 (CITY 156 to CITY 159), while it was originally sealed using the City's form, the unsealing of it was documented on the State's form. Otherwise, the unsealing of the City's ballots at the State counting center was done using the original form that had been used to document the initial sealing.

2024 General Election Over/Under Report

Throughout the election, officials regularly track the number of return identification envelopes accounted for in the statewide voter registration system and the number of voted ballots counted by the vote counting system. The final reconciliation, or the Over/Under Report, of the 2 systems is compiled after each election in relation to the certification of the results. The 2024 General Election Over/Under Report is enclosed.

The reconciliation process in which we compare the number of ballots received and validated by the county clerks as documented in the statewide voter registration system against the number of ballots our office counted is one of the safeguards we follow to ensure chain of custody – or the handling, accounting, and security of the ballots. The information in the statewide voter registration system as to who voted is supported by the signed return identification envelopes for all voters who voted by mail and the in-person applications signed by all voters who voted in person. Likewise, the election results are supported by the actual ballots that have been preserved. We would note that the accounting of mail ballots is adjusted to address invalid ballot conditions that were recorded during the ballot opening process at the State counting centers.

As a summary of the 2024 General Election Over/Under report, the table below provides a cumulative comparison on the number of return envelopes received by the county clerk (i.e., Adj. Mail Total, Walk Turnout) as compared to the number of ballots counted at the State-operated counting centers (i.e., Mail Prec. Report, In-Person Prec. Report):

	Adj. Mail Total	Mail Prec. Report	Walk Turnout	In-Person Prec. Report
County of Hawaii	76,587	76,595	7,091	7,091
County of Maui	57,681	57,713	5,860	5,860
County of Kauai	27,050	27,075	3,484	3,491
City and County of Honolulu	321,734	321,695	22,698	22,716

Total (Statewide)	483,052	483,078	39,133	39,158

III. CONCLUSION

Recently, the issue of election integrity has been raised by some who allege what they see as "chain of custody" concerns. The processes by which Hawaii election officials maintain "chain of custody" come in many shapes and forms, all of which have merit and credibility. Our election officials, at all levels, work with the utmost integrity and dignity to ensure secure and accurate elections.

Among the allegations is a concern that there is a lack of transparency in the transfer of materials from the county to the State. However, any discussion regarding any alleged risks or opportunities for tampering with our elections first requires an understanding of how our elections operate and the procedures and safeguards that are in place. For example, when someone seeks to review and challenge a single process in isolation, they might not appreciate that the election has to be viewed in totality and that a check may already have been applied or will be conducted later in the process to address the issue they are concerned about. The layered safeguards and intentional checks election officials implement as part of their election processes are meant to work together to prevent and identify issues.

These processes include division of responsibilities between the county clerk and State Office of Elections as well as the tracking, accounting for, and securing ballots by hundreds of county and State election officials and volunteers, statewide. As we strive for excellence with each election, we will continue to work with the county clerks to refine the process of transferring materials between entities.

Finally, we would emphasize that there are provisions to file election contests with the Hawaii Supreme Court to resolve anomalies that challenge the accuracy and integrity of the results. Specifically, complaints in such cases are required to "set forth any cause of causes, such as but not limited to, provable fraud, overages, or underages, that could cause a difference in the election results." *See* HRS §11-172. Allegations regarding "chain of custody" must necessarily allege provable fraud, overages, or underages that could cause a difference in the election results.

If you have any questions, please feel free to contact me at (808) 453-VOTE (8683).

Very truly yours,

SCOTT T. NAGO
Chief Election Officer

SENT VIA EMAIL ([redacted] AND CERTIFIED MAIL

Dear Mr. Nago:

On March 19, 2025, the Election Commission established a Permitted Interaction Group (PIG), which is tasked with obtaining documentation validating complaints received regarding ballot count irregularities on Kauai. It is also tasked with obtaining documentation from the Office of Elections to counter the complaints and/or to explain the inconsistencies. That information is to be forwarded to the full Election Commission, then discussed and acted upon at a subsequent meeting. Once the Commission can verify the integrity of the election procedures, the complaints can be put to rest.

We acknowledge that in the conclusion of your March 17 letter to the Commission you stated that the checks and balances that ensure election integrity may not be apparent to observers. You stated that those checks might have occurred earlier, or they might be applied later. With all due respect, that is an insufficient and unacceptable explanation. There is no point in having observers if they cannot observe all the steps in the process and if the logic of those steps is not apparent. It is not enough to say, "Our election officials work with the utmost integrity and dignity to ensure secure and accurate elections." As the saying goes, "Trust, but verify." We are attempting to verify the accuracy of the 2024 general election, and we need more documentation.

Most essential to our inquiry are the daily records of the number of ballot envelopes received by the Counties, the number verified, and the number transferred to Counting Centers. The daily accounts will enable us to confirm that the chain of custody was not violated. You state on page 3 of your March 17 letter that these "forms" (your quotes) are electronic, compiled as the County Clerk interacts with the statewide voter registration system. If that is the case, they are not visible to observers and cannot be verified. That in itself is a red flag. You cannot claim to honor transparency and accountability if only the County Clerk is privy to this information.

This Permitted Action Group is made up of Commissioner Peter Young, Chair, Commissioner Anita Aquino, and Lindsay Kamm, Kauai resident and election observer. We respectfully ask that you forward the following to our emails listed below by April 30:

1. Records of the daily count of ballot envelopes collected from drop boxes and the USPS.
2. Transfer records of ballot envelopes from the Counties to the State.
3. Statewide Voter Registration System records showing the daily number of ballot envelopes that were signature verified.
4. Daily logs that were used to compile over/under reports.

Sincerely,

Peter Young

STATE OF HAWAII
OFFICE OF ELECTIONS
802 LEHUA AVENUE
PEARL CITY, HAWAII 96782
elections.hawaii.gov

SCOTT T. NAGO
CHIEF ELECTION OFFICER

April 25, 2025

Chair Peter Young and Members of the Permitted Interaction Group for
Ballot Count Irregularities on Kauai
c/o Office of Elections
802 Lehua Avenue
Pearl City, Hawaii 96782

Dear Chair Young and Members of the Permitted Interaction Group:

This is in response to your letter dated April 11, 2025, regarding the work of the Permitted Interaction Group (PIG) to review complaints alleging ballot count irregularities on Kauai.

As background, elections in Hawaii are administered by the Office of Elections and the Offices of the County Clerks. Our office is responsible for the printing and counting of ballots and voter education. The County Clerks handle voter registration and voting, including the mailing and receipt of ballots, and the operation of places of deposit and voter service centers. Overall, the structure of sharing responsibilities between entities creates natural checks and balances such as the comparison of the number of voters who cast their vote in the election – maintained by the County Clerk, to the number of voted ballots counted – compiled by the Office of Elections. This separation of responsibilities also reflects a separation in the maintenance of records and procedures.

Additionally, it is important to note that the statutes and rules related to the administration of elections must be applied in context. For example, the designation of Official Observers, as provided by Chapter 16 in the Hawaii Revised Statutes, applies specifically to the handling of voted ballots as they are opened and processed at the counting center. This is in contrast to the broad observation of election procedures, some of which may occur outside of the counting center and be under the purview of the County Clerks.

The following is in response to the request for the 1) records of daily count of ballot envelopes collected from drop boxes and the USPS, 2) transfer records of ballot envelopes from the Counties to the State, 3) Statewide Voter Registration System records showing the daily numbers of ballot envelopes that were signature verified, and 4) daily logs that were used to compile the Over/Under report.

1. Records of the daily count of ballot envelopes collected from drop boxes and the USPS

Collection of the return envelopes from the places of deposit (e.g., ballot drop boxes) and USPS is the statutory responsibility of the Office of the County Clerk. Our office does not maintain records or operational procedures specific to the collection of envelopes. Therefore, we would defer to the various County Clerks for any records of the count of ballot envelopes collected from drop boxes and USPS. As background, the County Clerks compile the physical inventory of collected return envelopes using a scanner/sorter machine at their processing facility. The scanner/sorter machine is used to check in and receive the return envelopes which are then uploaded to the statewide voter registration system. The statewide voter registration system tracks the voters who have submitted a ballot and the number of valid ballots by district/precinct (D/P).

2. Transfer records of ballot envelopes from the Counties to the State

Enclosed are the transfer forms from the County Elections Divisions to the State-operated counting centers.

The County of Hawaii used the State's Certification of Sealing/Certification of Unsealing form to transfer materials to the State counting center. The form is a multipurpose form that can be used for various containers and associated content. The Certification of Sealing/Certification of Unsealing documents reflect the documents that a reasonable search of our records has produced that could have been used in connection with the transfer of ballots from the County to the State counting center. All of them have been provided, and they have been bates stamped HAWAII 001 to HAWAII 114.

The County of Maui likewise used the State's Certification of Sealing/Certification of Unsealing form to transfer materials to the State counting center and they have been bates stamped MAUI 001 to MAUI 036. Our review of these documents reflected that some of the documents concerning the transfer of validated mail ballots, as opposed to voter service center ballots, that we expected to see were not present and may have been misfiled due to human error.

We contacted the County of Maui, and it confirmed the process by which it would use the Certification of Sealing/Certification of Unsealing document each time it sealed validated return identification envelopes for transfer. Likewise, we confirmed with counting center staff that they unsealed the containers and filled out the Certification of Sealing/Certification of Unsealing forms as they had in prior elections. The forms ultimately should have been placed in the cut seals envelopes, but our search of those envelopes does not reflect the forms.

We would emphasize that this human error appears to have resulted from the volume of forms and documents handled in the course of the election and is not indicative of a breach in the security of the ballots. Specifically, election processes are purposefully layered for redundancies so as to account for isolated errors that may occur. For example, beyond the forms themselves, in this and all instances related to the security of the handling of the return envelopes, the County Clerks maintain a record of the number of envelopes accepted through the statewide voter registration system on a regular basis. Likewise, our office tracks the number of voted ballots counted by the voting system on the dates of counting. These numbers are then reconciled against each other to determine if there are any issues. For the County of Maui, there were no significant discrepancies between those numbers.

The County of Kauai used their own forms for the transfer of mail ballots, while using the State's Certification of Sealing/Certification of Unsealing forms for voted ballots from the voter service centers. As such, all of these forms have been provided and bates stamped KAUAI 001 to KAUAI 023.

The City and County of Honolulu used their own forms for the transfer of mail ballots and voter service center ballots. They have been bates stamped CITY 001 to CITY 159. The documentation of ballots associated with the transfer of mail ballots involved two forms. The first is their seal certification form. To the extent the form indicated a security cage, or another container held uncounted ballots from its AIPA location, there was a corresponding form entitled "Mail Ballot Transfer Form," which would repeat the name of the container, indicate the number trays, and state the number of envelopes. This would be followed by a sheet of paper indicating each individual tray and how many envelopes were in each tray. Otherwise, the seal certification form was used to transfer voted ballots from its voter service centers. The form would indicate if the location was Honolulu Hale, Kapolei Hale, Kaneohe District Park, or Wahiawa District Park. Please note that in relation to Seal No. 2456635 (CITY 156 to CITY 159), while it was originally sealed using the City's form, the unsealing of it was documented on the State's form. Otherwise, the unsealing of the City's ballots at the State counting center was done using the original form that had been used to document the initial sealing.

3. Statewide Voter Registration System records showing the daily number of ballot envelopes that were signature verified

As the database of voters and an election management system, the Offices of the County Clerks are the main users of the statewide voter registration system. They have allowed our office to provide the enclosed excerpts of the records from the statewide voter registration system for the number of voted ballots for the specified dates and times. As noted, these figures are uploaded to the statewide voter registration system from the scanner/sorter used to receive the return envelopes.

It is important to understand that these are “moment in time” figures pulled by the Office of Elections without regard to County operations. Specifically, the County could have been in the middle of an operation or made an adjustment based on their responsibilities after the time indicated by the report.

The excerpts of the number of voted ballots are provided for the following dates and times starting from the processing of voted ballots at the counting center through the post-election count:

- October 21, 2024, 6:07 AM
- October 22, 2024, 6:08 AM
- October 23, 2024, 6:45 AM
- October 24, 2024, 6:45 AM
- October 25, 2024, 6:26 AM
- October 26, 2024, 5:57 AM
- October 28, 2024, 6:21 AM
- October 29, 2024, 6:33 AM
- October 30, 2024, 7:08 AM
- October 31, 2024, 6:51 AM
- November 1, 2024, 6:52 AM
- November 2, 2024, 7:39 AM
- November 4, 2024, 6:38 AM
- November 5, 2024, 6:34 AM
- November 6, 2024, 2:31 PM
- November 13, 2024, 8:26 PM

4. Daily logs that were used to compile the Over/Under report

Enclosed are the following used to compile the 2024 General Election Over/Under Report:

1. Excerpts of the number of voted ballots from the statewide voter registration system dated November 22, 2024, 7:48 AM

2. Counting center Invalid Ballot Logs used to document invalid circumstances that occurred in the opening of voted ballots at the counting center.

3. Statewide Precinct Detail results report dated November 13, 2024, 6:51:56 PM. The MAIL TURNOUT and IN-PERSON TURNOUT for each D/P are used for the respective number of ballots counted.

Also included is the 2024 General Election Over/Under Report as a reference.

Please feel free to contact me at (808) 453-VOTE (8683) or elections@hawaii.gov if you require additional information or have any further questions.

Very truly yours,

SCOTT T. NAGO
Chief Election Officer

STN:AT:nn
OE-25-060

Enclosure

c: Jon Henricks, Hawaii County Clerk
Moana Lutey, Maui County Clerk
Jade Fountain-Tanigawa, Kauai County Clerk
Glen Takahashi, City Clerk

Dear Chair Young and Members of the Permitted Interaction Group,

RE: RESPONSE TO THE PERMITTED INTERACTION GROUP'S REVIEW OF COMPLAINTS CONCERNING BALLOT COUNT IRREGULARITIES ON KAUA'I

This is in response to your letter dated April 11, 2025, regarding work of the Permitted Interaction Group (PIG) to review complaints alleging ballot count irregularities on Kaua'i.

Specifically, the PIG is requesting 1) records of the daily count of ballot envelopes collected from drop boxes and the USPS, 2) transfer records of ballot envelopes from the County to the State, 3) Statewide Voter Registration System records showing the daily number of ballot envelopes that were signature verified, and 4) daily logs that were used to compile over/under reports.

1. Records of the daily count of ballot envelopes collected from drop boxes and the USPS.

Envelope Collection forms (Forms) containing a staff completed manual count of ballot envelopes collected from drop boxes and hand delivered to the Elections Division and Voter Service Center and received through the US Postal Service are attached.

AN EQUAL OPPORTUNITY EMPLOYER

Quantities depicted on the Forms represent a physical count of ballot envelopes, which were intended to gauge election progress with the understanding that the quantity of ballot envelopes would not match the quantity of ballots tabulated and reported in official election results. The purpose of the Form is highlighted in the following Disclaimer which is included on each Form:

> "Figures on this form represent a manual count of envelopes – not the number of ballots counted. The manual counts were made for internal purposes to track election progress with the understanding that it would not match official election results."

The ballot envelope counts were **not** compiled for reconciling or auditing official election results and must only be used in the context for which they were intended.

2. Transfer records of ballot envelopes from the County to the State.

The State Office of Elections has custody of the original transfer records of ballot envelopes from the County to the State counting center and will be submitting authentic photocopies of the requested documents on behalf of the County of Kaua'i.

3. Statewide Voter Registration System records showing the daily number of ballot envelopes that were signature verified.

The State Office of Elections has custody of the Statewide Voter Registration System records showing the daily number of ballot envelopes that were signature verified and will be submitting authentic photocopies of the requested documents on behalf of the County of Kaua'i.

4. Daily logs that were used to compile over/under reports.

Compilation of the over/under report is the statutory responsibility of the State Office of Elections, so we defer to them for any daily logs that were used to compile the reports.

Please do not hesitate to contact me or the Office of the County Clerk, Council Services Division at (808) 241-4188 should you have any questions.

Sincerely,

JADE K. FOUNTAIN-TANIGAWA
County Clerk

State of Hawai'i Elections Commission
ATTN: Permitted Interaction Group (PIG)
Honolulu, HI

May 12, 2025

Aloha Ms. Fountain-Tanigawa,

Mahalo nui for your prompt response to our inquiry about how your office ensures the thorough tracking of mark sense ballots, as outlined in HAR 3-177-453.

We understand that this regulation aims to provide the public with confidence in the accurate accounting of ballots (or ballot envelopes at the County level) from the moment they arrive via ballot box, drop-off location, or the USPS.

We did notice the disclaimer on your envelope collection form and your note about the counts being for internal use. This sparked a question about where the official, reconciling, and auditing counts, as required by law, are maintained. We are eager to fully understand the comprehensive system in place.

In reviewing the data from the 2024 General Election, we observed a difference between the 23,303 ballot envelopes collected by the County and the 27,075 ballots accepted by the State. It is fascinating to see the State's final tally being higher! We are curious to learn more about the factors that contribute to this increase, as typically we might anticipate a slight reduction due to blank, spoiled, or incorrectly filled ballots. The addition of 3,004 ballots on October 22nd, noted in your attachments, also piqued our interest, and we would be grateful for any insights you can share about this entry.

We are looking forward to gaining a clearer picture of the process that bridges the initial County collection figures with the final State acceptance numbers. Your explanation will undoubtedly further illuminate the robust checks and balances in place to ensure the accuracy and transparency of our elections.

Me ke aloha pumehana,

Peter

Dear Chair Young and Members of the Permitted Interaction Group,

RE: RESPONSE TO THE PERMITTED INTERACTION GROUP'S FOLLOW-UP LETTER DATED MAY 12, 2025

This responds to your letter dated May 12, 2025.

The "official, reconciling, and auditing counts" from paragraph 3 are maintained in the statewide voter registration system (SVRS). The SVRS is the system of record which maintains the counts used to calculate overages/underages, voter turnout, and other official election metrics.

All other matters noted in your letter have been addressed in the County's Motion to Dismiss in response to SEC-24-0000797 Cushnie v Nago, and the corresponding Finding of Fact, Conclusions of Law, and Judgment issued by the Hawai'i Supreme Court. Both documents are attached for your review.

Please do not hesitate to contact me or the Office of the County Clerk, Council Services Division at (808) 241-4188 should you have any questions.

Sincerely,

JADE K. FOUNTAIN-TANIGAWA
County Clerk

JADE FOUNTAIN-TANIGAWA, County
Clerk for the County of Kaua‘i

DEFENDANT JADE FOUNTAIN-TANIGAWA'S MOTION TO DISMISS PLAINTIFF'S ELECTION COMPLAINT FILED NOVEMBER 25, 2024, ALTERNATIVELY, DEFENDANT JADE FOUNTAIN-TANIGAWA'S MOTION FOR SUMMARY JUDGMENT

Defendant JADE FOUNTAIN-TANIGAWA ("Defendant Tanigawa"), by and through her undersigned attorneys, hereby respectfully moves the Court for an order dismissing with prejudice the Election Complaint filed herein by Plaintiff RALPH CUSHNIE ("Plaintiff") and Thirty Voters on November 25, 2024. Alternatively, should this Court determine that matters outside the pleadings are presented, Defendant respectfully requests this motion be treated as one for summary judgment.

This Motion is brought pursuant to Rules 12(b)(6) and 56 of the Hawai'i Rules of Civil Procedure, the attached Memorandum in Support of Motion, the Declaration of Lyndon M. Yoshioka, and Exhibits A – C, all of which are attached hereto and incorporated herein.

DATED: Līhu'e, Kaua'i, Hawai'i, December 4, 2024.

Ralph Cushnie *pro se*, along with more than Thirty Voters, Plaintiffs, vs. Scott T. Nago, in his official capacity as Chief Elections Officer for the Office of Elections, State of Hawaiʻi; Ms. Jade Fountain-Tanigawa, County Clerk for the County of Kauaʻi, Defendants.	)	ORIGINAL PROCEEDING MEMORANDUM IN SUPPORT OF MOTION

MEMORANDUM IN SUPPORT OF MOTION

I. INTRODUCTORY STATEMENT

Plaintiffs' attack on the validity of the November 5, 2024 County Council Election is based on an inaccurate calculation of the voting overage. Plaintiffs allege that there was an overage of 3,772 of voted ballots and that the overage of "voted ballots exceeds the reported margin between candidates for the top nine candidates and did affect the outcome of the election for the top seven candidates that were elected to the county council." Plaintiffs go on to conclude that "the determination of the council members which were elected for the County of Kauaʻi during the 2024 General Election is indeterminate and the county council race cannot be certified." Plaintiffs seek a judicial declaration invalidating "the Kauaʻi County Council race held during the 2024 General Election" and request that a new election be held.

Defendant Tanigawa affirmatively asserts that the vote overage was only 32 and not the incorrectly alleged 3,772. For this reason, Defendant Tanigawa moves the Court for dismissal of

Plaintiffs' Complaint with prejudice, or in the alternative, summary judgment in her favor.

II. STATEMENT OF FACTS

The County started receiving mailed ballot envelopes on October 18, 2024. When the final votes were tallied after the polls closed it was determined that there was an overage of 32 votes. Declaration of Lyndon M. Yoshioka ("Yoshioka Dec.") ¶ 7. In the Kaua'i County Council Election the margin of victory between the seventh-place finisher, Fern Anuenue Holand, and the eighth-placed finisher, Ross Kagawa, was 108 votes. Yoshioka Dec. ¶ 8.

III. LEGAL STANDARDS

A. Election Contests Under Sections 11-172 and 11-174.5(b) of the Hawai'i Revised Statutes

Hawai'i Revised Statute ("HRS") § 11-172 provides, in pertinent part, that:

> With respect to any election, any candidate, or qualified political party directly interested, or any thirty voters of any election district, may file a complaint in the supreme court. The complaint shall set forth any cause or causes, such as but not limited to, provable fraud, overages, or underages, that could cause a difference in the election results. The complaint shall also set forth any reasons for reversing, correcting, or changing the decisions of the voter service center officials of the officials at a counting center in an election using the electronic voting system.

HRS § 11-174.5(b) states that:

> In cases involving general, special general, special or runoff elections the complaint shall be heard by the supreme court in which the complaint was filled as soon as it reasonably may be heard. On the return day, the court, upon its motion or otherwise, may direct summons to be issued to any person who may be interested in the result of the proceedings.
>
> At the hearing, the court shall cause the evidence to be reduced to writing and shall give judgment, stating all findings of fact and of law. The judgment may invalidate the general, special general, special or runoff election on the grounds that a correct result cannot be ascertained because of a mistake or fraud on the part of the voter service center officials, or decide that a certain candidate, or certain candidates, received a majority or plurality of votes and were elected. If the judgment should be that the general, special general, special, or runoff election is invalid, a certified copy thereof shall

> be filed with the governor, and the governor shall duly call a new election to be held no later than one hundred twenty days after the judgment is filed. If the court shall decide which candidate or candidates have been elected, a copy of that judgment shall be served on the chief election officer or county clerk, who shall sign and deliver to the candidate or candidates certificates of election, and the same shall be conclusive of the right of the candidate or candidates to the offices.

B. Motion to Dismiss Under HRCP Rule 12(b)(6)

A complaint may be dismissed for failure to state a claim under HRCP Rule 12(b)(6) "if the claim is 'clearly without merit' which may consist of "an absence of law to support a claim [or] facts sufficient to make a good claim." *Rosa v. CWJ Contractors*, 4 Haw. App. 210. 215, 664 P.2d 745, 749 (1983). In considering a Rule 12(b)(6) motion to dismiss a court must "deem the allegations contained in the complaint as true." *Au v. Au*, 63 Haw. 210, 214, 626 P.2d 173, 177 (1981). Nonetheless, the court is not required to accept conclusory allegations on the legal effect of the events alleged. *Marsland v. Pang*, 5 Haw. App. 463, 474, 701 P.2d 175, 185 (1985). "To survive a motion for dismissal, the '[f]actual allegations must be enough to raise a right to relief above the speculative level.'" *Bank of America, N.A. v. Reyes-Toledo*, 143 Haw. 249, 261, 428 P.3d 761, 773 (2018) (quoting *Bell Atlantic Corp. v. Twombly*, 550 U.S. 544, 555, 127 S.Ct. 1955, 1965 (2007). When "matters outside the pleading are presented and not excluded by the court, the motion shall be treated as one for summary judgment and disposed of as provided in" HRCP Rule 56. *Goran Pleho, LLC v. Lacy*, 144 Haw. 224, 237, 439 P.3d 176, 189 (2019)

C. Motion for Summary Judgment Under HRCP Rule 56

Under Rule 56(c) of the Hawai'i Rules of Civil Procedure, summary judgment is proper if "the pleadings, depositions, answers to interrogatories, admissions on file, together with the affidavits … show that there is no genuine issue as to any material fact and that the moving party is entitled to judgment as a matter of law." The mere existence of disputed facts is insufficient to

defeat a motion for summary judgment. The disputed facts must be material. *Wilder v. Tanouye*, 7 Haw.App. 247, 254, 753 P.2d 816 (1988). The party moving for summary judgment need not negate his opponent's claims but need only point out that there is an absence of evidence to support them. *First Hawaiian Bank v. Weeks*, 70 Haw. 392, 397, 772 P.2d 1187, 1190 (1989).

Once the moving party satisfies its initial burden of proof, the burden shifts to the non-moving party to respond by demonstrating specific facts, not general allegations, that a genuine issue worthy of trial exists. *GECC Financial Corp. v. Jaffarian*, 79 Haw. 516, 521 (Haw. Ct. App. 1995), aff'd., 80 Haw. 118(1995). "Bare allegations or factually unsupported conclusions are insufficient to raise genuine issues of material fact, and therefore, insufficient to reverse a grant of summary judgment." *Housing Finance and Development Corp. v. Castle*, 79 Haw. 64, 91, 898 P.2d 576, 603 (1995), citing *Reed v. City and County of Honolulu*, 76 Haw. 219, 225, 873 P.2d 98, 104 (1994).

Where the moving party is the defendant, who does not bear the ultimate burden of proof at trial, summary judgment is proper when the non-moving party-plaintiff fails to make a showing sufficient to establish the existence of an element essential to that party's case, and on which that party will bear the burden of proof at trial. In such a situation, there can be no genuine issue as to any material fact, since a complete failure of proof concerning an essential element of the nonmoving party's case necessarily renders all other facts immaterial. *Hall v. State*, 7 Haw.App. 274, 284, 756 P.2d 1048, 1055 (1988).

IV. ARGUMENT

Here, the voting overage was a mere 32 votes which cannot cause a difference in the election results. Thus, the correct result of the election was ascertained and Plaintiff's Complaint contesting the election should be dismissed.

V. CONCLUSION

By virtue of the foregoing, Defendant Tanigawa respectfully requests the Court to dismiss Plaintiffs' Complaint with prejudice. In the alternative, should this Court determine that matters outside of the pleadings are presented and not excluded by this Court, Defendant Tanigawa respectfully requests that this motion be treated as one for summary judgment and that summary judgment be entered in her favor.

Ralph Cushnie *pro se*, along with more than Thirty Voters, Plaintiffs vs. Scott T. Nago, in his official capacity as Chief Elections Officer for the Office of Elections, State of Hawaiʻi; Ms. Jade Fountain-Tanigawa, County Clerk for the County of Kauaʻi, Defendants.	ORIGINAL PROCEEDING DECLARATION OF LYNDON M. YOSHIOKA

DECLARATION OF LYNDON M. YOSHIOKA

I, LYNDON M. YOSHIOKA, hereby declare under penalty of law that the foregoing is true and correct:

1. I am the Deputy County Clerk for the County of Kauaʻi ("Deputy Clerk") and have personal knowledge of the following facts. If called and sworn as a witness, I could and would testify competently to them. I have held this position with the County of Kauaʻi since November 1, 2022.

2. As the Deputy Clerk, the County Clerk delegated to me the oversight of all staff assigned to the Elections Division of the Office of the County Clerk who are directly responsible for conducting elections in the County of Kauaʻi.

3. Overages and underages pursuant to HRS § 11-153 are calculated using the quantity of voters submitting a valid mail ballot as reported in the voter registration system, which is the system of record, and the quantity of ballots counted and reported in official election results.

4. A form printed on 2-part non-carbonless paper (white original/yellow copy) was used to record the quantity of ballot envelopes collected from drop boxes around Kaua‘i. A separate form, using the same type of non-carbonless paper was used to record the quantity of ballot envelopes hand-delivered by voters to the office and voter service center and received via the U.S. Postal Service ("USPS"). A new form was completed each collection day. A summary spreadsheet was created to capture information from individual forms and to calculate the total quantity of ballot envelopes collected from all sources. A disclaimer on the bottom section of each form and on the spreadsheet noted that the figures on the spreadsheet represented a manual count of envelopes – not the number of ballots counted, and was developed to approximate the quantity of ballot envelopes collected and the quantity still outstanding and was meant to aide with projecting staffing needs and scheduling of staff overtime, with the understanding that the envelope counts would not equal the quantity of ballots counted and reported in official election results. The forms capturing ballot envelope counts are not used to calculate overages and underages pursuant to HRS § 11-153. True and accurate copies of forms containing envelope collection counts for the 2024 General Election are hereto attached as Exhibit A.

5. Plaintiff's spreadsheet is incomplete. Specifically, Plaintiff is missing the form for ballot envelopes collected from drop boxes island-wide on October 22, 2024. Additionally, Plaintiff's form depicting ballot envelopes received at the office and voter service center and the USPS is missing the quantity of ballot envelopes received via the USPS. We believe that the USPS ballot envelope count was inadvertently omitted when the form was initially completed and was eventually recorded on only the yellow copy of the form and not on the white original copy of the form, which was used to create the photocopies provided to the Plaintiff.

6. When a deficient ballot envelope is received by the Elections Division, a paper

file is created of each deficient envelope. The file includes a photocopy of the deficient envelope, a photocopy of the corresponding voter's election document containing a signature, and a photocopy of the follow-up letter sent to notify the voter of the deficient envelope and a description of the process for curing the deficiency so the ballot can be counted.

7. The State Office of Elections calculated the official overage and underage report ("Over/Under Report") for the 2024 General Election utilizing the quantity of voters submitting a valid mail ballot as reported in the voter registration system, which is the system of record, and the quantity of ballots counted and reported in official election results. A true and accurate copy of the Over/Under Report, which reports an overall overage of 32 is attached hereto as Exhibit B.

8. The seventh-place finisher in the Kaua'i Council election was Fern Anuenue Holland with 12,041 votes. The eighth-place finisher was Ross Kagawa who received 11,933 votes, a difference of 108 votes and far exceeding the overall overage of 32. A true and accurate copy of election results for the County of Kaua'i for the 2024 General Election is hereto attached as Exhibit C.

SCEC-24-0000797

IN THE SUPREME COURT OF THE STATE OF HAWAIʻI

RALPH S. CUSHNIE and more than THIRTY VOTERS, Plaintiffs,

vs.

SCOTT NAGO, as Chief Elections Officer for the Office of Elections, State of Hawaiʻi; and JADE FOUNTAIN-TANIGAWA, County Clerk for the County of Kauaʻi, Defendants.

ORIGINAL PROCEEDING

FINDINGS OF FACT, CONCLUSIONS OF LAW, AND JUDGMENT
(By: Recktenwald, C.J., McKenna, Eddins, Ginoza, and Devens, JJ.)

This 2024 General Election contest is about overages. An overage occurs when the amount of ballots recorded in the official election results is more than what "documented usage" indicates.

Plaintiffs Ralph Cushnie (Cushnie) and thirty-two other voters (collectively, Plaintiffs) assert there is an overage in mail ballots that are sufficient in quantity to cause a difference in the results of the Kauaʻi County Councilmember race in the 2024 General Election.

However, the data that Plaintiffs rely on for "documented usage" contains a disclaimer that expressly states that the figures represent a manual count of envelopes and not the number of ballots counted. It is unreasonable to infer a ballot count from this data due to this disclaimer.

Plaintiffs' December 12, 2024 Memorandum in Support also concedes that there is a difference of only 39 ballots when comparing Plaintiffs' 27,036 envelope amount that was transferred to the state counting center and the 27,075 total mail ballots from the official results of the 2024 General Election in Kauaʻi County. This 39 ballot difference is less than the 108 vote difference between the seventh place and eighth place candidates in the 2024 General Election race for Kauaʻi County Councilmember.

We thus enter the following findings, conclusions, and Judgment in favor of the State and County, and against Plaintiffs. We also deny Plaintiffs' motion for interrogatories.

I. FINDINGS OF FACT

According to the final printout, the 2024 General Election results for the Kauaʻi County Councilmember race were:

1.	CARVALHO, Bernard P., Jr.	15,435	7.2%
2.	RAPOZO, Mel	14,403	6.7%
3.	KANESHIRO, Arryl J.	13,049	6.1%

4. BULOSAN, Addison	12,385	5.8%
5. COWDEN, Felicia	12,325	5.8%
6. KUALII, KipuKai	12,276	5.7%
7. HOLLAND, Fern Anuenue	12,041	5.6%
KAGAWA, Ross	11,933	5.6%
DECOSTA, Billy D.	9,977	4.7%
APILADO, Abe, Jr. (Aba-G)	5,964	2.8%
KEAHIOLALO, W. Butch	5,202	2.4%
CUMMINGS, Sherri	4,160	1.9%
NELSON, Jacquelyn (Jakki)	3,386	1.6%
THOMAS, Bart	3,296	1.5%
Blank Votes:	77,696	36.4%
Over Votes:	62	0.0%

A voter may vote for up to seven candidates in this race. Numbers are added to the above results to clearly identify the top seven candidates.

There is a 108 vote difference between the seventh-place candidate (Fern Anuenue Holland) and eighth place candidate (Ross Kagawa).

There were a total 27,075 mail ballots that were recorded in the final printout of the official 2024 General Election results for Kauaʻi County.

On November 25, 2024, Plaintiffs filed an Election Complaint (Complaint) asserting there is an "overage of 3,772 voted ballots" that caused a difference in the 2024 General Election results for the Kauaʻi County Councilmember race. Plaintiffs assert that a correct result cannot be determined for

this election "due to the provable overage," and this court's Judgment should invalidate the results of the Kaua'i County Councilmember race.

Plaintiffs submitted an information request under the Uniform Information Practices Act to the Kaua'i County Elections Division for chain-of-custody documentation relating to ballot collections and handling for the 2024 General Election.

Based on the information provided by County, Plaintiffs assert that the "documented usage for voted ballot envelopes was recorded as 23,303, and is the total number of voted ballots submitted by mail for the county." Plaintiffs assert their 23,303 number constitutes the "documented usage" for purposes of calculating an overage of mail ballots pursuant to Hawai'i Revised Statutes (HRS) § 11-153(a) (Supps. 2019 & 2021), Hawai'i Administrative Rules (HAR) § 3-177-750 (eff. 2020), and HAR § 3-177-769(b) (eff. 2020).

The documents attached to the Complaint that support Plaintiffs' 23,303 number all contain the following "Disclaimer" at the bottom of each page:

> Figures on this form represent a manual count of envelopes - not the number of ballots counted. The manual counts were made for internal purposes to track election progress with the understanding that it would not match official election results.

Subtracting Plaintiffs' 23,303 figure from the total 27,075 mail ballots in Kaua'i County results in an overage of 3,772 mail

ballots. Plaintiffs assert that this 3,772 overage amount "cause[d] a difference in the election results for the county council race for the County of Kauai" because the "overage of 3,772 voted ballots exceeds the reported margin between candidates for the top nine candidates" in the Kauaʻi County Councilmember race.

Plaintiffs' Complaint was signed by Cushnie and includes the signatures of Cushnie and thirty-two other voters from "Kauai District 17" under the following affirmation:

> I am one of more than thirty voters from Kauai District 17 and am filing this election complaint pursuant to the Constitution for the State of Hawaii and Hawaii Revised Statutes for redress of grievances regarding the 2024 Hawaii General Election and as per the accompanying filing.

Motions to dismiss or for summary judgment were filed by Defendant Jade Fountain-Tanigawa, County Clerk for the County of Kauaʻi (County), on December 4, 2024, and Defendant Scott Nago, Chief Elections Officer for the Office of Elections (the State or Nago), on December 5, 2024.

County's motion asserts that the data that Plaintiffs used to calculate the 3,772 overage ballot amount is wrong because Plaintiffs' data is based on ballot envelopes rather than ballots themselves, and the County "forms capturing ballot envelope counts are not used to calculate overages and underages pursuant to HRS § 11-153." Pointing to the Disclaimer at the

bottom of the County forms, County states that its forms capturing ballot envelope counts are used by County to

> approximate the quantity of ballot envelopes collected and the quantity still outstanding and was meant to aide with projecting staffing needs and scheduling of staff overtime, with the understanding that the envelope counts would not equal the quantity of ballots counted and reported in official election results.

County also asserts that Plaintiffs miscalculated the ballot envelope amount due to missing data, and provided the missing data through Exhibit A to County's motion.

The State's motion to dismiss or for summary judgment asserts: (A) the Complaint should be dismissed for lack of standing pursuant to Cordery v. Ige, SCEC-22-0000734, because Cushnie is the only Plaintiff, or voter, in this election contest; (B) Plaintiffs disregard the disclaimer language on the County forms they rely on; (C) Plaintiffs also disregard return identification envelopes data that is also attached to their Complaint showing that 26,954 return identification envelopes were transferred to counting centers between October 26, 2024 and November 6, 2024; and (D) the State's data shows there are a total of 25 overage mail ballots in Kauaʻi County, and this 25 overage mail ballots is not enough to cause a difference in the results of the 2024 General Election race for Kauaʻi County Councilmember because the difference in votes between the seventh-place candidate and eighth-place candidate is 108 votes.

The State's 25 overage mail ballots is reflected by the following table:

D/P	Mail				In-Person			
	Adj. Mail Turnout	Prec. Report	Over (+)	Under (-)	Walk Turnout	Prec. Report	Over (+)	Under (-)
15-01	1,761	1,763	2	0	167	170	3	0
15-02	1,708	1,713	5	0	209	209	0	0
15-03	938	940	2	0	138	138	0	0
15-04	3,456	3,458	2	0	537	537	0	0
15-05	1,207	1,208	1	0	151	152	1	0
16-01	2,875	2,877	2	0	468	469	1	0
16-02	1,172	1,173	1	0	195	195	0	0
16-03	1,997	1,999	2	0	271	271	0	0
16-04	2,505	2,506	1	0	345	344	0	(1)
16-05	304	304	0	0	40	37	0	(3)
17-01	2,290	2,294	4	0	285	288	3	0
17-02	2,954	2,954	0	0	367	368	1	0
17-03	1,929	1,929	0	0	154	155	1	0
17-04	755	756	1	0	57	57	0	0
17-05	1,176	1,178	2	0	100	101	1	0
17-06	23	23	0	0	0	0	0	0
	27,050	**27,075**	**25**	**0**	**3,484**	**3,491**	**11**	**4**

The State's documented usage for mail ballots adds the amount of mail ballots with the amount of electronic ballots, and then reduces the sum by the amount of invalidated mail and electronic ballots. In other words: mail ballots + electronic ballots - invalidated mail and electronic ballots = documented usage.

Overage and underage is calculated on a precinct-by-precinct basis by comparing the documented usage (Adj. Mail Turnout in the above table) with the amount of precinct turnout for mail ballots (Prec. Report in the table).

Nago's Declaration states that the envelopes remain sealed and are not opened until the envelopes are transferred to a state-operated counting center. The envelopes are then opened at the state-operated counting center.

Plaintiffs filed an opposition to County's motion on December 5, 2024, and an opposition to the State's motion on December 9, 2024.

Plaintiffs' opposition to County's motion: (A) asserts Exhibit A of County's motion is unreliable as evidence because "chain of custody has been broken for the handling of 3,004 voted ballot envelopes reportedly received by the county from the US Postal Service and the validity of this new entry cannot be verified"; (B) continues to assert that "documented usage" is calculated by using the ballot envelope count in the County-provided forms with the Disclaimer; and (C) asserts there is an overage of 442 ballots rather than the 3,772 ballots asserted in their Complaint based on Exhibit A of County's motion.

Each page of Exhibit A of County's motion includes the same Disclaimer quoted above.

Plaintiffs' opposition to the State's motion: (A) attaches a list of addresses for the thirty-three voters in this general election contest; (B) asserts that the State has "frustrated all efforts to retrieve chain of custody documentation"; (C) continues to assert that Kauaʻi County chain-of-custody documentation is the only physical verification of the quantity of mail in ballots collected and, based on Kauaʻi County data, there is an overage of 442 mail ballots.

On December 4, 2024, Plaintiffs filed a motion for interrogatories that seeks answers to questions concerning certification of Councilmembers prior to the resolution of this election contest. According to Plaintiffs, the 2024 Kauaʻi County Councilmember election is a contested election and cannot yet be certified.

Additional arguments were filed by County and Plaintiffs on December 9, 2024.

On December 10, 2024, Plaintiffs filed a "Memorandum in Support of Opposition to Motion to Dismiss/Summary Judgment Pursuant to HRCP Rule 7." Plaintiffs state that County informed them there were 219 uncured envelopes in the 2024 General Election, and assert that the 219 uncured envelopes constitute 219 more overage ballots that could have caused a difference in the Kauaʻi County Councilmember race in the 2024 General Election.

On December 12, 2024, Plaintiffs filed a second Memorandum in Support that again asserts the 661 overage mail ballots based on the County forms, the uncured envelopes, and now Nago's "attestation to ballots transferred, and the States Summary Report for the County of Kauai." Notably, Plaintiffs' December 12 Memorandum now says that a total of 27,036 envelopes were transferred from County to the State counting center.

II. CONCLUSIONS OF LAW

A. Standing

When asked to decide whether a litigant is asserting legally recognized interests, personal and peculiar to that person, "we have spoken of standing[.]" Tax Found. of Hawai‘i v. State, 144 Hawai‘i 175, 191, 439 P.3d 127, 143 (2019).

> Standing is that aspect of justiciability focusing on the party seeking a forum rather than on the issues he wants adjudicated. And the crucial inquiry in its determination is "whether the plaintiff has 'alleged such a personal stake in the outcome of the controversy' as to warrant his invocation of . . . (the court's) jurisdiction and to justify exercise of the court's remedial powers on his behalf."

Life of the Land v. Land Use Comm'n, 63 Haw. 166, 172, 623 P.2d 431, 438 (1981) (quoting Warth v. Seldin, 422 U.S. 490, 498-99 (1975)).

Standing requirements may be tempered or prescribed by legislative declarations policy. Tax Found., 144 Hawai‘i at 191, 439 P.3d at 143. HRS § 11-172 (Supp. 2021) states that an election complaint may be brought by "any thirty voters of any election district."

Plaintiffs' Complaint was signed by thirty-three voters, one of whom is Cushnie. Phone numbers and addresses of the thirty-three voters were also provided in the record.

The signature pages in the Complaint include the following affirmation:

> I am one of more than thirty voters from Kauaʻi District 17 and am filing this election complaint pursuant to the Constitution for the State of Hawaii and Hawaii Revised Statutes for redress of grievances regarding the 2024 Hawaii General Election and as per the accompanying filing.

Based on this record, Plaintiffs have satisfied the standing required by Cordery.

B. Summary Judgment

When reviewing a request to dismiss a complaint, the court's review "is based on the contents of the complaint, the allegations of which [the court] accept[s] as true and construe[s] in the light most favorable to the plaintiff. Dismissal is improper unless it appears beyond doubt that the plaintiff can prove no set of facts in support of his claim which would entitle him to relief." Casumpang v. ILWU, Local 142, 94 Hawaiʻi 330, 337, 13 P.3d 1235, 1242 (2000) (quotation marks and citation omitted).

The court's consideration of matters outside the pleadings converts a motion to dismiss into one for summary judgment. Foytik v. Chandler, 88 Hawaiʻi 307, 313, 966 P.2d 619, 625 (1998).

Summary judgment is appropriate where there is no genuine issue as to any material fact and the moving party is entitled to judgment as a matter of law. Estate of Doe v. Paul Revere Ins. Group, 86 Hawaiʻi 262, 269-70, 948 P.2d 1103, 1110-11 (1997).

A fact is material if proof of that fact would have the effect of establishing or refuting an essential element of a cause of action asserted by one of the parties. Winfrey v. GGP Ala Moana LLC, 130 Hawai‘i 262, 271, 308 P.3d 891, 900 (2013).

On a motion for summary judgment, this court must view the evidence in the light most favorable to the nonmoving party. State ex rel. Shikada v. Bristol-Myers Squibb Co., 152 Hawai‘i 418, 442, 526 P.3d 395, 419 (2023).

However, this "court is permitted to draw only those inferences of which the evidence is reasonably susceptible and it may not resort to speculation." Winfrey, 130 Hawai‘i at 271, 308 P.3d at 900 (quoting Pioneer Mill Co. v. Dow, 90 Hawai‘i 289, 295, 978 P.2d 727, 733 (1999)).

Pursuant to HRS § 11-174.5(b) (Supp. 2021), this court's Judgment may invalidate the general election contest for Kaua‘i County Councilmember "on the grounds that a correct result cannot be ascertained because of a mistake or fraud on the part of the voter service center officials; or decide that a certain candidate, or certain candidates, received a majority or plurality of votes cast and were elected."

An election complaint may allege an overage that could cause a difference in the election results of a race. See HRS § 11-172.

Plaintiffs' Complaint states a claim under HRS § 11-172 because Plaintiffs assert there is a mail ballot overage of 3,772 ballots that could cause a difference in the 2024 General Election results for Kaua'i County Councilmember. Plaintiffs later asserted there is an overage of 442 mail ballots using updated data provided by County, and then 661 mail ballots when adding uncured envelopes.

"Overage" and "underage" are defined by HRS § 11-153 (Supps. 2019 & 2021), which states in its entirety:

> (a) If there are more ballots than documented usage indicates, this shall be an overage and if fewer ballots, it shall be an underage. The election officials or counting center employees responsible for the tabulation of ballots shall make a note of this fact on a form to be provided by the chief election officer. The form recording the overage or underage shall be sent directly to the chief election officer or the clerk in county elections separate and apart from the other election records.
>
> (b) If the electronic voting system is being used in an election, the overage or underage shall be recorded after the tabulation of the ballots. In an election using the paper ballot voting system, the chief election officer or the chief election officer's designee shall proceed to count the votes cast for each candidate or on a question after recording the overage or underage.
>
> (c) The chief election officer or the clerk shall make a list of all precincts in which an overage or underage occurred and the amount of the overage or underage. This list shall be filed and kept as a public record in the office of the chief election officer or the clerk in county elections.
>
> An election contest may be brought under part XI, if the overage or underage in any precinct could affect the outcome of an election.

(Emphasis added.)

Overage and underage are also defined in HAR § 3-177-750, which states:

> §3-177-750 Electronic voting systems; documentation of overages and underages; records. The voted ballots shall be kept secure and handled only in the presence of representatives not of the same political party or official observers. If there are more ballots than documented usage indicates, this shall be an overage and if fewer ballots, it shall be an underage. Any overages or underages in any district shall be documented. The list of any such overages or underages shall be filed and kept as a public record in the office of the chief election officer or the clerk in county elections. After all ballots have been tabulated, they shall be sealed in containers.

(Emphasis added.)

Additionally, HAR § 3-177-769 states:

> §3-177-769 Reconciliation of voted ballots. (a) The clerk shall prepare a reconciliation of voted mail and voter service center ballots recorded on a form prescribed by the chief election officer. The form shall summarize the following totals by precinct:
>
> (1) Walk-in voter service center ballots;
>
> (2) Valid mail return identification envelopes; and
>
> (3) Invalidated mail ballots.
>
> (b) If there are more ballots than documented usage indicates, this shall be an overage and if fewer ballots, it shall be an underage.

(Emphasis added.)

Reading "documented usage" in context with the plain language of the above statutes and administrative rules shows that "documented usage" refers to ballots ("[i]f there are more ballots than documented usage indicates") and not ballot envelopes. See Tax Found., 144 Hawai‘i at 193, 439 P.3d at 145

(stating that, when construing a statute, our foremost obligation is to ascertain and give effect to the intention of the legislature, which is to be obtained primarily from the language contained in the statute itself, and we must read statutory language in the context of the entire statute and construe it in a manner consistent with its purpose).

With that in mind, Plaintiffs' reliance on the data used to calculate their 3,772 or 442 overage mail ballot amount is unavailing because Plaintiffs disregard the "Disclaimer" at the bottom of each page of the data they use. This "Disclaimer" appears on the County forms and expressly states that "[f]igures on this form represent a manual count of envelopes - not the number of ballots counted." (Emphases added.)

The Declaration attached to County's motion explained that this data is used for County's internal staffing needs. This data is not used to calculate overages and underages pursuant to HRS § 11-153.

Moreover, Nago's Declaration states that the envelopes remain sealed and are not opened until the envelopes are transferred to a state-operated counting center. The envelopes are then opened at the state-operated counting center.

It is thus unreasonable to infer an amount of overage ballots from these County forms. See Winfrey, 130 Hawai‘i at 271, 308 P.3d at 900 (observing that this court is permitted to

draw only those inferences of which the evidence is reasonably susceptible and it may not resort to speculation).

HRS § 11-96 (2009), which Plaintiffs rely on, states:

> Every record made pursuant to law by a board of registration of voters, or the precinct officials, shall be a prima facie evidence of the facts therein set forth, and shall be received as such in any court or tribunal in which the same is offered in evidence.

Even if HRS § 11-96 applies to the County forms, the County forms are prima facie evidence of the amount of envelopes. The County forms do not constitute prima facie evidence of the amount of ballots due to the Disclaimer appearing on those forms. See HRS § 11-96.

Plaintiffs' reliance on HRS § 11-104(d) (Supp. 2023) is similarly unavailing. HRS § 11-104(d) states: "Once a voter has returned a return identification envelope containing the secrecy envelope or secrecy sleeve with the marked ballot, that voter's ballot shall be deemed cast and may not be recast in the election." (Emphasis added.)

Even if the amount of envelopes recorded on the County forms were construed to be the amount of return identification envelopes, the County forms do not reflect whether those return identification envelopes contained a secrecy envelope or sleeve "with the marked ballot," see HRS § 11-104(d), because the disclaimer on the County forms expressly states that the County forms do not represent "the number of ballots counted."

Moreover, even if these County forms are prima facie evidence of ballots notwithstanding the Disclaimer, Plaintiffs' assertion that there is an overage amount that could have caused a difference in the election results is belied by Plaintiffs' December 12, 2024 Memorandum in Support that states there were 27,036 envelopes transferred from County to the State counting center. The difference between 27,075 ballots and 27,036 envelopes is 39, which is clearly less than the 108 vote difference between the seventh-place candidate (Fern Anuenue Holland) and eighth-place candidate (Ross Kagawa) in the 2024 General Election for Kauaʻi County Councilmember.

According to the State's data, for all Kauaʻi County precincts, there is a total of 25 overage mail ballots. The State's data confirms that the amount of overage for mail ballots will not cause a difference in the results of the Kauaʻi County Councilmember race.

Even when viewing the evidence in a light most favorable to Plaintiffs, there is no genuine issue of material fact of an overage that could cause a difference in the 2024 General Election results for Kauaʻi County Councilmember. See HRS § 11-172.

C. Plaintiffs' Memoranda in Support

Plaintiffs' December 10 and 12, 2024 Memoranda in Support is an attempt to amend its Complaint. Rather than rely only on

the County forms to assert that an overage exists, Plaintiffs now seek to rely on an email to assert there are 219 uncured envelopes in addition to the ballot envelope figures provided by the County forms. In doing so, Plaintiffs make no discernable argument explaining why the uncured ballots should be counted as an overage ballot.

Plaintiffs attached an email string to their December 10 Memorandum in Support with emails dated December 9, 2024. One of these emails appears to be from the Kauaʻi County Elections Division and states: "The final number of uncured envelopes is 219 for the 2024 General election."

But the final number of uncured envelopes in Kauaʻi County could have been discovered earlier, before the November 25, 2024 deadline to file a general election contest. See HRS § 11-106 (Supp. 2023) (stating in part that a voter "shall have five business days after the date of the election to cure the deficiency").

The General Election occurred on November 5, 2024. Plaintiffs' Complaint was filed on November 25, 2024. Rather than include the 219 uncured envelope argument in the Complaint, the Complaint instead states: "The records do not show that any number of voted ballot envelopes were separated for curing and not forwarded to the state counting center from the county."

County and the State filed their responses to the Complaint on December 4 and 5, 2024, respectively. Plaintiffs did not file a Memorandum in Support until December 10, 2024, or after County and State filed their responses to the Complaint.

"All pleadings in applications for writs or other relief, filed originally in the supreme court, shall conform to the requirements of Hawai‘i Rules of Civil Procedure 7 through 15." Hawai‘i Rules of Appellate Procedure Rule 16 (eff. 2000).

Rule 15(a)(1) of the Hawai‘i Rules of Civil Procedure (HRCP) states that a party "may amend the party's pleading once as a matter of course at any time before a responsive pleading is served[.]" Otherwise, "[i]n all other cases, a party may amend the party's pleading only by leave of court or by written consent of the adverse party; and leave shall be freely given when justice so requires." HRCP Rule 15(a)(2) (eff. 2012).

In civil lawsuits, this court applied HRCP Rule 15(a)(2) in a manner that "leave to amend a complaint shall be freely given and . . . undue delay alone is an insufficient basis for denying leave to amend a complaint." Carvalho v. AIG Hawai‘i Ins. Co., Inc., 150 Hawai‘i 381, 387, 502 P.3d 482, 488 (2022).

But this isn't an ordinary civil lawsuit. This is an election contest. This court must hear the general election complaint "as soon as it reasonably may be heard." HRS § 11-174.5(b) (Supp. 2021). In a primary election contest, this

court's decision must be issued within four days after the defendant's answer to the complaint is filed. See HRS § 11-173.5(b) (2009).

And the defendants are mandated with answering a complaint within ten days after service of the summons in a general election contest. HRS § 11-174.5(a) (2009). The defendants have five days after service of the summons to answer a primary election complaint. HRS § 11-173.5(a) (Supp. 2019) & Act 1 (March 5, 2024) (to be codified at HRS § 11-173.5(a)) (deleting language concerning primary election contests arising from a mandatory recount).

The election statutes are framed in a manner that mandates a quick resolution of each general and primary election complaint that is brought before this court. See HRS §§ 11-173.5, 11-174.5. As Plaintiffs themselves point out in their Motion for Interrogatories, certification of the results of a general election race is delayed due to a general election contest. See HRS § 11-174.5(b) (discussing the options that this court's Judgment may do to a general election); see also HRS § 11-155 (Supp. 2022) (certification).

Allowing amendments to an election complaint to be freely given under HRCP Rule 15(a)(2) is inconsistent with the quick decisions that this court is mandated to make on general and primary election complaints under HRS §§ 11-173.5 and 11-174.5,

and further delaying election certification due to an amended election complaint does not benefit the public's interest. We thus deny Plaintiffs' attempt to amend their Complaint through their December 10 and 12 Memoranda in Support.

D. Motion for Interrogatories

As for Plaintiffs' motion for interrogatories, an election contest is not intended to be used to delay certification of an election and thereafter raise issues concerning acts that may have been taken prior to certification. See HRS § 11-172 (concerning the basis of an election complaint).

Nor is an election contest intended to be used as a discovery device concerning the consequences of a delayed certification. See id.

Plaintiffs' motion for interrogatories is denied.

JUDGMENT

Based on the foregoing findings of fact and conclusions of law, Judgment is entered in favor of the State and County, and against Plaintiffs.

DATED: Honolulu, Hawai'i, December 20, 2024.

/s/ Mark E. Recktenwald

/s/ Sabrina S. McKenna

/s/ Todd W. Eddins

Subject: Meeting with the Permitted Interaction Group
Date: Friday, May 30, 2025 4:11:00 PM

Good afternoon,

We received your request to meet and agree to one (1) meeting with members of the Permitted Interaction Group (PIG), specifically, Peter Young, Anita Aquino, and Lindsey Kamm, to address questions directly pertaining to matters within the PIG's scope of responsibility.

Prior to scheduling the meeting, we request a written list of questions to be discussed so we can prepare accordingly. Additionally, please note the following:

- One (1) hour will be allotted for this meeting.
- No one outside of the PIG will be allowed to participate – **no exceptions**.
- We reserve the right to have a Deputy County Attorney present.
- The meeting will be on one of the following days: Monday, Tuesday, Thursday, and Friday (after 12:00 p.m.). **Not** available on Wednesday.
- **Not** available from 6/19/2025 to 6/30/2025.

Please send the PIG's list of questions and your preferred meeting date, and we will get the meeting scheduled.

Thank you.

Lyndon M Yoshioka
Office of the County Clerk
County of Kaua'i
4396 Rice Street
Lihu'e, Hawai'i 96766

Subject: Permitted Interaction Group Inquiry
Date: Friday, June 13, 2025 11:26:36 AM

CAUTION: This email originated from outside the County of Kauai. Do not click links or open attachments even if the sender is known to you unless it is something you were expecting.

Lyndon M. Yoshioka
Office of the County Clerk
County of Kauai
4396 Rice Street
Lihue, HI 96766

Dear Mr. Yoshioka:

Thank you for your email of May 30, 2025, and for offering to meet with members of the Elections Commission's Permitted Action Group (PIG). As two of our members are not on Kauai and it would be a hardship for them to fly over for a one hour meeting, we have decided to ask that you address the following very specific concerns and questions in writing.

These questions are presented as part of our statutory responsibility to ensure transparency and compliance with election laws and administrative rules. It is consistent with the position acknowledged in court by Judge Valenciano and Aaron Schulaner, General Counsel to the Office of Election. In a recent hearing, Mr. Schulaner affirmed that the Elections Commission has the authority to investigate and hold hearings in response to election-related complaints. He further noted that because the Commission had already formed a PIG to gather facts regarding potential irregularities in Kauai County, that statutory remedy should be followed, and Judge Valenciano concurred.

I would also like to note that we would like nothing better than to demonstrate that the chain of custody was unbroken and that the number of ballot envelopes collected, less those envelopes rejected in signature verification, less those ballots that were defaced, mutilated or illegible, equals the number of ballots in the "mail turnout" reported by the State in its Summary Report on November 13, 2024. We would expect that you would share that goal and that we could collaborate in proving it.

1. **Records Request -- HAR 3-177-453(b) Compliance**

Please provide records that comply with HAR 3-177-453(b). These would be documents **that do not include a disclaimer**, including:

- Chain of custody records that document the number of envelopes picked up at drop boxes and received from the USPS
- A summary of said records providing totals by location and date

- Records or receipts from USPS documenting daily deliveries
- A daily log of the number of envelopes that failed the signature verification process. We understand that the log may have to be constructed if the numbers are embedded in the Statewide Voter Registration System (SVRS).
- Documentation of the total number of envelopes transferred to the Counting Center

2. **Discrepancies between Ballot Totals and Collection Documents**

- On 10/22/2024, 3,004 ballot envelopes are noted in the USPS line without any notation and in a different ink (Exhibit A page 6). This entry changed the original total. Please provide an explanation. When was this USPS delivery made and who received it?
- On 11/5/2024 the Hanalei dropbox collection was changed from 91 ballot envelopes to 88 ballot envelopes, but it was recorded as 188 on the summary sheet (Exhibit A pages 1 and 30). The summary sheet should be corrected unless there is another explanation for the difference.
- On 10/18/2024 the record shows that the number of ballot envelopes from USPS was 81 and the number of undeliverable envelopes was 629 (Exhibit A page 2). That seems odd because on every other day the number of undeliverable envelopes was a fraction of the number of ballot envelopes received. Please assure us that those numbers were not inadvertently transposed.
- The total number of ballot envelopes received, according to your summary, following the addition of 3,004 ballot envelopes without explanation, was 26,633 (Exhibit A page 1).
- The total number of ballot envelopes transferred from the Kauai County office to the Counting Center was 26,954, according to the sum of daily totals on the Envelope Transfer Forms provided by the Office of Elections. That is 321 more envelopes than you collected. How do you explain the fact that you transported more ballot envelopes than you collected?
- The total "mail turnout" on Kauai as reported by the State was 27,075 (Exhibit C). That is 442 more ballots cast than ballot envelopes collected and 121 more than ballot envelopes transferred to the Counting Center. Please provide an explanation.

Thank you very much for your cooperation. We look forward to your response.

Sincerely,

Lindsay Kamm
Member, Permitted Interaction Group

AN EQUAL OPPORTUNITY EMPLOYER

1. Records Request -- HAR 3-177-453(b) Compliance

Please provide records that comply with HAR 3-177-453(b). These would be documents that do not include a disclaimer, including:

HAR §3-177-453(b) states, "The clerk shall maintain a complete and current count of all marksense ballots issued, spoiled, and received in their county. The accounting of marksense ballots by the clerk shall be recorded on forms prescribed by the chief election officer." Emphasis added.

The "form" prescribed by the chief election officer is TotalVote, the statewide voter registration system. TotalVote provides a point-in-time quantity of ballot packages sent, return identification envelopes received, and return identification envelopes deemed deficient.

- Chain of custody records that document the number of envelopes picked up at drop boxes and received from the USPS

  The County provided the Permitted Interaction Group (PIG) this information in its response dated May 30, 2025. Specifically, see Exhibit A in the County's Motion to Dismiss in response to SCEC-24-0000797 Cushnie v Nago.

- A summary of said records providing totals by location and date

  The County provided the PIG this information in its response dated May 30, 2025. Specifically, see Exhibit A in the County's Motion to Dismiss in response to SCEC-24-0000797 Cushnie v Nago.

- Records or receipts from USPS documenting daily deliveries

  The figures reflected in records or receipts from the USPS do not exclusively represent the quantity of return identification envelopes received through the mail. All incoming postage-paid mail pieces are included in the same report so relying on counts from USPS records/receipts to determine return identification envelope counts will yield inaccurate results. The USPS records/receipts are solely for tracking funds in the USPS account and are unsuitable for any other purpose.

  Redacted USPS documents for the 2024 General Election are attached.

- A daily log of the number of envelopes that failed the signature verification process. We understand that the log may have to be constructed if the numbers are embedded in the Statewide Voter Registration System (SVRS).

TotalVote tracks the quantity of return identification envelopes containing a deficiency which prevents the enclosed ballot from being counted pursuant to HRS §11-106 but does not provide a breakdown by the specific type of deficiency.

This information was provided to the PIG by the Office of Elections in its response dated April 25, 2025.

- Documentation of the total number of envelopes transferred to the Counting Center

  This information was provided to the PIG by the Office of Elections in its response dated April 25, 2025.

2. Discrepancies between Ballot Totals and Collection Documents

   "Collection documents" depict a manual hand-count of return identification envelopes and do not represent the official count. This manual hand-count was taken simply to track election progress.

- On 10/22/2024, 3,004 ballot envelopes are noted in the USPS line without any notation and in a different ink (Exhibit A page 6). This entry changed the original total. Please provide an explanation. When was this USPS delivery made and who received it?

  Staff are responsible for receiving return identification envelopes on the date noted on the corresponding "collection document."

- On 11/5/2024 the Hanalei dropbox collection was changed from 91 ballot envelopes to 88 ballot envelopes, but it was recorded as 188 on the summary sheet (Exhibit A pages 1 and 30). The summary sheet should be corrected unless there is another explanation for the difference.

  Any perceived inconsistency or correction within the manual hand-counts of return identification envelopes is irrelevant to the official election results, as they do **not** represent the official count.

- On 10/18/2024 the record shows that the number of ballot envelopes from USPS was 81 and the number of undeliverable envelopes was 629 (Exhibit A page 2). That seems odd because on every other day the number of undeliverable envelopes was a fraction of the number of ballot envelopes received. Please assure us that those numbers were not inadvertently transposed.

  The quantity of undeliverable ballot packages for October 18, 2024 correlates with the initial mass mailing of ballot packages for the 2024 General Election.

- The total number of ballot envelopes received, according to your summary, following the addition of 3,004 ballot envelopes without explanation, was 26,633 (Exhibit A page 1).

  Any perceived inconsistency or correction within the manual hand-counts of return identification envelopes is irrelevant to the official election results, as they do **not** represent the official count.

- The total number of ballot envelopes transferred from the Kauai County office to the Counting Center was 26,954, according to the sum of daily totals on the Envelope Transfer Forms provided by the Office of Elections. That is 321 more envelopes than you collected. How do you explain the fact that you transported more ballot envelopes than you collected?

  "Collection documents" depict a manual hand-count of return identification envelopes and do not represent the official count. This manual hand-count was taken simply to track election progress. Any perceived inconsistency or correction within the manual hand-counts of return identification envelopes is irrelevant to the official election results, as they do **not** represent the official count.

- The total "mail turnout" on Kauai as reported by the State was 27,075 (Exhibit C). That is 442 more ballots cast than ballot envelopes collected and 121 more than ballot envelopes transferred to the Counting Center. Please provide an explanation.

  "Collection documents" depict a manual hand-count of return identification envelopes and do not represent the official count. This manual hand-count was taken simply to track election progress. Any perceived inconsistency or correction within the manual hand-counts of return identification envelopes is irrelevant to the official election results, as they do **not** represent the official count.

FROM: Peter F. Young, Chair & Commissioner
State of Hawai'i Elections Commission / Permitted Interaction Group (PIG)
Anita Aquino, Member & Commissioner
State of Hawai'i Elections Commission / Permitted Interaction Group (PIG)
Lindsay Kamm, Member (Outside Appointment)
State of Hawai'i Elections Commission / Permitted Interaction Group (PIG)

TO: Michael Curtis, Chair
State of Hawai'i Elections Commission

SUBJECT: Report on the Investigation into State and Kauai County Compliance with HAR 3-177 and Discrepancies in Ballot Counts and Recommendations to the State of Hawai'i Elections Commission

DATE: July 13, 2025

This is a report of the Permitted Interaction Group (PIG), which concludes:

- The complaints regarding chain of custody and election result discrepancies on Kauai are valid.
- No logs or records complying with HAR 3-177-453 (b) requiring "The clerk shall maintain a complete and current count of all mark sense ballots issued, spoiled, and received in their county" were received from the County of Kauai.
- The count - based on scans of ballot envelopes into the Statewide Voter Registration System (SVRS) - is not reconciled with any manual counts and is not verifiable.
- The number of mail-in ballots increased from the number collected (26,633 less 219 rejected in signature verification as reported by the County, but not officially) to the final number counted on Kauai (27,075 - as officially reported by the State). No plausible explanation for the increase of 661 ballots was offered by Chief Election Officer Scott Nago or the Kauai County Clerk.

PIG Investigation Summary

The Permitted Interaction Group (PIG) was formed at the March 19, 2025 meeting of the Elections Commission with three members: Peter Young (Chair & Commissioner), Anita Aquino (Member & Commissioner), and Lindsay Kamm (citizen member). Its charge was to collect information to validate complaints regarding chain of custody and election results discrepancies on Kauai, then to present its findings and make recommendations back to the State of Hawai'i Elections Commission.

On March 17, 2025, Chief Election Officer Scott Nago wrote to the Elections Commission stating that, despite inquiries, “election officials, at all levels, work with the utmost integrity and dignity to ensure secure and accurate elections.” He also stated that the division of election responsibilities between the counties and the State is meant to prevent fraud. He further explained that the various checks and balances that assure an honest and accurate election may not be visible to an observer and may occur at some other point in time. The PIG recognizes the excellent work of the various election units throughout the State and commend their continued efforts to improve the processes involved in State of Hawai’i [various] elections each year.

On April 11, 2025, the PIG sent letters to Mr. Nago and the County Clerk requesting the daily records of the number of ballot envelopes received by the counties, the number verified, and the number transferred to the Counting Centers. The PIG asked the Clerk to demonstrate how they fulfilled HAR 3-177-453, which specifies,

> *“The clerk shall maintain a complete and current count of all mark sense ballots issued, spoiled, and received in their county. The accounting of mark sense ballots by the clerk shall be recorded on forms prescribed by the chief election officer.”*

Over the last three months, the PIG has had several written exchanges with Chief Election Officer Nago, Kauai County Clerk Jade Fountain-Tanigawa, and Kauai Deputy Clerk Lyndon Yoshioka. Both offices have responded to our requests, furnished documents, and offered explanations.

They have not, however, provided a clear understanding of how the checks and balances work, nor have they removed doubt about the integrity of the election procedures. The PIG did not receive documents that comply with the law cited above. There are discrepancies in the processes for us to have full confidence in 1) the County of Kauai’s ballot envelope count (manual hand-count vs. official count), or 2) the Statewide Voter Registration System (SVRS).

Specifically, the number of ballot envelopes increased from the number collected (26,633) to the number transferred to the Counting Center (26,954) after the 219 ballot envelopes that did not pass signature verification were removed. Both these counts are less than the total mail-in ballots counted on Kauai as reported by the State (27,075). Lyndon Yoshioka’s response to four separate questions is that

> *“Any perceived inconsistency or correction within the manual hand-counts of return identification envelopes is irrelevant to the official election results, as they do not represent the official count.”*

While this quote is true to fact, it does leave the PIG members trying to understand why there is a manual hand-count if it is “irrelevant” and why this manual hand-count discrepancy is not noted throughout the County’s documentation to address this confusion. The word “irrelevant” is off-putting to the members of the PIG.

The breakdown with the County occurs because all the documents that record the number of ballot envelopes received from the post office and collected from the ballot boxes have a disclaimer printed on them:

> *Figures in this spreadsheet represent a manual count of envelopes – not the number of ballots counted. This spreadsheet was created for internal purposes to track election progress with the understanding that it would not match official election results.*

If this manual hand-count is not official, providing a full explanation at each hand-count iteration would address this discrepancy from the counts that are official. The PIG could not find any iterative explanation between the manual hand-count and the official count. There appears to be no inventory control of ballot envelopes, and the Statewide Voter Registration System (SVRS) logs are electronic and unverifiable by the PIG. Although the law clearly makes the Counties responsible for this task and the State assures the people that there is a chain of custody in which every ballot envelope is accounted for, there remain questions. In addition, the law does not provide for Official Observers outside of the Counting Room; if they are allowed to observe ballot envelope collection or signature verification, it is as a courtesy.

Mr. Nago stated in his letter to the PIG on April 25, 2025:

> *“Overall, the structure of sharing responsibilities between entities (State and County) creates natural checks and balances such as the comparison of the number of voters who cast their vote in the election -maintained by the County Clerk, to the number of voted ballots counted – compiled by the Office of Elections.”*

In theory, it sounds valid, but in practice, there is no reconciliation between the two. One would expect the number of signature-verified ballot envelopes in SVRS to equal the number delivered to the Counting Center, but neither of those numbers are provided in real time, nor are they official. Mr. Nago states that the official count begins when the ballot envelopes are scanned by the Counties and recorded in the SVRS. This, then, is where the chain of custody begins, but there are opportunities to remove or add ballot envelopes prior to scanning.

PIG Recommendations

Having concluded our investigation, the PIG's recommendations are as follows:

1) Hold the State and County officials accountable for what happened during the 2024 General Election:
    a. From the County, request an official audit of ballot envelopes from the collection points to the transfer to the Counting Center.
    b. From the State, request an official audit to confirm that the State has 27,075 mail-in paper ballots in its possession.
    c. Hold a hearing to address the State and County elections officials about how the total number of mail-in ballots counted on Kauai grew to 27,075. This is in keeping with 3-170-9: "The elections commission may convene a public hearing to receive evidence and to solicit public comment concerning the investigation. Such a public hearing will be held within a reasonable time after the elections commission has completed its investigation."

2) Request that efforts be made to modify the administration of elections in the future and change the rules to ensure:
    a. Counties keep an accurate official daily count of ballot envelopes collected and received and publish a summary of the same. Any discrepancies between manual hand-count and official count be explained and attached to all summary statements of an election. This is not irrelevant.
    b. Allow Official Observers to be present for collection of ballot envelopes from ballot boxes and the sign-off on the numbers recorded.
    c. Allow Official Observers to be present for all steps of Signature Verification and sign-off on results.
    d. Counties keep an official record of the number of ballot envelopes that do not pass signature verification each day and publish a chart summarizing those numbers.
    e. Counties keep an official count of ballot envelopes transported to the County Centers and publish those counts. These counts should be included in any manual hand-count vs. official count discrepancy reports that are attached to any election summary report.

STATE OF HAWAII
OFFICE OF ELECTIONS
802 LEHUA AVENUE
PEARL CITY, HAWAII 96782
elections.hawaii.gov

SCOTT T. NAGO
CHIEF ELECTION OFFICER

July 29, 2025

Chair Michael Curtis and Members of the Elections Commission
c/o Office of Elections
802 Lehua Avenue
Pearl City, Hawaii 96782

Dear Chair Curtis and Members of the Elections Commission:

This is in response to the *Report on the Investigation into State and Kauai County Compliance with HAR 3-177 and Discrepancies in Ballot Counts and Recommendations to the State of Hawai'i Elections Commission* dated July 13, 2025, by the Commission's Permitted Interaction Group (PIG). Our office has reviewed the materials provided to the PIG and determined that the official record of voters/return envelopes, as recorded in the electronic form of the statewide voter registration system (SVRS), aligns with the collection documents created by the Kauai County Elections Division, the complete set of Business Reply Mail (BRM) receipts provided to the Kauai County Elections Division, and the transfer of return envelopes to the Kauai Counting Center. Our response also provides the list of the documents as linked attachments.

As background, the mission of the Office of Elections is to provide secure, accessible, and convenient election services to all citizens statewide. The office works cooperatively and collaboratively with the County Elections Divisions to conduct the elections. The responsibilities of each office are provided by statute with the state responsible for the printing and counting of ballots and the counties responsible for voter registration and voting, including the mailing and receipt of ballots and establishing and operating places of deposit and voter service centers.

Return Envelopes Transferred to Counting Center,																				
Records of transfer to counting center							9,558				3,600			4,841			4,216	4,739	82	27,036
Cumulative Envelope Transfer							9,558				13,158			17,999			22,215	26,954	27,036	27,036

To highlight some key points noted on the table:

- In comparison to the SVRS, there is a difference of 4 return envelopes to the collection of drop boxes by the Kauai Elections Division and the BRM receipts, noted by the gray filled boxes.

- In comparison to the SVRS, there is a difference of 21 ballots to the transfer of return envelopes to the Kauai Counting Center, noted by the green boxes.

We recognize that the differences may be attributed to human errors in the hand-count and hand-written records. Specifically, in our review of the BRM receipts provided by the Kauai Elections Division, along with the collection documents for drop boxes and receipt of electronic ballots, they reflect a total of 27,272 ballots as compared to the total recorded in the SVRS of 27,276.

Further, we have added the tracking of invalid (e.g., deficient) return envelopes that a voter may cure within 5 business days post-election, to demonstrate how the total of 219 invalid return envelopes works into the accounting records.

LIST OF DOCUMENTS

- Attachment A – April 11, 2025, the PIG sent a letter to our office seeking the following: (1) "Records of the daily count of ballot envelopes collected from drop boxes and the USPS;" (2) "Transfer records of ballot envelopes from the Counties to the State;" (3) "Statewide Voter Registration System records showing the daily number of ballot envelopes that were signature verified;" and (4) "Daily logs that were used to compile over/under reports."

- Attachment B – April 11, 2025, the PIG sent a letter to the County of Kauai seeking the following: (1) "Records of the daily count of ballot envelopes collected from drop boxes and the USPS;" (2) Transfer records of ballot envelopes from the County to the State;" (3) "Statewide Voter Registration System records showing the daily number of ballot envelopes that were signature verified;" and (4) "Daily logs that were used to compile over/under reports."

- Attachment C – April 25, 2025, our office responded by providing the transfer records, the daily number of ballot envelopes that were signature verified, and the documentation used to compile the Over/Under report.

- Attachment D – April 28, 2025, the County of Kauai responded to the PIG.

- Attachment E – May 12, 2025, the PIG sent a second letter to the County of Kauai contending that its review of the data reflected that 23,303 ballot envelopes were received as compared to the 27,075 ballots accepted by the

State. Additionally, it expressed that its interest was piqued by the "addition of 3,004 ballots on October 22nd."

- Attachment F – May 30, 2025, the County of Kauai responded to the PIG in which it correctly pointed out the statewide voter registration system was the official system of record for purposes of various election metrics. Additionally, it directed the PIG to the Hawaii Supreme Court's decision, which was informative in addressing what the court considered relevant for the reconciling of results.

- Attachment G – May 30, 2025, the County of Kauai sent the PIG an email in response to a telephone message from the PIG seeking to meet in person.

- Attachment H – June 13, 2025, the PIG decided instead to submit, in writing, questions.

- Attachment I – June 23, 2025, a response was provided by the County of Kauai in which it pointed out that the statewide voter registration was the official means by which HAR § 3-177-453(b) was met. In contrast, it pointed out that the manual hand-count taken on different forms were taken simply to track election progress and did not constitute the official count of return identification envelopes.

Based on our review of the records that had been provided to the PIG by both the Kauai Elections Division and our office, we confirmed that the number of return envelopes received – including the BRM receipts, collection of drop boxes, electronic ballots, and invalid return envelopes, are consistent with the number of ballots counted and reported by the counting center.

Please feel free to contact me at (808) 453-VOTE (8683) or elections@hawaii.gov if you require additional information or have any further questions.

Very truly yours,

SCOTT T. NAGO
Chief Election Officer
