Written Testimony - regarding the Commission's powers to redesign current PRIMARY ELECTIONS BALLOT

From: Emil Svrčina

Date of Submission: Friday, August 23, 2024

Contact information: emilsvrcina@gmail.com or website www.EmilClearChoice.com

A/ I'm asking Election Commission to redesign the unconstitutional ballot which is disqualifying nonpartisan candidates and disenfranchising nonpartisan voters from participating in primary elections (**record breaking number in 2024 - almost 70%**):

1. On the primary elections ballot the box for Nonpartisan Ballot has to be removed from the list of the political parties. "Nonpartisan Ballot" is NOT a party. This design error is causing disenfranchising of the majority of Hawaii registered voters. Majority of voters are nonpartisan because they don't associate with any party platforms and wish NOT to be stating their party preference as a condition for their voting (as granted to them by Hawaii constitution 12:32 section).
2. All nonpartisan candidates shall be available as a valid choice for voters without danger of spoiling the ballot as it is done for OHA, mayoral, and council members candidates. Choosing **ONLY ONE** person for a specific seat regardless of stated preference of the party or nonpartisanship shall be allowed. If there is more than one nonpartisan candidate for voters to choose from, common sense will be applied: the one with a simple majority of votes shall advance to the general elections.

B/ All candidates running unopposed within their party shall have their names displayed **ONLY** informing voters that this candidate is automatically advancing to general elections. **NO NEED TO VOTE FOR THEM.** There shall be no box for voters to check.

Thank you for seriously considering these changes to make the Hawaii election process meaningful and relevant to the majority of we the people of Hawaii again. This will restore voters' trust in Hawaii Election Process and will be reflected in their desire to participate and election turnout.

Subject: [EXTERNAL] Election Commission ~Please Remove Scott Nago
Date: Friday, August 23, 2024 2:52:16 PM

Aloha Election Commission members,

Please hear my plea. Scott Nago, Head of the Office of Elections, has shown that he does not honor the election process. Please take action to remove him from his position and choose another whom we can trust.

Reasons for Mr. Nago's termination include, but are not limited to:

- The *Cast Vote Records* for Hawai'i County's 2020 election, which federal law requires that Scott Nago's position must maintain for 22 months, were removed from his office. That is a federal felony.
- An eye witness told Mr. Nago that there was a potential connection to the internet at the election station (which is illegal AND makes the results vulnerable to manipulation). He disregarded the witness's concern and, instead, called the police on him.
- Numerous citizens complained to Mr. Nago about concerns they had with election integrity, and they were ignored by him.
- Mr. Nago failed to correctly inform the Election Commission during the June 2024 meeting of retention/preservation, appearing to suggest that records could not be accessed until AFTER the 22 month period.

I request that the Commission terminate the employment of at-will employee Election Officer, Scott Nago, and refer the details of extensive citizen testimony regarding felony, fraud, obstruction, etc., to appropriate legal authorities, as required under the law.

Mahalo for your prompt attention to this matter.

Election integrity is an essential foundation of our public trust.

Elections Commission Testimony
Corinne Solomon
Honolulu Resident

Aloha Elections Commission Chair Curtis and Elections Commission Members,

This past August 10 Primary election had the lowest voter turnout since statehood.

On August 11th news reporter Eddie Dowd interviewed people asking, "Did you know Hawaii had an election on August 10th?" and posted the video on social media.

The comments were discouraging.

Many people not only reported that they weren't aware of the election, but that they never received a ballot.

I asked the question on social media, "Did you get a ballot?" and had similar replies.

Here are the responses from the social media posts (names have been withheld for privacy):

1. "I got mine, plus 5 extra for people in my family who no longer live here"
2. "I'm registered and I voted in person. I did move house but I forwarded my mail"
3. "I have lived at the same address for over 50 years [did not get a ballot]"
4. "I didn't get one voted in person"
5. "My family didn't get any [ballots]...I just checked and we're registered"
6. "I did not get one"
7. "I got one for my dad who passed away 3 years ago"
8. "I didn't get one"
9. "My wife and I didn't get any [ballots]"
10. "I did not get one"
11. "I never got a ballot or anything telling me where to vote?"
12. "Never got mine in the mail and because it was on a Saturday, I work and couldn't go down to an actual poll"

13. "I didn't get a ballot in the mail, but I know elections are in August so I looked up the date online and went in person"
14. "I never received my mail in ballot"
15. "My husband didn't get his...I got mine tho (sic)...Also when we went to the Kaneohe voting station they told us it was closed and we had to put our ballot n the box outside...and because my husband didn't get his in the mail he didn't get to vote"
16. "I didn't get anything?"
17. "I didn't get mine in the mail. Don't just assume people got their ballot in the mail. I live in an area that has a large homeless community that just helps themselves to what is in our mailbox and property when we are away at work and children in school"
18. "We got ours but also got one for a deceased relative (passed away 6 years ago)"
19. "I don't think I received one"

How many people did not receive ballots and were thus disenfranchised?

When Representative Diamond Garcia went to the Office of Elections in May to file his candidacy paperwork he was told his voter registration was inactive, despite not having moved. Curious if this had happened to other registered voters, myself and another Hawaii Republican Party volunteer contacted some people who voted in person in our party primary in March and asked them to check their voter registration to see if they had been switched to inactive.

Adriel Lam sent a letter to the City Clerk's office with the names of those who replied that they had been switched to inactive and asked that this be investigated. As of August 23, 2024, he has not received a reply.

I humbly ask the Elections Commission to request from the Chief Elections Officer and each of the city and county clerks the Business Reply Mail (BRM) receipts from USPS for the August 2024 primary mail ballots, and the voter registration lists from each county that were submitted to the ballot printers, to start an investigation into how so many voters appear to not have received ballots and/or had their voter registration status switched to inactive, despite not changing their residence or mailing address.

Respectfully submitted,

Corinne Solomon

Subject: [EXTERNAL] Actual votes versus recorded vote totals in 8/11/24 primary. Analyst shares her Hiding In Plain Sight "deep dive." Re: Testimony regarding August 24 agenda - Election Officer Scott Nago
Date: Friday, August 23, 2024 3:29:06 PM

From an analyst looking at the recent primary:

"I am taking my information from the Statewide Summary report dated 8/11/24 at 07:15:28 am

Doing my deep dive into election numbers this is what I found
Hiding in Plain Sight.

Go to pg.5 Statewide Election Results, Registration and turn out all the ballots received: 269,912 32.1%

L@@@K at the parties listed.

No Label is listed as a party with 1,975 mail in and 50 in person = 2,025 votes. Yet, no person on the whole ballot was listed as representing that party (NL)

No one was listed representing the Solidarity party (S) but mail in 79 votes and in person votes of 8 for a total 87 voted count.

No one was listed for the Socialism and Liberation (SL) party but 84 mail in and in person votes of 6 for a 90 voted count.

*** That's 2,202 extra ghost votes !***

Other errors:

(G) party with 3 candidates actual total votes 1382 but recorded vote count 1612

(W) party with 2 candidates actual total votes 975 but recorded vote count was 1,140

(N) party with 3 candidates actual total votes 1949 but recorded vote count was 2,163

(L) party with 3 candidates actual total votes 410 but recorded vote count was 553

Total actual votes:4,116 but recorded vote total 5,346. That's

extra votes 1,352.

So the 2,202 ghost votes from above and the 1,352 extra ghost votes equals a whopping 3,554 votes going to pad someone else's numbers!

Submitting testimony for Agenda item VIII Primary Election Metrics Election Results

I am taking my information from the Statewide Summary report dated 8/11/24 at 07:15:28 am

Doing my deep dive into election numbers this is what I found **Hiding in Plain Sight.**

Go to pg.5 Statewide Election Results, Registration and turn out all the ballots received: 269,912
32.1%

I direct your attention to the parties listed.

No Label is listed as a party with 1,975 mail in and 50 in person = 2,025 votes. Yet, no person on the whole ballot was listed as representing that party (NL)

No one was listed representing the Solidarity party (S) but mail in 79 votes and in person votes of 8 for a total 87 voted count.

No one was listed for the Socialism and Liberation (SL) party but 84 mail in and in person votes of 6 for a 90 voted count.

* That's 2,202 extra ghost votes !*

Other errors:

Green(G) party with 3 candidates actual total votes 1382 but recorded vote count 1612

We The People (W) party with 2 candidates actual total votes 975 but recorded vote count was 1,140

NonPartisan (N) party with 3 candidates actual total votes 1949 but recorded vote count was 2,163

(L) party with 3 candidates actual total votes 410 but recorded vote count was 553

Total actual votes:4,116 but recorded vote total 5,346. That's extra votes 1,352.

So the 2,202 ghost votes from above and the 1,352 extra ghost votes equals a whopping 3,554 votes.

Are these Technical machine errors? Are zero reports being recorded on all the voting equipment each day?

Who is the current Statewide Counting Manager? That person is responsible for the operations of all counting centers statewide.

The Voter Verifiable Paper Audit Trail is used to verify the election results. HRS 16-41.

I respectfully request an answer to this from the Statewide Counting Manager or Scott Nago

Written Testimony - regarding the Commission's powers to redesign current PRIMARY ELECTIONS BALLOT

From: Emil Svrčina

Date of Submission: Friday, August 23, 2024

Contact information: emilsvrcina@gmail.com or website www.EmilClearChoice.com

A/ I'm asking Election Commission to redesign the unconstitutional ballot which is disqualifying nonpartisan candidates and disenfranchising nonpartisan voters from participating in primary elections (**record breaking number in 2024 - almost 70%**):

1. On the primary elections ballot the box for Nonpartisan Ballot has to be removed from the list of the political parties. "Nonpartisan Ballot" is NOT a party. This design error is causing disenfranchising of the majority of Hawaii registered voters. Majority of voters are nonpartisan because they don't associate with any party platforms and wish NOT to be stating their party preference as a condition for their voting (as granted to them by Hawaii constitution 12:32 section).
2. All nonpartisan candidates shall be available as a valid choice for voters without danger of spoiling the ballot as it is done for OHA, mayoral, and council members candidates. Choosing ONLY ONE person for a specific seat regardless of stated preference of the party or nonpartisanship shall be allowed. If there is more than one nonpartisan candidate for voters to choose from, common sense will be applied: the one with a simple majority of votes shall advance to the general elections.

B/ All candidates running unopposed within their party shall have their names displayed ONLY informing voters that this candidate is automatically advancing to general elections. NO NEED TO VOTE FOR THEM. There shall be no box for voters to check.

Thank you for seriously considering these changes to make the Hawaii election process meaningful and relevant to the majority of we the people of Hawaii again. This will restore voters' trust in Hawaii Election Process and will be reflected in their desire to participate and election turnout.

Subject: [EXTERNAL] Election Commission MUST Remove Scott Nago
Date: Saturday, August 24, 2024 12:59:04 PM

Aloha Election Commission,

Scott Nago, Head of the Office of Elections, must be removed from his position as he has shown numerous times he has no integrity and does not honor the election process.

Reasons for his termination include, but not limited to the following:

- The Cast Vote Records for Hawai'i County's 2020 election, which federal law requires that Scott's position must maintain for 22 months, were removed from his office. That is a federal felony.
- An eye witness told Mr. Nago that there was a potential connection to the internet at the election station (which is illegal AND makes the results vulnerable to manipulation). He disregarded the witness's concern and instead called the police on him.
- Numerous citizens complained to Mr. Nago about concerns they had with election integrity and he ignored them completely.
- Mr. Nago failed to correctly inform the Election Commission during the June 2024 meeting of retention/preservation, appearing to suggest that records could not be accessed until AFTER the 22 month period.

I request that the Commission **terminate** the employment of at-will employee Election Officer Scott Nago and refer the details of extensive citizen testimony regarding felony, fraud, obstruction, etc., to appropriate legal authorities, as required under the law.

Regards,
Donald Noguchi

Chair of the Elections Commission

Please extend my appreciation to Scott Nago and his elections team for a well run primary election.

I have worked with the elections staff as a candidate, as part of other campaigns, and in the past as Interim Chair of the Democratic Party. I have been on both the winning and losing side of many election contests.

In all these roles I have appreciated the responsiveness and patience of the elections staff and that of Scott Nago.

It is my hope that the Commission members while holding the staff accountable will be mindful of the advice and opinions of the Attorney General. If there are disputes, these should be based on facts and sound legal advice and if necessary resolved in a court of law.

It is my hope that the commission will use its time and efforts to improve the administration of elections, and ask the Legislature to fund efforts to do that.

Sincerely

Kathleen (Kate) G. Stanley

Date: Saturday, August 24, 2024 4:26:43 PM

Hope Alohalani Cermelj ~ a recent candidate for OHA {trying to eradicate the rampant corruption therein} ~ has access to cellphone footage of vote counters in Hilo tossing ballots containing votes for candidates not already selected for office by the "establishment." This followed a similar "tossing out" of citizens who were supposed to be monitoring the vote counting.

Aloha Election Commission,

Scott Nago, Head of the Office of Elections, must be removed from his position as he has shown numerous times he has no integrity and does not honor the election process.

Reasons for his termination include, but not limited to the following:

- The **Cast Vote Records** for Hawai'i County's 2020 election, which federal law requires that Scott's position must maintain for 22 months, were removed from his office. **That is a federal felony.**
- An eye witness told Mr. Nago that there was a potential connection to the internet at the election station (which is illegal AND makes the results vulnerable to manipulation). **He disregarded the witness's concern** and instead called the police on him.
- Numerous citizens complained to Mr. Nago about **concerns they had with election integrity** and he ignored them completely.
- **Mr. Nago failed to correctly inform the Election Commission** during the June 2024 meeting of retention/preservation, appearing to suggest that records could not be accessed until AFTER the 22 month period.

I request that the Commission **terminate the employment of at-will employee Election Officer Scott Nago** and refer the details of extensive citizen testimony regarding felony, fraud, obstruction, etc., to **appropriate legal authorities, as required under the law.**

If Members of the Election Commission to not act according to law regarding any of the above points, they should lose their position on said Commission, and all legal remedies should be examined.

Regards,
Dr Kana Leohano

Reasons for his termination include, but not limited to the following:

- Federal law requires an Election Officer (Scott Nago) to retain, preserve, and maintain control over & access to the Cast Vote Records for 22 months following an election. He states that, before the 22 months concluded, he lost access and could not provide citizens with those records. **This is a federal felony.**
- An eye witness told Mr. Nago that there was a potential connection to the internet at the election station (which is illegal AND makes the results vulnerable to manipulation). Nago disregarded the witness's concern. The County Clerk called the police on the witness. Other observes vouched for the witness and the police left. However. Scott Nago sent the witness an email, removing him as an Election Observer. Nago had no right to do that!

Coordinated takedown... instead called the police on him.

- Numerous citizens complained to Mr. Nago about concerns they had with election integrity and he ignored them completely.
- Mr. Nago failed to correctly inform the Election Commission during the June 2024 meeting of retention/preservation, appearing to suggest that records could not be accessed until AFTER the 22 month period.

I request that the Commission **terminate** the employment of at-will employee Election Officer Scott Nago and refer the details of extensive citizen testimony regarding felony, fraud, obstruction, etc., to appropriate legal authorities, as required under the law.

Regards,

Lana C Frutoz

Subject: [EXTERNAL] Remove and Investigate Scott Nago
Date: Sunday, August 25, 2024 3:30:21 PM

I respectfully request that the Election Commission terminate the employment and investigate Election Officer Scott Nago. The Commission should refer the details of extensive citizen testimony regarding felony, fraud, and obstruction to the appropriate authorities, as required under the law.

Scott Nago, the Chief Elections Officer of Hawaii, has been involved in several election-related controversies, legal cases, and investigations.

Below are some key points found with simple online search to 2011 followed by recent testimony by citizens of failure to respond and inconsistencies with ballot security:

1. **Adriel Lam's Complaint: In 2021, Adriel Lam, a Kaneohe resident, filed a complaint with the Hawaii State Elections Commission alleging inconsistencies in the state's voter registration database. Lam claimed that deceased people received ballots, and some voters were registered multiple times. Nago responded that the office had reviewed the database and found no evidence of fraud.**
2. **Voter Registration Roll Investigation: The Elections Commission launched an investigation into Lam's claims, which included a review of the voter registration rolls. Nago and county clerks wrote to the commission stating that without more specific details, they couldn't conclude that the number of updates was unreasonable or indicative of a systemic problem.**
3. **Concerns about Election Integrity: Sandy Ma, Executive Director of Common Cause Hawaii, expressed worry that some commissioners might be "fixated" on the 2020 election and potentially conducting a sham review spurred by partisan operatives. Ma emphasized that such reviews undermine democracy and perpetuate misinformation.**
4. **FBI Investigation: In another incident, the FBI investigated allegations of voter fraud on the Big Island, which led to the shutdown of the elections office in Hilo for an "audit" just before the primary election. Nago's calls to the county clerk went unanswered, raising concerns among politicians and elections officials.**
5. **Past Controversies: Nago has faced criticism for his handling of past elections, including ballot shortages on Oahu during the 2012 general election. Although he kept his job, the state Elections Commission concluded that his office had made mistakes, but Nago had learned from them. <https://www.hawaiinewsnow.com/story/20709877/chief-elections-officer-scott-nago-keeps-his-job/>**

Below is testimony submitted by Sherilynn Wells whom has done outstanding work researching and documenting the recent failures of Mr. Nago. As a Federal level investigator of over 32 years I am in concurrence with the due diligence provided by Ms. Wells and adding it to my own testimony:

Should any Commissioner fail to take appropriate action, this fits the definition of an accessory after the fact^[1] to a federal felony (someone who is obstructing justice), to engage in misprision of felony^[2] ... creating "one continuous criminal transaction"^[3]

SUMMARY.

1. Federal Election Records Preservation and Retention mandate for 22 months following an election. 52 U.S. Code § 20701. (a) applies to state/local election officials as well and (b) control/access is required regardless of who has physical custody). See Dept of Justice document (attached).
2. Scott Nago's replies to citizen/voter requests for Hawai'i County's 2020 Cast Vote Records. Proof of felony. Requests and replies attached.
3. Penalties for failure to conform to federal law. Incarceration and/or fines ^[4].
4. Conclusion: a matter for Summary Judgment. Guilty on the unambiguous facts.
5. Accountability (horizontal) and potential for individual Commissioners to be an Accessory After The Fact ("one continuous criminal transaction"); Misprision of Felony.
6. Scott Nago failed to correctly inform Election Commission during June 2024 meeting re meaning of retention/preservation, appearing to suggest that records could not be accessed until AFTER the 22 month period. See Wells' June 20, 2024, email to Commission. Content provided at end of this testimony – page 11.
7. Examples of Scott Nago stonewalling or refusal to respond to citizens. See attachments.

(a) irrelevant Hawai'i statutes cited in Notice to Requestor, both Wells and Kerr. See attachments – Notice to Requestor Sherilyn Wells, Notice to Requestor Michelle Kerr, Request for Clarification SMALLER FONT.

(b) failure to respond to request for clarification following said Notice. See attachment - Request for Clarification SMALLER FONT.

(c) failure to respond substantively to request for procedures. See attachment - **Exact Contents of September/October 2022 Email Request/Reply/Response for Elections Office Procedures**

(d) no acknowledgment of receipt of emailed requests for records, necessary to prove timeliness as well as receipt. See attachment - September 10 Final Legal Declaration, #3;

(e) **refusal to accept hand-delivered hard-copy citizen requests for records** – insistence on copying request/document out of sight in another room. See attachment - September 10 Final Legal Declaration, #8, #9.

(f) Video of a candidate attempting to get staff at the Office of Elections to answer questions about her prior submission.

The stonewalling is typical. **Return to Office of Elections (Sept 8, 2022) 4K.**

<https://www.youtube.com/watch?v=XhnA4KSHloc>

8. Attempt to silence/punish Election Observer/Whistleblower Austin Martin for revealing election station vulnerabilities (connection to internet).

See video interview at <https://rumble.com/v2ig80s-hawaii-elections-whistleblower-austin-martin.html?mref=6zof&mrefc=2> .

Minute 19:13 – This printout pops out of the transmission device that shows its operating system and confirms that it's connected to the internet and it's standing by...

Minutes 5 to 8:30 – "Supposedly, none of it's hooked up to the internet... it's supposed to

be air-gapped^[5] ." "I've seen enough to know there's definitely some shenanigans."

Minute 11:20 – re the state Attorney General's investigation **as revealed in court**. "...at least 75,000 votes added from a single computer"

Minute 13:55 – recorded dialogue with Hart InterCivic at election observer training re cellular modem vs. federal certification requirements that devices not be connected to the internet. Hart InterCivic answers keep shifting from one training to the next.

Minute 17:40 - found unsecured and unlocked server room with unidentified equipment. Saw modifications that had recently been made to building's wiring and

transmitter devices. None of the code lock mechanisms were engaged.

Minute 18:40 - Unsecured USB ports. Unsecured Ethernet ports.

Minute 18:55 - This was a completely unsecured system in every sense of the word. The reps are lying about how connected it is...

Minute 19:13 - This printout pops out of the transmission device that shows its operating system and confirms that it's connected to the internet and it's standing by...

Minute 20:03 - Want to know what else they left laying out in the open? Sticky notes with our elections passwords written on them.

Minute 22 to 25:15 - County Clerk ^[6] aggressively confronts Austin Martin (election observer) for asking questions and then calls the police. Tries to order all the election observers/witnesses to leave. Police decline to intervene after listening to election observers vouch for Austin Martin and say County Clerk was at fault.

Minute 25:50 - Immediately, email arrives from Scott Nago - revoking Austin's status as an Election Observer. Austin's attempts to then inform Scott Nago of issues Austin observed - fruitless.

Minute 28:15 - "...pretty clear that (Scott Nago) had suppressed my voice intentionally. The decision to remove me was NOT based on ignorance, but was based on a desire to protect the behavior that we (election observers) got to witness and, if anything, he (Scott) was mad that he didn't get that (revocation email) in time to have the cops help him discredit me. They were fully intending ... to effect some kind of criminal charge against me for the crime of doing my job as an election observer." Austin Martin, Election Observer/Whistleblower

Sherilyn adds - Consider the relevance of **18 U.S.C. § 371 - Conspiracy to commit offense or to defraud the U.S.** - <https://law.justia.com/codes/us/title-18/part-i/chapter-19/sec-371/>

Federal Election Records Retention/Preservation Mandate - applies to local and state officials as well.

Voting records in all forms must be preserved and retained for a minimum of 22 months following an election, "regardless of who has physical possession ^[7]," including access to and control over those records by an election official. 52 U.S. Code § 20701. ^[8]

In conclusion, Scott Nago has been involved in several election-related controversies and investigations in Hawaii, including allegations of voter registration database inconsistencies, concerns about election integrity, and FBI investigations into voter fraud claims. The evidence presented is overwhelming and it is your duty to mitigate these issues with transparency and integrity of Hawaii elections by providing personnel that can act in the best interest of Hawaiian citizens. Mr. Nago has repeatedly violated numerous codes/laws according to whistleblowers. Enough is enough!!!

Subject: [EXTERNAL] Follow up to my letter dated July

Good Morning Commissioner Curtis and all Election Commissioners,

This email, dated July 17, 2024 is a follow-up to my email to the Election Commission dated July 8, 2024. (I have attached it as a word doc and pasted it below from my original email dated July 8th).

I was told that in order to contact the Election Commission/Commissioners, I am to email the O.E.Elections at the following address: elections@hawaii.gov and the office of elections forwards the email to all of the commissioners. have the commissioners received my email from July 8th? I have not heard back from anyone yet. I am resubmitting my letter to the Chair Curtis and to the Election Commission, below and attached as my second attempt to be acknowledged, and I would like a response from the Chair of the Commission, Mr. Curtis. Please address the specific sections of the letter which are bolded or underlined.

The motion was passed that Chair Curtis would send every correspondence to all of the commissioners. **Is Chair Curtis not receiving these correspondences?**

Please acknowledge this and reply so that I know you are forwarding this the email to the commission. I would also like this email and the attachment to be included in the next Election Commission meeting under Communications & Correspondence.

Thank you,
Jennifer

To: Hawaii Election Commission:
Date: July 8th, 2024

I have been attending the meetings for about 2+ years, including all the meetings in 2024. I wanted to make a few points and a request.

During all of these meetings with Chair Curtis as Chair, it is an obvious observation that Chair Curtis is antagonistic to Commissioner Cushine for reasons not understood. His behavior towards Mr. Cushine during the last meeting on June 19th was outright disgraceful and was definitely a violation of decorum.

In my opinion, Commissioner Cushine brings issues to the table that needs attention; things the legitimate voting base has been asking for, for 4 years. The past Commission has failed the people by not addressing concerns. The new Commissioners on this Commission are at least trying to address these concerns, and yet there is push-back. Why? From my point of view, it looks very suspicious.

It is obvious that a handful of the same commissioners tend to vote opposite of whatever the testifiers want, without ever justifying their vote. **Do the commissioners in question have an allegiance to anyone other than the people they swore an oath to serve?**

The people that are eligible to vote in Hawaii have been very concerned about the elections: the machines and “proprietary” software from a 3-party vender (Hart); technology - hardware and software not understood by Election officials nor the Election

Commission; the Election Office not conducting the post-election audits as required by law; he mail-in ballots being sent to everyone on the voter rolls, the voter rolls being bloated and grossly inaccurate; the lack the chain of custody of the mail-in ballots, for both for the drop box and post office return; lack of maintenance of the voter roll; the 10-day election “season”, which is an unnecessary cost to the tax-payers in Hawaii and a waste of time and resources that could otherwise be used to run a 1-day election; the centralized counting center, not accessible to the public, who have a right, by law, to watch the count happen.

All these issues have been ignored by Scott Nago and some members of the Election Commission.

The people have spoken. They want Scott Nago gone. On June 19th, Election Commission voted to remove Mr. Nago and the vote to remove him passed. The 100 people on the call understand this was legitimate vote. The Deputy Attorney General also understands this was legitimate vote. The only one who does not is Chair Curtis. He does not have this authority to determine what is legitimate; he is there to facilitate the meeting.

Why does Commissioner Curtis want Mr. Nago to stay in this the CEO position, when Mr. Nago has done so poorly by the voters of Hawaii? Does Commissioner Curtis have an allegiance to anyone other than the people he swore an oath to serve?

During the last meeting, two testifiers spoke during their allotted 3 minutes. These two men, James V. and Clint Curtis (no relation to Chair Curtis I believe?), spoke with authority about technology used in the Hawaii Elections. These two should have a special presentation time for the July meeting, because their expertise would be very beneficial to the commission, since the commissioners have, on many occasions admitted that they are not equipped to understand the technology side of our elections. I would like these two men, if they are willing to come back, to have time to explain to the commission how this technology works; let the commissioners understand what experts say about the current technology before determining if this machinery is conducive to free and fair elections (from a source other than Scott Nago’s office if you please - conflict of interest there). This is especially important for the commissioners who do not want to look deeper into the machine/tech side of our* elections.

The bottom line is this: Our elections are not transparent. The legitimate voters want 1-day voting in precincts (i.e. local neighborhoods), paper ballots and hand counting there at the precinct while the people watch! They want those results to stand and to be sent from that location up to the subsequent, district, county and state counts – the simple process as it was conducted in

the past. A simple, 1-day vote will produce the results well before 10 pm on election night. The common talking point is that there needs to be legislation to do so. Not true. The Election office has room to implement elections in this manner within the language of the law and the constitution – which says Election Day, not election 2-weeks.

NO MORE BS. The elections as they stand now are a waste of time and resources and bring lots of suspicion. People do not trust that our elections are truly free and fair.

Please share this letter with all of the commissioners.

Thank You,

Jennifer

*These elections are for the people, not the election office, clerk office or the politicians that make laws concerning them.

Subject: [EXTERNAL] Scott Nago, Head of the Office of Elections
Date: Sunday, August 25, 2024 10:18:51 AM

Aloha Election Commission,

Scott Nago, Head of the Office of Elections, must be removed from his position as he has shown numerous times he has no integrity and does not honor the election process.

Reasons for his termination include, but not limited to the following:

- Federal law requires an Election Officer (Scott Nago) to retain, preserve, and maintain control over & access to the Cast Vote Records for 22 months following an election. He states that, before the 22 months concluded, he lost access and could not provide citizens with those records. **This is a federal felony.**
- An eye witness told Mr. Nago that there was a potential connection to the internet at the election station (which is illegal AND makes the results vulnerable to manipulation). Nago disregarded the witness's concern. The County Clerk called the police on the witness. Other observes vouched for the witness and the police left. However. Scott Nago sent the witness an email, removing him as an Election Observer. Nago had no right to do that!

Coordinated takedown... instead called the police on him.

- Numerous citizens complained to Mr. Nago about concerns they had with election integrity and he ignored them completely.
- Mr. Nago failed to correctly inform the Election Commission during the June 2024 meeting of retention/preservation, appearing to suggest that records could not be accessed until AFTER the 22 month period.

I request that the Commission **terminate** the employment of at-will employee Election Officer Scott Nago and refer the details of extensive citizen testimony regarding felony, fraud, obstruction, etc., to appropriate legal authorities, as required under the law.

Regards,

Scott Martin

Election Integrity Testimony, 5/14/2024

Paul Deslariers Resident: Kihei, Maui Phone: 808-264-3536

Aloha State Election Commissioners

My civic engagement includes being a Maui County Charter Commissioner, and director of a political action committee, the Maui Pono Network. I was also an election observer for the primary and general election for 2022 and used my 24-year experience as a systems engineer consultant. My comments are on the primary areas of vulnerability which are focused on the hired contractor and state process and a simple solution:

I Hundreds of free-floating thumb drives are used to record the data from each voting machine at the polls and transfers the data on these drives directly to the computer run by the contractor.

- Thumb Drives can be lost or misplaced.
- Any digital device can be hacked. Even encrypted drives.
- These thumb drives are used to upload votes into the computer. They do not use the paper ballots that are printed at the polls, that are safely removed and stored.

II Having worked with election integrity computer experts I can assure you that any digital device can be hacked. This opens questions regarding outside contractor counters.

- Despite calibration and testing prior to the count, the testing during the run and selected brief hand count, vulnerability can occur even remotely.
- The secured paper ballots are kept by the county, yet we rely on a contractor and the state to give us the result.
- Basically, the counties give control of their elections to a contractor and the state.

III The elections data in the hands of the contractor is transferred electronically by the contractor from Maui to Oahu where their tabulators come up with the elections results. Only after the state goes through our elections results do the voters receive it. There are several checks, yet vulnerability exists.

- Transfer of the data electronically is susceptible, despite the claims by the contractor.
- The state tabulators can be hacked remotely. I have seen it done for Alaska.
- The county has all the paper ballots, yet we rely on a system with many potential vulnerabilities.

IV The solution is simple at hardly no cost and any additional staff.

- The county holds the paper ballots for 22 month, this data is not impacted by the contractors or state digital exchanges.

- Maui county election crews are well-trained, experienced and they run a tight ship. They check and organize the paper ballots and assure each ballot is considered.
- All the paper ballots are assembled in the Maui County Chambers and there is plenty of room for two county owned counters.
- There is a lot of down time between counting runs and a crew of two can do an independent county run. These counters run about \$35,000 each and can be purchased directly from the manufacturer.

A simple solution is empowering a county to run a check on all the data moving around in digital form. It provides much greater voter confidence. It does not affect communication or voting results broadcasts as it will still come from the state. Those in the county chambers do not have phones so the county check will be only that and will not broadcast election results. There is no disruption to the overall process, requires no additional staff, and it would help resolve 12 areas of vulnerability and concern.

Mahalo for your consideration

Subject: [EXTERNAL] Act 027
Date: Monday, August 26, 2024 10:53:33 PM

Dear Michael Curtis, Elections Commission Chair

In recent passing of Act 027, which “allows the Chief Election Officer to use accurate copies of paper ballots, rather than the originals, when conducting a precinct audit of an electronic voting system's tally.” How does the Chief Election Officer assure the accurate copies of paper ballots are in fact “accurate”?

I understand the urgency to modernize post-election audit procedures; however, accuracy over efficiency is of the utmost importance when it comes to elections. After all, the ability to vote for an elected official is the heart of democracy.

To confirm the results and ensure the accuracy and integrity of the election, I believe HRS §16-42(b)(3) in its original form, was enacted to assure the electronic tallies created directly by electronic voting systems equaled the hand tallies of the paper ballots.

A functioning example of HRS §16-42(b)(3) occurred in the 2022 General Election when West Hawaii County GOP Chair, Dalene McCormick, requested a hand tallied paper ballot audit of one full precinct on the Big Island. The results of that audit revealed that electronic images were faulty, and inaccurately counted votes as an “Overvote” for then US Senate candidate Brian Schatz when the voter clearly meant to vote for said person.

My concern is centered around the formal process of voting where accuracy should supersede efficiency to avoid an abandonment of democracy. The Chief Election Officer, Scott Nago, stated in a testimony on February 1, 2024 that they found more human errors in the 2022 election due to the ballots at the voter service centers needing to be first sorted manually by district/precinct. I would presume parameters were set in place to avoid or intercept said errors on the assumption that all ballots are being sorted and stored by district/precinct.

Thank you for your attention in this matter.

Sincerely,
Mrs. Melissa Lam

Subject: [EXTERNAL] Cabjuan, Jennifer -Signature verification, 3rd request
Date: Tuesday, August 27, 2024 12:00:28 AM

Aloha,

My name is Jennifer and I have requested an inquiry from the board in previous meetings with no response or further instruction on how to resolve. My request is for Ballot Signature verification for my father who voted in 2020. Because of his Traumatic brain injury in 2019, his drivers license was suspended because he suffered a cognitive disability from his accident. Stroke like symptoms and memory loss prevented him from proper normal functions, so I questioned how he was able to cast his Vote in 2020.

I requested copy of signature verification on envelope from the county clerk but they do not have any access to records for me.

Your Chain of custody for Ballot procedures are very inadequate in my opinion. There are no images of envelope signatures on file and no way of tracking down my fathers ballot envelope that I have heard of.

I would like to personally witness my fathers signature to ensure Voter Fraud has not been committed. Please advise next steps before records are destroyed.

Mahalo,

Jennifer Cabjuan

With a record-breaking of the lowest votes in the primary in the history of Hawaii:

- 1) I would like to have mail-in ballots eliminated.
- 2) What signature is OOE using to compare and say whether it is a valid signature or not, and who makes that decision? Is it a live person or a computer?
- 3) Why did we have only 4 locations to do in-person voting on the whole island of Oahu? It's not convenient especially for the elderly if they want to vote in-person.
- 4) My other concern is why were there not enough commercials or advertisements to show how to vote, especially when the Office of Elections made us illegally CHOOSE a party on the primary election ballots.
- 5) How would OOE improve for people to register to vote and to go and actually VOTE?

Waipahu resident voter.

I vehemently condemn Mail in voting, except for the exceptions of the past pre covid times, military travel and physical disabled.

I demand One day voting only, In person, Paper ballots, Absolutely no machines at all ! which includes No ballot images. Definitely a photo ID is required from a US citizen Only. Also, the voter rolls be cleansed out.

I don't want dead people voting. I don't want people from out of state voting here in Hawaii. I don't want made up names of people voting here in Hawaii. I don't want people who didn't choose to vote here, where someone else voted on their behalf without their consent.

There needs to be much more transparency with the elections process and that observers can follow the chain of custody continuously and that we demand independent election officials to oversee the current election chief, Scott Nago and hold him accountable. And do NOT declare a winner for the presidential election from our state before the last ballot is cast !!

[Precint turnout - 5.pdf](#)

Aloha Chair Curtis and members of the Elections Commission,

Congratulations to the new Commission members and thank you for the opportunity to provide testimony regarding the conduct of elections in Hawaii this soon after the Aug 10, 2024 Primary Election.

I provided my first testimony to the Election Commission on Jan 12, 2022. Since, then I've seen some improvements and corrections made, in no small part to the hard work and dedication of the election workers and volunteers. Many of my fellow concerned citizens have and will continue to testify to the matters that concern them to include chain of custody, key control, ballot box security, voter roll maintenance and adherence to the letter and spirit of the law for post-election, pre-certification audits in accordance with HRS 16-42 (b)(3). Today, I return to one my original issues of concern and a few observations from the 2024 Primary.

1. In the 2020 General Election, I raised the issue of UNITED STATES HAWAII (first, middle, and last name) being registered to vote in Kaneohe, HI. No such person is known to reside, receive mail or receive a ballot at this registered address, but still managed to record a VOTE BY MAIL in the 2020 General Election. For this ballot to have counted, what was the name on the ballot envelope and what signature was used to match this record?
2. As a candidate in the 2024 Primary Election, I was made aware of 2024 Primary Election ballot count data posted online as of Aug 1, 2024, ten days before the Primary Election. The publisher said this data was electronically sourced from the Office of Elections. In the attached file, the published article (and now deleted online, but attached for your reference) was an old write-up from 2022, but included data tables with 2024 candidates and ballot data (starting on page 7). The Office of Elections, the Attorney General, and Prosecuting Attorney were made aware of this information being made public on Aug 8, 2024. Was there any investigation, corrective action or due diligence made on the part of any government official as to the propriety and legality of such data being published before an election contest was complete?
3. Elections By Mail has again failed to deliver on the promises of increasing voter turnout and lowering costs. The historic low turnout of 32.3% is not only deflated by the excess of inactive, outdated and dead voter registrations, but highlights a disparate impact of voter information and voter access to elections.

- a. KITV reported on Election Day the lack of voter participation
<https://www.hawaiinewsnow.com/video/2024/08/11/election-officials-report-low-voter-turnout-2024-primary-election/>
- b. Yet, an online poll of Star Advertiser subscribers shows a vastly different participation rate, see attached screenshot.
- c. The data compiled from Office of Election precinct details, shows a wide variance of precinct turnout of mailed ballots from 1.6% to 51.9%, see attached spreadsheet.

As of this moment, I'm still waiting for the Credit Data file, or commonly known as the AB file, for the Aug 10, 2024 Primary Election. Usually it is available upon request, but 17 days after the election I'm still waiting for the final list of ballots that were returned to the Counties. Ultimately, the election of public officials are determined upon the consent of the governed. It is not only in the number of the ballots cast, but also trust in how the ballots have been counted. HRS 16-24 still provides for the public count of paper ballots, as well as the order and method to do so in HRS 16-25. The Election Commission can do much to restore public trust and confidence in our elections by returning to tried and true methods of HRS 16-24 and HRS 16-25.

Election

Incumbents keep their seats in the state House

to their

November 8, 2022 · 8:34 PM HST

* Updated November 10, 2022 · 5:05 AM

UPDATE: *All voting data is through the third printout released at 4:40 a.m. Wednesday.*

Hawai'i County will have more representation in the State Legislature with one additional House seat created in January due to the increase in the island's population. Early votes show incumbents on the Big Island will keep their seats. Democratic Kirstin Kahaloa also was the apparent winner for the newly created District 6 seat.

District 3: Includes Keaukaha, parts of Hilo, Pana'ewa and Waiākea

Rep. Chris Todd. PC: Hawai'i Legislature.

Devin Shaw McMackin

Democrat Chris Todd, the state representative for District 2 from 2017 until 2022, received 5,182 votes (72.1%). Aloha 'Āina challenger Devinshaw McMackin of Hilo tallied 1,226 votes (17%).

On Tuesday night, Todd said he was happy there was representation from the Aloha 'Āina Party. While he didn't know his opponent, he said he respected him for keeping the campaign positive.

"I'm not someone very attached to the two party system and it was good to give voters other options," Todd said.

With the redistricting, he said it's a fantastic opportunity to provide representation to Puna, which for the first time will have three lawmakers representing the area.

"It will level the playing field and provide more attention to that area," Todd said

While the outcome of the race is slightly disappointing, McMacklin said the work doesn't end: "I'm still going to advocate for equal pay and housing."

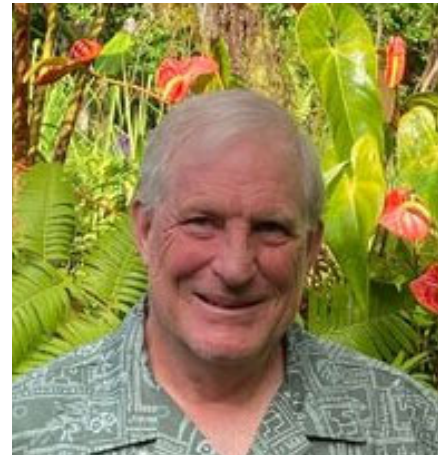

District 4: Includes Hawaiian Paradise Park, Hawaiian Beaches, Koae, Kapoho, Pohoiki, Leilani Estates and Kehena

Rep. Gregor Ilagan

Keikilani Ho

Brian Ley

Democrat incumbent Greggor Ilagan will keep his seat, receiving 4,832 votes (67.2%), easily outdistancing second-place finisher Rep. Ho Keikilani, who had 1,607 votes (22.3%).

Ilagan has served as state representative for District 4 since 2020. Previously, he was elected to the Hawai'i County Council in 2012 and 2014, chairing the Planning and Housing committees and a member of the Finance and Public Works committee.

"I'm overwhelmed with happiness and greatly appreciative of the voters," Ilagan said. "It's great to be back in politics and I appreciate the kindness of the candidates and running a clean campaign."

The easy part, Ilagan said, is winning the election. Now it's the hard part of delivering the work for the people. The representative invited his constituents in Puna to visit him during town hall meetings he's scheduled in December.

Ho, the executive director at Melaleuca: The Wellness Company and a mother of three, congratulated Ilagan on his victory.

"Personally, I wanted to give the community an option, and as a mother I have a deep concern about many issues in this state, and in our district," Ho said Tuesday night. "I ran to help bring common sense and compassionate solutions that support the community's day-to-day life."

Nonpartisan Brian Ley received 354 votes (4.9%). Libertarian Party Candace Linton received 155 votes (2.2%).

District 5: Includes Kea'au, Kurtistown, Mountain View, Glenwood, Volcano, Pāhala, Punalu'u, Nā'ālehu, Miloli'i, Ho'opuloa, Ho'okena and Pawaina

Rep. Jeanné Kapela

Lohi Goodwin

Mike Last

Democrat Jeanné Kapela will keep her seat with 4,954 votes (65%). She is the first woman and Native Hawaiian to represent her district. As part of the redistricting, she will also now represent portions of Puna.

“I am just filled with gratitude for the opportunity to continue to serve my community,” Kapela said.

The representative added she is excited to tackle challenges that will come nationally, including women’s reproductive rights.

“As we know Hawai’i has been a historically pro-choice state,” she said. “We have to buckle down and increase access to health care.

Kapela said Puna is a medical desert where there is a lack of services.

“We need to fix that along with housing,” she said. “Everyone deserves a roof over their head and it’s the job of the legislature to ensure that.”

Republican Lohi Goodwin came in second with 1,926 votes (25.3%). He said the results of Tuesday’s election weren’t unexpected.

“A lot of the local people are disenfranchised by this whole process,” Goodwin said. “I don’t think this vote reflects the values of the community but it’s who shows up.”

Despite the loss, Goodwin said he will continue to be active in the community.

“I’m not done with this yet,” he said.

Libertarian Party candidate Mike Last, a retired electrical engineering consultant, received 249 votes (3.3%).

District 6: Includes Hōnaunau, Napo’opo’o, Captain Cook, Kealakekua, Keauhou, Hōlualoa and Kailua-Kona

Using data from the U.S. Census, the district boundaries are re-evaluated every 10 years. As a result of the 2020 census, boundaries were moved to make room for an additional seat: District 6. There are now eight representative seats in Hawai’i County.

Kirstin Kahaloe (Photo credit: Kona-Kohala Chamber of Commerce)

Jonathan Kennealy

Democrat Kirstin Kahaloe will be the first to represent District 6 with 5,405 votes (63.1%). Kahaloe, president and past president for Hawai’i Island Native Hawaiian Chamber of Commerce, said she is thrilled Hawai’i Island gets an additional voice.

“I’m thrilled, honored, humbled and overwhelmed in a good way,” Kahaloa said. “I’m excited to get to work immediately.”

Kahaloa said she’s eager to hear from the community about their needs and what legislation can help the district. Last legislative session, there was a fund created for universal preschool and Kahaloa said she wants to make sure it gets used for that purpose.

Republican challenger Jonathan Kennealy captured 2,641 votes (30.8%). He is a graduate of Waiakea High School and joined the army as a military police soldier on active duty. He served all over the world and throughout the U.S. as a federal police officer.

District 8: Includes Hawī, Waiaka, Waimea, Makahalau, Palihooukapapa, Waikii, Waikōloa, Waikui, Kawaihae and Mahukona

Rep. David Tarnas. PC: Hawai'i Legislature

Monique Perreira

Democrat David Tarnas will keep his seat, receiving 5,553 votes (65.8%).

Tarnas served as state representative for House District 6 from 1994-1998 and as state representative for House District 7 from 2018-2022. He is a member of the Waimea Community Association; South Kohala Traffic Safety Committee; Waikoloa Community Leadership Council; North Kohala Community Access Group; Pohakuloa Training Area

Community Advisory Group; Hawaii County Agricultural Advisory Commission; former chair, Hawaii County Democratic Party; and flutist with the Hulihee Palace Band.

“I’m grateful I can continue to serve as state representative,” Rep. Tarnas said. “I’m looking forward to working with the new administration.”

Tarnas said he hopes to remain chair of the water and land committee so he can continue to address water shed and coastal issues.

Republican Monique Perreira, a licensed massage therapist, garnered 2,477 votes (29.3%).

Subject: [EXTERNAL] Election Commission MUST Remove Scott Nago
Date: Tuesday, August 27, 2024 9:56:55 AM

Aloha Election Commission,

Scott Nago, Head of the Office of Elections, must be removed from his position as he has shown numerous times he has no integrity and does not honor the election process.

Reasons for his termination include, but not limited to the following:

- Federal law requires an Election Officer (Scott Nago) to retain, preserve, and maintain control over & access to the Cast Vote Records for 22 months following an election. He states that, before the 22 months concluded, he lost access and could not provide citizens with those records. **This is a federal felony.**
- An eye witness told Mr. Nago that there was a potential connection to the internet at the election station (which is illegal AND makes the results vulnerable to manipulation). Nago disregarded the witness's concern. The County Clerk called the police on the witness. Other observers vouched for the witness and the police left. However, Scott Nago sent the witness an email, removing him as an Election Observer. Nago had no right to do that!

Coordinated takedown... instead called the police on him.

- Numerous citizens complained to Mr. Nago about concerns they had with election integrity and he ignored them completely.
- Mr. Nago failed to correctly inform the Election Commission during the June 2024 meeting of retention/preservation, appearing to suggest that records could not be accessed until AFTER the 22 month period.

I request that the Commission **terminate** the employment of at-will employee Election Officer Scott Nago and refer the details of extensive citizen testimony regarding felony, fraud, obstruction, etc., to appropriate legal authorities, as required under the law.

Mahalo,
Frank Moritz
CUH Alum now residing in Florida

Subject: [EXTERNAL] Removal of Scott Nago
Date: Tuesday, August 27, 2024 9:57:56 AM

Aloha Election Commission,

Scott Nago, Head of the office of elections must be removed and all the complaints against him investigated. He and those who have directed or approved of his numerous illegal actions must be held accountable fully under the law.

There are dozens of issues have been raised about our elections and they have it seems been universally swept under the rug; the court has refused to hear over 30 lawsuits alleging numerous lawful violations and Nago continues to be employed in this office! He must be terminated and replaced by someone who honors the constitution and will ensure as is their job, lawful and fair elections.

The insecurity of voting machines and the ease of manipulating mail in ballots must be addressed honestly and lawfully. Elections are sacred contracts. We must have the utmost integrity and transparency in this process!

I know that others will list some specifics, they are already well documented and available as court filings that were not heard by our courts there are also copious other complaints by voters.

Please remove him and investigate immediately and prosecute to the fullest extent of the law wherever that truth leads.

Sincerely.

Kevin Hill
